Demencious Saga Sadie Sins

This volume contains episodes 1-4 of Demon Bonded, as well as the bonus episode 'Far From Home', written by Sadie Sins and previously published 2015-2016. Demencious Saga is the first saga in the gay, mm erotic world of Demon Bonded. This serial is a fun play on monster collecting and male harems. Expect demon bonding, master/slave relationships of mild and abusive nature, multiple partners, magical powers, learning how to be a sorcerer, and conflict with crueler demon masters.

After his father is laid off, Ky Scion is forced to reside in his ancient family manor in the small town of Blackstone Falls. An outcast to the local farmers, Ky turns to repairing the huge house while pursuing his art degree. His parents are blind to the terrible secret he slowly discovers among the bloodstained walls. Something is living in the dark, in the nooks and hideaways of the old house. Something with hot breath and strong hands that wakes Ky up in the middle of the night.

In the dark hides the demonic Relics. Unique and beautiful, they're exploited for their power and fought after viciously. But Relics aren't items, they're sentient beings, demonic people stolen from their very world to be bonded into servitude to callous sorcerers.

Ky's grandfather disappeared years ago, leaving his Relics to be killed off, one by one without his protection. Smelling of rot and blood, Ky can sense the monster's approach. But he's not a sorcerer, and has no way to defend himself from the murderous beast set on revenge.

18+ This serial contains explicit m/m sexual content, graphic language, violence, and themes of bondage.

Cathy Bazan says

This is a very good and interesting story. It is very explicit, but I really enjoyed it even though I am female.

I received this book through Goodreads First Reads.

Colin Hardy says

Probably the quirkiest thing about this saga is its structure. Each of the episodes which make up this volume are made up of a number of short chapters. The episodes appear to be an arbitrary mechanism for dividing the overall story, but there is nothing cohesive about the process. Other than the first episode there is no defined beginning; similarly, other than the scenic development of each chapter there is no real ending. This structure does not affect the reading of the book.

There is good characterisation development of the limited number of central characters. The system of magic is interesting in that it facilitates intimacy. Whilst the lead character is young enough to be driven by hormones, his willingness to pursue any suggested act with any who are interested, largely without question, is possibly pushing it a little. There is also quite a lot of it, which is not necessarily a bad thing.

The lead character is drawn to the first of the demons and this is reciprocated, it is unclear however as to what they have in common other than the sex and the lead character's willingness to please.

The final episode does not really have an ending beyond being a chapter. It is clear that the story will continue in the next saga. The author provides a further set of chapters that provide some background to the demons and how they came to be brought to this world. Whilst interesting, this could have been built into the story. Where it is sadly feels anecdotal.

The book was an interesting and easy read and I will look to read the next saga.

This is the first four episodes of the amazing Demon Bonded series. Yes, amazing is the best word to describe it. The development of the characters both past and present brings them to life. Each episode gives you a little more of the puzzle. Plus, the bonus episode shows you how it began.

Episode one is where we meet Ky. He's just moved into the family estate and is looking forward to college. He's an artist who prefers his own company to others. Through exploring his home and the many strange things in it, he learns about what his grandfather was into.

Episode two is where the story starts opening up. You get to meet Feral who's another demon in the house. There is so much more character interaction. This one focuses more on Ky's feelings and perceptions. I love how the author pulls you in and leads you towards the next episode.

Once you get to episode three, you see Ky, Lovely, and Feral starting to be open with each other without

giving a lot of the story away. Ky is starting to figure out what he's dealing with. He's building his confidence up thanks to Lovely and feral. All while having some of the hottest scenes. Sexy enough to make you a demon lover as well. Yet you know that there's more to learn.

By the time you get to the fourth episode, you think you know what's going on. That's not so. The author still has surprises in store for you. While the pieces are coming together, you're still aware that there is so much more to know. By the end, you are eagerly awaiting the next book.

Sadie Sins is one of my favorite authors. Not only is she talented, but she is fearless. She writes with such a free spirit and is not shy about her subjects. She conquers demons, families, and fears. Her characters come to life as you read. The emotional depth that she's able to convey in even her short stories will blow you away. I have yet to read a book I didn't love. Read one for yourself and feel a little fearless too. I would like to thank the author for the privilege and opportunity of this ARC. This is an honest opinion of the book.

Do You Know What Is Lurking In The Shadows? Let's Find Out!

Wow! This book is hot and heavy! The storyline is great and the sexual scenes are hot enough to melt steel.

If you are looking for an excellent m/m erotic story, you've definitely found it!

Received this book through Giveaways.

This book has a very good pace, with very good twists and a very self explanatory kind of way.

Never I've been bored and keep Reading it all the time I had a chance.

I've never read a book of this kind, so for me, I thought it was very explicit and graphic in some parts as I'm not used to.

Congrats Sadie, keep coming with new stories

J says

Excellent world building.

Demencious Saga

An interesting story of monsters, demons and magic. I enjoyed the story for the most part I wish there was more depth and look forward to seeing where the story goes from here and hopefully learn more about the characters and their relationship.

I voluntarily read a Review Copy of this book. All opinion stated are solely my own and no one else's

I absolutely loved this book: it was creepy, erotic, sexy and intense. The magical demons were fiery yet sexy but Lovely's infatuation with Ky was hot as hell. This was a great story full of magic, mystical creatures and scorching hot sex scenes that will literally have you drooling.

Sabrina says

It was....okay, I guess? I mean, since the stories were so short it was kinda messy and quick but *shrug* i don't know, if you're bored with absolutely nothing else to do or read, this will surely pass the time? Which is not something good in my book. I don't want a book to just "help me pass the time". I want a book so interesting and engaging I forget about the real world.

Lee Hall says

OH MAH GAWD! This is one HELL of a sexy series!!! I was not only impressed by Sadie's characters, but the sex is absolutely out of this world. I would have thought after reading MM books all these years that I couldn't be completely turned on by a scene, but she did it. WOW!!! If you're looking for something unique (characters are amazing) this is the series for you. I'm really, really looking forward to reading the rest of these amazing books!!

Danyelle says**loved**
