### **Rebecca says**

This book was okay. But nothing more than okay.

Jeff Mariotte has written other Buffy and Angel books that I enjoyed but for some reason this one just did not do it for me.

I got the feel for the characters okay and they were in line with tv show and the references to what happened so far were accurate and up to date for when it was set.

Even the storyline was good with vampires trying to bring about an endless night - kind of reminded me of the first Blade movie.

But I can't exactly put my finger on it unlike the Buffy books I did not love it.
