After returning back to her hometown, the strikingly alluring Solai Givens was prepared to put her degree to good use and embark upon her professional career. Upon leaving three years prior, her feistiness, and what others assumed to be, privileged attitude, had caused tension in a relationship she was only trying to see flourish. Being bashed for her upbringing, she thought was a thing of the past until she met Juvie.

Wrongfully doing so, Solai shuts down any chances of him trying to win her over, but with time comes maturity for some, and she was now overwhelmed with the pressure to rekindle the flame that had long ago been burned between she and Juvie.

Juvie, redefined in every sense of the word, has transformed from the average Joe to the head honcho. After his confidence was shredded at the hands of Solai, unintentionally, he was left with no other option than to boss up! Years have passed in between the two, but their reunion is none other than amazing. However, the tables have shifted, and Solai no longer desires to have him at her side. Being the nigga that he is, Juvie uses the skills that he's acquired in her absence to try and reel her back in.

Looking on, friends and family of Juvie and Solai both seem to enjoy their reconnection, all while dealing with their own issues at hand. The lifestyles once lived are a thing of the past and they all seem to be struggling to hit the hardball life keeps pitching their way. Love, lust, betrayal, and denial all hit the surface at once, and they are left to question only one person... themselves.

In this gritty, drama-filled hood love story from BriAnn Danae, read along as loyalty is questioned, secrets are being kept, but friendship is the one thing that never wavers. Life is quickly changing around them, and if Juvie and Solai aren't careful with the decisions they make, the love they seem to yearn for will be the least of their worries.

### Juvie my love.

From the moment this book started I knew I would love the relationship Juvie had with his brother he loved that boy like a brother and like a father love a son. This story was so bitter sweet. I was really rooting for Solai and Juvie they are so cute together I see great things happening for them in book two. That ending omg I hope my lil baby Ramon is ok because this is all Tesh fault she was so damn weak and scary I loved her but this is her fault forreal. As for Anika that girl waited too late to reveal her feelings for Krew. I loved how Harvey took on the father role for Kareem if only Yae could look past his age and his parents

I've never heard of this author before, and I'm upset that I haven't. I loved the characters in this book! Juvie, and Ramona are brothers, and they haven't had the best upbringing, but what they did have was the support and love from their grandmother, and mother. They never complained, because they knew that their mother did her best, with what she had. Juvie was the man of the house, and he knew that college wasn't for him, but he knew that with the skills that his brother had on the court, he was going to make sure that when he came in the position to move himself, Ramona, and their mom out of the hood, he would do so, without any hesistation. Juvie was a ladies man, but at the end of the day, he was slowly falling for Solai.

Ramona, was loved by the ladies, but his only focus was becoming a star, and being a beast on the court, that is until Tesha came into the picture. Ramona and Tesha both had a common love, and that was the basketball court. It started off as a simple friendship, but it turned into a secret love affair. Romana slowly became Tesha's listening ear, and sound of reason, he knew Tesha's secrets, when no one else knew, and he wanted what was best for her in every way. Romana just couldn't understand why Tesha chose to stay with Tremaine, with the way he treated her.

Solai was the complete opposite of Juvie. She came from money, and was loyal, with the brains, beauty, body, wit, and a smart mouth to go with it. She came from a two parent home, and she had the best of everything. Most would be stuck-up, with what Solai had, and came from, but she was the complete opposite. Solai was always on top of her game, until she meets Juvie. Juvie give her feelings that she's never felt... the sweaty hands, the butterflies, and it doesn't matter how many years have past, she can't get Juvie out of her system. He's so guarded, and sometimes he hurts her feelings, or rubs her the wrong way, but he's like a drug that she keeps craving for.

Tesha was Solai's best friend, but she was the one that was given the hard hand. Tesha's mother was just downright selfish, and she treated Tesha like an unwanted pest. The things that Tesha's mother said to her daughter was unforgivable. Tesha wanted love, and she thought that she found that in her boyfriend Tremaine, but imagine her surprised when Tremaine started abusing Tesha, mentally and physically. Romana was there when Tesha needed him the most, and for that, she wiil always be grateful.

Juvie, Solai, Romana, and Tesha take you on a ride of your life. The way that the secrets, and drama, unfold

will have you on the edge of your seat. Juvie and Solai are in a cat and mouse game when it comes to their situationship. They go tick for tack, and they're both too prideful to notice what's happening right in front of them. What Tesha and Romana have are epic, but no one knows what is happening between the two of them, but like all secrets, they come to the surface. Briann Danae gave me life with the characters, and she gave her all, when she wrote this book!

### **A Hood Love Story**

This is all on Tesh. She knew Maine had a tracking device on her car. That baby O is carrying isn't Juvie's and I can't wait for the truth to come out. I hope Solai finds someone that deserves her. I'm hoping Krew don't go back to Anika trifling a\$\$\$. Aunyah needs to realize Harvey love for her and her son is real

## **Taz Will says**

This was a good read to follow along with. I knew the mess Tesh was in would catch up with them but I have a feeling the author is going to pull the typical move. The same person that has Oriana knocked up is the same one behind the ending. He thought it was Juvie but then again I doubt he really cares either way, I think Maine had nothing to do with it. Hopefully Ra sticks around because without him in the story it really won't be that good. He needs to harden up and without him in to show his transformation it just won't be the same.

### **YOUNG LOVE**

This is a story of young love. Juvie and his crew just graduated from high school; as did Solai and her besties. Looking forward to getting their lives underway, each makes their choice. Not all of them are happy with their lives but time marches on.

Fast forward three years and some things have changed; but, one of the girl's situation has not. She's been in an abusive relationship for years...first at home and then with the boyfriend she lives with. The one bright spot in her life is her secret "friend" who, before all is said and done, pays the ultimate price for that friendship.

Juvie and Solai's paths cross after three years of not seeing each other. Juvie, always attracted to her, never thought he was good enough. But since he's come up in the world, he will stop at nothing to have her, even though he's got a pregnant girlfriend.

The ending will have you in an "oh no" moment. And leave no doubt that all hell is about to break loose. Come on with part 2 because I want know how both crews will handle all they're faced with.

### **Wow!**

This was my first read by this author, and let's just say I'm now about to search for her other books and read them immediately.

Everything I enjoy when reading, was found in this book. Let's start with the writing. This author took her time and told Juvie and Solai's story from the very beginning. Some may say it started slow, but I beg to differ. The author laid the ground work for an unbelievable plot, climax and cliffhanger. And provided just enough conflict along the way to keep me interested, until the story peaked.

The characters and their storylines were believable and diverse. I would definitely recommend this book to fellow readers and I hope the wait is not a long one for Part 2. Kudos to the author!

## **Latoya Brooks says**

### **Great read!**

This book started off a little slow for me. Anika just couldn't let crew love her, and it took seeing him with someone else for her to wig out. Juvie is just being a male. He's having his cake and eat it to. I hope solai sticks to her word and doesn't mess with him. Domestic violence is so real. It took Ramon getting shot for Tesh to make a move. Hopefully, she can get out before its to late. Hopefully it will be Ramon's baby.
