Destinados a amar (Bianca) Cathy Williams

Estaba embarazada de un hombre que no era como ella había creído...

Charlotte Chandler se entregó en cuerpo y alma a su guapo amante, pero sus sueños se hicieron pedazos cuando descubrió la verdad... el italiano que la había seducido era el despiadado magnate Riccardo di Napoli. Para entonces, el daño ya estaba hecho...

Riccardo no había podido perdonar a aquella inglesita y no comprendía por qué desconfiaba de él. Charlotte sabía que, en cuanto se enterara de que estaba embarazada, nada detendría a Riccardo hasta hacerse con su hijo... y con ella como esposa.

Tia says

Read this in 2009. I just read it again because it was not reviewed on here. I liked this book, thought it was good and the heroine was a strong girl. I didn't fell much, if any connection to the hero, he seemed selfish to me. His love, to me anyway, didn't flow as deeply as the heroines did for the hero.

IamGamz says

I enjoyed Riccardo and Charlie's story until I got to the sappy "You complete me" bit! Ugh! If you're gonna do a sappy ending, at least let it be an original sappy ending!

For the most part the story was ok. It entertained and I like the crappy Secret Love Child books. I buy them all. They are one of my delicious guilty pleasures. But this ending..."You complete me"...still shaking my head at that one) left me cold.

Kaycee ❤? says

I loved some of the author's books, so I thought I would enjoy this, too. Unfortunately I didn't enjoy this much. There were things that put me off from enjoying this. They lacked chemistry and there wasn't enough build up and foundation to root for them. Most of the scenes also failed to hold my attention.. which was so disappointing.

This book is just not for me, but maybe it is for you!

Dorothea Müller says

Charlotte kann es nicht glauben, als bei einer Hausbesichtigung ihre erste große Liebe vor ihr steht. Riccardo di Napoli hat vor acht Jahren ihr Herz gebrochen und er darf auf keinen Fall von ihrem Geheimnis erfahren. Denn sie hat ja keinen Platz an seiner Seite verdient, laut seiner Mutter.

Eine schöne, romantische und gefühlvolle Geschichte, die mit einem kleinen Ausflug nach Italien macht und dann geht es gleich nach London. Charlotte hat sich ein Leben ohne ihre große Liebe aufgebaut. Jetzt will sie ihre Leben wieder leben und einen Mann finden der verlässlich ist. Dann taucht er wieder in ihr Leben auf und will dort weiter machen wo sie aufgehört haben.

Bem Baulos says

Really enjoyed reading this book. its sexy and funny. Quite happy to see Ricarrdo to grovel and A heroine

like Charlie that has a backbone! love Cathy Williams!

Alexis-Morgan Roark says

I read this one last year, and upon reading it again...I find myself still angry. Seriously? It's been EIGHT YEARS!! In all that time, she couldn't drop a line to say, "Hey, you got a kid idiot!"

Initial hurt...understood. Mom's an idiot. Ex-boyfriend is a nightmare! Blah. Blah. But seriously? She needed to grow up. The problem is that I inherently don't like the whole "secret baby" theme, but I try to move beyond my prejudices and broaden my horizons.

Blah. Blah.

There was NO EXCUSE, in this book, for eight years to have passed without that little girl meeting her father. She was a careless, immature, and, yes, scared of further rejection young woman.

Ok. Can you tell that I don't like this theme?

Beyond all of that...the hero was a domineering, dictatorial, idiot who should have been smacked "upside his head" repeatedly.

I feel better now.

Nikki says

The hero and heroine never seemed on the same page about anything. The biggest moment was never flashed back to. Very dull.

RomLibrary says

After Charlie was seduced by gorgeous Riccardo di Napoli, she was shocked to find he was from an elite Italian family and was one of the country's wealthiest businessmen. Knowing the powerful tycoon could never love an ordinary English girl, Charlie fled, taking her precious secret with her.

Now Riccardo wanted Charlie in his bed once more! But Charlie was wary. She knew that once Riccardo discovered the truth, he would claim her child as his own...and Charlie as his convenient wife! Charlotte secret baby in English countryside but not the book I was looking for.

Edina Rose says

WHERE HAS ALL THE PASSION GONE?

Charlie is eighteen and madly in love with her summer fling, whom she thinks is struggling worker with no money.

Riccardo is twenty-six, super-rich, and thinks he is having a fling with a mature twenty-four years old woman who, just like him, wants to have some fun, no strings attached.

The "fling" ends dramatically when they discover the truth - or should I say the lies- of each other. But their passion was not without consequences...

Eight years later, they bump into each other, and the passion is still there. She is wary of him. What will he do if he discovers they had a child together? And even though she still dreams of him at night, nobody wants to get burned twice in a relationship with no future.

But the more she avoids him, the more he pursues her. Soon he learns that he is a father. And he will do whatever is necessary to be a full-time father... with the most satisfying bonus of bedding Charlie.

The plot is good, but the story lacks passion. Riccardo is a bit weak for an alpha male. Charlie lacks the fire that makes great heroines. Really, the beginning is very good. But by chapter two, it is pretty boring. Even their daughter was not a great character. She could have played a more important role.

Tania says

quotes#171403 i collect passages for further pondering ...

Charlotte automatically reached down and smoothed some of the dark curls back into position, "Okay. Now, you're sure you've got everything?"

"Sure!"

"How sure?"

"Two thousand sure." They grinned at each other, enjoying this little game they had been playing before school since time immemorial, and then they were off. p28

Becky says

Book was a decent if uninspiring read, at least giving some inkling of hero's feelings but never showing the full drama of how heroine was treated 8 years ago by hero and his mother (with a scene that ends with heroine's arrival to his home, literally skipping what could have been the good part!). Book even skips the actual meeting again with the mother...so much missed drama.

But book goes off a cliff at the end when hero says "We were both too young, and there was too much living left to do to settle down with one person." Except heroine of course went EIGHT YEARS without being touched by a man until a recent 3 month lackluster relationship with a few lukewarm kisses. Her turning his proposal down and his moving in, as well as the female child, provided some interest, but the core story of her celibacy while he sows his oats and then realizes his feelings only when he sees her hug another guy? So

formulaic. His declaration of love was so false. Oh and of course, she quits working at the end, which is the ultimate happiness, being dependent on such a "reliable" guy.

rm2h says

Sketchy on backstory and I did not believe they were truly in love

Ane says

Rich guy (26) pretend to be normal Joe at his own vineyard, has fling with 18 year old girl pretending to be 24, tells her he's leaving to visit his mom after 7 weeks of fling, so essentially "breaks-up" with her then, but girl is in love with guy, so when guy drops a piece of paper that has his mom's address, she decides to go surprise visit him to convince him that she doesn't care that he's a normal Joe and that they are fated to lurrrve each other, but when she gets there, normal guy turns out to be super hella rich kid with a mom that wants nothing more than normal girl to leave because her super rich son is only destined for rich billionaire girls only. Normal girl is heartbroken, so she goes back to her normal life after rejection from rich guy. 8 years later, rich guy is back in normal girl's lives, can't get over the fact that she wants nothing to do with him now, pursues her by coming to her house, then finds out he has a secret love child! And she's 8! Demands to be part of their lives and then HEA!

Some things I liked about the book: that she didn't fall into bed with him the first day of their reunion, that she kept knocking him down a peg whenever he tried to bullhead his way back into his life by demanding she marry him after finding out that they have a child together, and that, at least, he showed **some** slight humility to try to redeem himself (even in his own stubborn way).

Crystal says

Charlie is only eighteen and she meets the guy of her dreams. She really didn't know much about Riccardo di Napoli. She just thought he was a man working for a living and you know that she was making plans for the future. All was fun into she found out that Riccardo is from a rich and elite Italian family. She knows that she can never have a life with him. She does the only thing she knows to do when she finds out she's pregnant. She runs away as fast as she can taking her secret with her.

Charlie meets Riccardo eight years later and she is afraid that he will learn her secret. I know that you can imagine what happened when he found out. You will have to read this book for yourself so that you know what happened. I really enjoy this author and her writing style.

Mirabela Maria says

This book was pretty much ok until the last pages. When I read "'Eight years ago, I let you go. We were both

too young, and there was too much living left to do to settle down with one person.'" I was furious. How can you basically say I've met the love of my life, but I wanted to screw more people and then settled down? For this reason alone, I practically hate this book.
