To quote a friend, "meh" on this one.

Driven by his father's death, Russell works himself to the bone to become the real estate tycoon he is today. Motivated to destroy the man he holds responsible for his death Russell feels strangely empty when the moment finally comes. Meeting his enemies daughter and being completely and utterly blown away by her Russell thinks maybe that will cure his empty feeling and pursues Nicole with a vengeance.

Nicole is far far removed from the person the press describes her as, from the reputation she holds and from the two somewhat heartless people who have raised her. All she knows about Russell is that he's the man who bought her stepfathers house and that the more she gets to know Russell the more she's falling head over heels in love.

Miranda Lee is a must buy for me and when I saw her book in the back of the second hand store I had to have it. I wasn't disappointed, this is a classically written revenge seeking trying to be heartless hero story who's actually a bloody good guy when he's not being blinded by his drive for revenge. Nicole is lovable and I really like her. She's a ray of sunshine next to Russell's cloud of thunder. Russell does some pretty heartless things sometimes but overall I still really liked him and hoped for his happy ever after.

Written in 2010, a very enjoyable read. Love the cover and love the emotion Miranda Lee is an absolute legend at delivering. I will be looking up Book Two and Three in this series.

"Revenge lite" story that kicks off a series of three billionaire friends. The H/h of this story actually attend the wedding of the couple from book three, setting up their marriage in trouble story.

The hero is a real estate developer who hates the heroine's stepfather because his predatory loans caused his father's suicide when the hero was 16. Hero's mother never blamed the stepfather and has moved on with a new husband, but hero confronted the stepfather when he was hot tempered teen and has ever since burned for revenge.

He bought the mansion the socialite heroine grew up in. She has just returned from her Eat,Pray, Love tour of Thailand after finding her ex having sex with his PA in his office. She is in the shower when the hero investigates what he thinks is a squatter in his new digs. It's insta-lust for the H/h.

Hero decides to seduce the heroine as part of his revenge and the rest of the story is the hero realizing he's misjudged the heroine and the heroine falling in love and getting over the betrayal of her ex. Hero treats her well and there isn't a lot of angst.

The hero isn't in revenge mode very long - and the black moment - when the heroine's mother recognizes him as the angry 16 year-old from long ago - lasts all of a second. Heroine isn't buying it. HEA

The "I assuage my guilt for my privilege by handing out water bottles to orphans" is simplistic and glib - so skip if that kind of thing rankles.

meh. Even though it's a quick read like most Harlequins, I fell asleep twice while reading it. I just couldn't bring myself to care one way or the other about this one.

This one really had me going "huh?" First off, the plot was all over the place. Then when we finally get to a point when there should be a big dramatic payoff... betrayal revealed, heartbreak just waiting to happen... nothing happens. Everything's hunky dory and finished off in a paragraph. NOT what I read Harlequin Presents for!

Bacaan ringan buat mengisi waktu. Ceritanya so so aja tentang sakit hati dan balas dendam seorang pemuda miskin yang akhirnya menjadi taipan real estate di Sydney. Objek balas dendam, sang putri musuhnya ternyata tidak seburuk seperti yang dikiranya, tertebak sudah kisah dendam jadi cinta yang endingnya tentu saja kebut ekspress ala HQ. Aku memberi rating 3,5 karena kisahnya yang mudah diikuti dan adegannya yang lumayan wow untuk kategori sebuah HQ.

The Billionaire's Bride of Vengeance is the first book in the Three Rich Husbands series by popular Australian romance author Miranda Lee. When handsome Sydney real estate tycoon Russell McClain first encounters Nicole Power, he thinks she's a squatter. After all, she's obviously living in the house he has just acquired. Nicole just thinks he's rude and obnoxious, although there is definitely an attraction there that seems to go both ways. But Nicole is the daughter of Alistair Power, the man on whom Russell has vowed to exact revenge driving his father to suicide. Having already exposed Power's shonky business practices, forcing him to flee the country, he thinks the perfect icing on the revenge cake will be to take Power's beloved daughter from him. But by the time he realises that Nicole is not at all what he thought, he is besotted. Perhaps not the most original plot, but the characters manage to pull it off, and Lee also introduces the characters for the other books in the series. A sweet romance.

Easy to read - enjoyable - good book to take on a trip.

Jenny says

Steamy and sweet love story with loving characters but it needed more angst and an epilogue!

Hollie says

very fast read

it was actually abt vengeance but russell never did anything ruthless or bad. he was no bastard nor ass, actually a sweet guy. marriage is the supposed revenge plan but wid no intention of making her life hell, or of using her n then publicly jilting her. so it's laughable bcoz this is no revenge plan ! he just wants nicole as his wife, full stop ! he fell in love at 1st sight. at one point, we have even hugh thinking how a man cud

easily be enchanted by a stunning girl like nicole. she was very pretty n gorgeous, n add 2 dat easy-going, warm, generous n fun:-) russell did not seem thirsty 4 revenge. i think miranda missed the point or smthg ! lol:P he was an absolute sweetie ! n dats y the book got only 3 stars, i prefer books wid more drama n lots of angst !
