Keeps getting hotter. When one leaves for business the other is cold. When he returns a new twist occurs...what will happen when the Elf king gives them his daughter to mate? Will one have to give up what he wants? And man it ends on a major cliffhanger lol - part of Kindle Unlimited.

Patti Ashley says

Another great chapter

The guys cannot catch a break, as the evil alliance is broken, but now they have an elf princess and no vampire king for her to mate with. Bryant is really having a hard time learning to share and it is getting painful to read. Also is that the latter of little feet we hear!!!????

Part 4

Brant and Zane are still coming to terms with Tanya's wish for both of them. Everything turns complicated when the elven king gives his daughter to Zane as a peace offering.
Is Tanya okay with this? Um HECK NO!

The drama, the action and the characters! This series is a must read for PNR fans!

Great balls of fire! I am so in love with this series! It just gets better and better! Exciting! Action Packed! Smart! Original! Mysterious! Suspenseful! Powerful! Gripping! Riveting! Thrilling! Addictive! Captivating! Arousing! Romantic! Sexy! Steamy! And did I say hot? Oh yeah! This story has it all. Ms. Hartnady has once again demonstrated her exceptional talent by delivering a masterpiece of wonder, thrill and entertainment. Both the story and dialog flow beautifully, twisting and turning with surprise elements at each turn. Such a delight! The characters are well developed and intriguing. They come to life, teasing and enticing your imagination. The story entralls you with its magic and fantasy. I was on the edge of my seat the entire time. Such a wild and wonderful ride! Two handsome, sexy vampire kings-totally different but both desirable-each longing for one woman-check! One beautiful, sassy human heroine, torn between love and loyalty for one man and desire for another-check! Wonderful cast of amazing characters-check! Mystery,

suspense, romance and steamy sex-check, check, check and check!!! That and a whole lot more, in spades! Oh yeah! This is the fourth installment in this series so it is not a stand alone book. Do yourself a solid and read them all. But I just love serials. The anticipation and excitement created by each installment is like having great sex with a blindfold! And then you can't wait to do it again! Hubba! Hubba! I can hardly wait to read the next installment!

Future Slayer Girl says

Oh, lordy, lordy, lordy, this author surely knows how to build a story arc. I mean just when I think it couldn't get better--and what else the author could toss at us and our smexy vamps, there is she tossing away. We have a new character Estral and I'm so interested to see how these creatures living aside a modern human world could be so stuff in a rut! They believe in really old school traditions. Women are worshiped and at the same time is a shame threat that seems to hang over their head. It's not a bad thing because they are a different race of people and they are just believing in different, old ways of living. I'm glad that Tanya is going to be queen because I feel a whole lot of changes in the air. I can't wait to see her take her place and stand up and be like ummm no! I'm loving all the side characters. I want to see Xavier, Griffin, Lance, Charlotte, Ross, York--ugh they all need some rutting lovin'! Please give some of them series! PLEASE PLEASE! And boy oh boy that ending!

I read this via kindle unlimited

Still 5 Stars

What can I say love the book, it just gets more interesting as it goes on? You just enjoy the characters and feel for them and want to know what happens to the other people; that are mention in the story. Keep writing, it just gets better and better.

Chosen by the vampire kings

Wow fighting everywhere and a friend taken. Now they are given an Elvin princess. Oh yea she pregnant. So now what can happen

BookJunkie777 says

The kings are starting to work out the agreed to arrangement when a monkey wrench is thrown their way. What will they do? Though the story continued, it lacked the excitement from book 2 & 3....don't misinterpret...the book is still good.

Jill says**Awesome Twist**

well, there was quite a plot twist with this one!! And, as usual, I'm left wanting more. seemed like there was more cussing in this latest installment. and now I'm thirsty!! (you'll understand once you read it)

Mary Roya says

This part 4 of Chosen by the Vampire Kings. I am so hooked. Thankfully, the books are fulfilling and if I stopped it would be okay.

However, I don't plan on stopping. The author has peaked my interest in her story and I anxiously await the next part.

I also like the fact that the cost is very, very reasonable for a mulit-part series.

Keep up the excellent story telling, Ms. Hartnady.

Marianne says

Loved the plot twist in this one. Poor Zane. Or perhaps: poor Xavier...

Now I'm left thirsting for the fifth installment, which will, fortunately be out in only a little wile. I wonder who the lucky guy is? I'm sure he'll be very proud of himself;-)

One thing though, I truly hope this is the last book where I will have to deal with the "face TAUGHT with desire" typo. What is the author trying to tell us, that the kings have been schooled in a certain lustful, royal facial expression? Come on, use the dictionary,already!

Sammyd says

LOVIN IT!!!!

Maja says

I'm still head on heels for this series from Charlene Hartnady, it's filled with love, lust and war.
My problem still is that these short stories are too short!

Can't wait until next book to know more about her pregnancy and who's the father? And to know what they have in mind for the elven princess :)

Deborah says

The weak book of the series so far.

While I am on the whole enjoying this series this book felt somehow a little flat, it's only 68 pages long and if I'm being totally honest it felt a bit like filler, I'm not saying nothing happened but not enough to justify a book/novella but that's only my opinion. I am of course hooked into the series at this point but since they're all available and on kindle unlimited it's not a problem.

This book is Tanya, Brant and Zane trying to get along and find some kind of working situation which will suit everybody, we also get introduced to some new characters.

Karinosa says

OMG!! Yes! Yes! Yes! Hot crazy mess it is, but a damn good one it is!! A lot is going on in this read and series. She loves them both! I love them both! Crazy cliffy and want the next one out already!! Now, I am loving this kindle select through amazon. So worth it for me. Great read!
