When Captain Vinyanel Eclerias loses both a lifelong friend and faithful mount to a military mission gone awry, the elven cavalry officer must summon the inner strength to tackle an unexpected calling. A baffling encounter with a half-elven prophetess named Veranna reveals to Vinyanel that the Maker of All has ordained he should become not just an officer, but one day, the high commander of the cavalry's First Airborne Division. Circumstances introduce Vinyanel to Majestrin, the ancient silver dragon who becomes both mount and confidant. But the things hardest won are often held shortest. A surreptitious enemy plot thrusts Vinyanel into yet another intervention on behalf of his beloved nation. Only if he can navigate the snares of deception, temptation, and murderous intent will he emerge victorious. From the realization of his Divine Summons to the exploration of A Greater Strength, Vinyanel learns that not all troubles can be solved from a dragon's saddle. The hardest-fought battles rage upon the field of the soul.

### **Bonnie Lacy says**

I am a newbie reader of Rebecca P. Minor's books. As I began reading it took me a few pages to get into the voice of the book, but once I did, it flowed beautifully.

The characters are rich, in fact I see a bit of my stubbornness in her main character of Captain Eclerast!

There are many battles and Minor writes amazingly choreographed fight scenes.

Looking forward to the next one!

*The Windrider Saga* is a wonderful fantasy adventure!

Book I was more of an intro to the characters and setting, but definitely laid out the plot well and contained great action sequences.

Book II provided even more action and the grand continuation of a great story with more development.

I enjoyed reading of Captain Vinyanel Eclerast, his newfound companion in the form of a dragon, and the Prophetess Veranna, in their quests for the Maker.

The minor characters were as well-developed in personality as the major ones, and the antagonists sent shivers down my spine!

I cannot wait to read the sequel(s)!

This is a novel I would **definitely** suggest to any fantasy or adventure lover!

### **C.O. Bonham says**

I am very glad that I found the version that had both the first and second book together. Because the two

really run together and like any saga it's all really one long story anyway. Only it's not over and there's a third book that I have to find now.

In the first book Elven Captain Vinyanel, never call him Vinny, escapes from the dragon kin, really nasty lizard men, with the aid of a half Elven prophetess named Veranna and a real dragon.

Once back in the safety of the Elves capital city Vinyanel learns that he has been chosen by the deity Creo to become the first dragon rider. He is excited until the second part of his calling is revealed. He has to train as a miracle worker under Veranna.

The Dragon Kin attack and steal four magical talismans from the elves. The second half of the book revolves around recovering these talismans.

I think I enjoyed the second half a lot more than the first. The first half was mostly just introducing the characters and getting to know them, the second half had a lot more action and some really good world building in it.

### **Kat Heckenbach says**

Minor has packed a punch with intriguing characters, evil villains, fast-paced sword fights, and a dragon that freezes his enemies rather than roasting them.

As I read, I envisioned a knight weaving a tale that held his wide-eyed audience captive. I found the voice compelling and the story enjoyable from start to finish. The characters are interesting and vivid, and the story full of action. A book I would read again!
