## Don't Judge a Girl by Her Cover Ally Carter

When Cammie "The Chameleon" Morgan visits her roommate Macey in Boston, she thinks she's in for an exciting end to her summer break. After all, she's there to watch Macey's father accept the nomination for vice president of the United States. But when you go to the world's best school (for spies), "exciting" and "deadly" are never far apart. Cammie and Macey soon find themselves trapped in a kidnappers' plot, with only their espionage skills to save them.

As her junior year begins, Cammie can't shake the memory of what happened in Boston, and even the Gallagher Academy for Exceptional Young Women doesn't feel like the safe haven it once did. Shocking secrets and old flames seem to lurk around every one of the mansion's corners as Cammie and her friends struggle to answer the questions, Who is after Macey? And how can the Gallagher Girls keep her safe?

Soon Cammie is joining Bex and Liz as Macey's private security team on the campaign trail. The girls must use their spy training at every turn as the stakes are raised, and Cammie gets closer and closer to the shocking truth.

### Sue (Hollywood News Source) says

**REREAD:** July 27, 2015

I WAS INNOCENT ONCE.

**Initial Read:** January 22, 2015

I ship Solomon with Abby a lot.  
and I also ship Macey and Preston. That's the only update, I could ever give you.

---

### Stephanie says

I swear, this series gets better and better. So I definitely wasn't disappointed with Don't Judge A Girl By Her Cover.

The plot gets more interesting and it definitely has more action. I mean, a kidnapping attempt on the daughter of the governor, soon-to-be, VP of the US? Yea, action packed novel for sure. And not only is there an kidnapping attempt, who are the people behind it? And who exactly are they trying to kidnap?

The characters are definitely more well-defined. Cammie seems to be a lot more mature in this novel and her relationship with Zach is more confusing as ever which only adds an element of mystery and suspense to Don't Judge A Girl By Her Cover. Cammie's best friends are, as always, her loyal sidekicks. So they're always a refreshing element to the plot especially with their obvious different activities and specialties.

The writing style is also a lot more flowing. There's definitely not as many parenthesis (I'm really against it, if you couldn't tell. So against it that in fact, I use them too! :) and if there were, it didn't bother me as much.

My favorite part is probably the disguises. I mean, you get to read about Cammie dressing up as a hooker! How amazing is that? It's totally entertaining and hilarious. Plus, you get a lot of advice in spy stuff too which is always helpful. :)

The ending is kind of a cliff hanger but then again, it shows that there's a definite continuation. If there isn't...I'm gonna sue! Hahaha.

Overall, I can't wait for the next installment of the series!

---

### Mimi 'Pans' Herondale says

Real Rating: 4.5 stars

I really like this one better than the other books!

---

### **Beth says**

If you know that someone prone to sneaking out is a target, maybe informing her would be better than relying on vague "this is dangerous!" speeches and hoping for the best?

This book is ridiculous, but Preston makes me laugh. Abby's a little over-the-top here, but Zach and Mr. Solomon and Rachel Morgan are great.

---

### **Mafi says**

Não estava nada nos meus planos ler esta série agora mas estou meio que viciada!

"Quem vê caras não vê espiões" teve o papel difícil de começar a grande estória que é desenvolvida até ao final do último livro. Aqui a vida de Cammie complica-se ao ponto de quererem matá-la! Também são introduzidas novas personagens como o Preston que aqui mesmo não tendo grande relevância, certamente tem o seu destaque nos últimos livros da série. É engraçado como a autora consegue explorar todas as personagens e desenvolvê-las ao ponto de a sua presença na série é linear e não irregular. Seja a mãe de Cammie, os professores ou as amigas, todas elas têm um papel fundamental na construção do enredo. É importante e agradável que a autora não tenha centrado toda a atenção na Cammie e que os laços de família e amigos estejam sempre lá.

### **BookHeroin says**

3.5 stars!

I really like the progression of this series.

---

### **Nikki says**

I finished the galley for this book last week and I really enjoyed it. I think each book could have more in it though. I'm not sure what I mean about more, but the books are spread out too far and are too forgettable that if there was more to it, I wouldn't have to spend the first few chapters trying to remember what happened in the last book. Maybe it needs more action or more missions or something. That being said, I always enjoy the books when I am reading them and this one is no different. I love the idea of a spy school for girls and I like the main character very much.

---

## **Kelly Brigid says**

I forgot how darn, short these books are - only 260 pages! Definitely an improvement from the second book.  
^\_^\n

## **C.B. Cook says**

Hoooooooooooo???? How could Ally Carter make this my favorite book in this series so far??? This book was so exciting, and I think the reason I like it best out of all three is that it had more of a mystery feel to it, and the romance was less. Plus, it gave all of my characters awesome moments and chances to show off their awesome spy skills. A few of the characters did dumb things (\*cough\* CAMMIE) but I've kind of realized that "doing dumb things" is part of Cammie's character. Really loved this book in the series, but THAT CLIFFHANGER THO.

Series predictions (read at your own risk) (although I am completely guessing here and you're probably fine just reading them) (also, if you've read farther than me, please DO NOT comment below and spoil things ;)) (okay, I'm done):

(view spoiler)

## **Y says**

Definitely an improvement over the first two books; it's basically what I'd wanted to see from the series to begin with: more actual spy action (that isn't focused almost completely on *boys*), and an actual focus (somewhat) on Cammie's relationship with her friends, (specifically Macey, who is admittedly probably my favorite character in the series, so bonus points for that) which has thus far been rather superficial.

The book is marred, however, by having dramatic scenes, particularly toward the end, that all scream "This was so aVOIDable!" had most of the adults actually, you know, decided to divulge what they knew with Cammie and Macey earlier on in the book. Bad things happening because of people in the know keeping secrets from other people who have a right to know to keep themselves safe always smacks of a cheap way to have a plot. Regardless of what Solomon and Mom say, if they honestly knew pretty much nothing more than Cammie all that time, then they're pretty sorry-ass spies and not really in a position to be protecting her, I'd think, *especially considering that the girl has a huge habit of sneaking out of the school, on multiple occasions, and everyone knows it*. Most likely they *did* know more but chose not to give the girls any clues for...what reasons, I can't think of any smart ones right now, considering the *previous italicized and bolded segment above*. Because they're still "kids"? Hello, these are girls that are trained to deal with highly sensitive government information and how to kill people using mundane, everyday objects. They're *not really kids*. Get your priorities straight.

Actually, that's something that's kind of been bugging me about these books. The teachers at Gallagher are largely supposed to be some of the greatest spies of all time, but...personally, I've yet to see much proof that would lead me to agree.

### may ☺ says

I fail to see the point of this book??? It could honestly be condensed down to 30 pages and added as an excerpt in another book.

I enjoyed how friendship seemed to be the dominating theme of this book but the lingering love interests is pissing me off bc \*\*love triangle\*\*

The humour has not picked up nor has the writing. Still v juvenile, still v lame

Hmmmmmm, what else?

Cammie is annoying. Her friends are much cooler than her and I think it would be more enjoyable if we got some more POVs going around ((especially Bex))

My brain did this thing again where it wouldn't comprehend what I read, I think it was to save me from anything traumatic and intensely boring

Hopefully this series picks up bc its still boring and idk man, not much else to say.

*"I thought about how there are two types of secrets: the kind you want to keep in, and the kind you don't dare to let out."*

1.5 stars

---

### Lola says

*"Sometimes people run... to see if you'll come after them."*

In book one, we see the girls opening **themselves to the outside world**.

In book two, we see the girls opening **their hearts**.

In *this* book, we see the girls opening **their eyes to face danger**.

Things are getting serious.

When someone tries to kidnap Macey, a fellow spy student at the Gallagher Academy, everything changes for the Gallagher girls.

The girls are growing up. They're becoming more mature and more focused. It can easily be said that this whole series is a coming-of-age story, among many other things.

It's not one of my favourite series because it's interesting. Or unique. Or well-written.

It's a favourite of mine because the characters remind me why I love reading in the first place.

They're brave, strong, intelligent but the most important part is that they make us reflect upon ourselves. Are we the people we were always meant to be?

They make us believe that we, too, could make a change in this world. That saving someone isn't about having the right gadgets or impeccable timing, but about knowing them and being there for them.

These girls make me want to be a better person.

For now, all I have left to say is that, in an alternate universe, I hope I'm a Gallagher girl. It would make me proud and very, very happy.

### **Mary says**

please  
for the love of all that is holy and pure  
read these books

---

### **Briana says**

I hope I can wait for this book to come out. I am sooooooooooo excited! Ally Carter is a great writer, and everyone should read the Gallagher Girls series.

---

### **Rita Carvalho says**

Wow, these books are truly amazing, I never get bored because there's always something happening and a lot to figure out. To be honest, most of the times I have no idea of what is about to happen and that's why I find it so interesting.

This particular book was so OMG, I'm still shocked and I really need to read the next one to know the truth. I mean, what the hell is happening???

Now, about Cammie and Zach: I think they're very cute and they have to stay together in the end, but he has so many secrets and he's so confusing, gee.

And Abby and Joe... WHAT?? They're also really cute because he's different with her, it's like he's got a heart after all.

All in all, it was a great book and I'm dying to read the next one!

---

### **Lindsey (Books for Christian Girls) says**

Pretty good, pretty good. The plot is thickening. The writing was a tiny bit better, but still confusing at some parts. Less romance than the first two, but there was a kiss or two, many mentions of guys being hot and their hotness. Language was overall clean, with really only a 'wuss'. Aunt Abby was awesome, and I like that a bit more was said about Cammie's dad.

I'm curious to see what will happen next, so I will be reading the next book in the series. ;)

---

### **Sally ? says**

***"I thought about how there are two types of secrets: the kind you want to keep in, and the kind you don't dare to let out."***

Preston is so pure and wholesome and I love him so much.

Zach is so shady and mysterious all the dang time, but I still love him.

Aunt Abby is everything I aspire to be.

---

### **Tricia says**

Ally Carter is a great writer and this book just proves it. She weaves in the new mysteries and includes some old ones too, just to tie all of the books together. Once it comes down to the final showdown, I wouldn't be surprised to see all of the characters (spies or not) included in the battle. This series is fantastic, and I definitely recommend this book

---

### **Rebecca says**

These books are seriously getting better and better. The characters are as kickass and amazing as always and the overall plot is so intriguing. I have so many questions and I can't wait to see how it all pans out. This one was certainly a lot darker than the first few and it was perfect. Seriously my favourite so far.

---

### **Laura Gardner says**

Cammie Morgan is back in her most exciting adventure yet. Roommate Macey McHenry's father is running for vice-president and Macey is a target. After an incident on the campaign trail when Cammie and Macey

barely manage to escape an attack on their lives, a new operative is brought to Gallagher Girls Academy to watch out for Macey. Cammie, Liz and Bex are told not to worry, but when have they ever followed the rules before? And why does Cammie keep seeing Zach in strange places? Does he still like her or was their kiss in book 2 a one-time thing?

I loved this book just as much as the first two, *I'd Tell You I Love You But Then I'd Have to Kill You* and *Cross My Heart and Hope to Spy*. I highly recommend this series for middle and high school students. Ally Carter writes books that are fun to read; I can't wait for book 4 in the Gallagher Girls series!
