The Wylde Bears, 2

Talia Landon, a red fox shifter with a weight complex, knew she was in trouble when she saw Ford Wylde for the first time. The alpha bear shifter was the type of male she should stay away from. It was clear he was far too experienced in sex, but what was supposed to be a one-night stand turns into a mating with a Wylde bear.

Ford wasn't going to give up Talia, not after he marked her as his mate. But when Ford's ex-girlfriend, Mina, comes back to Sweet Water after ten years, he knows he has to be honest about his relationship with Talia. Things get sticky when Mina shows an interest in him again, but Ford makes it known that Talia is his, and nothing and no one was going to get in the way of him claiming his female.

The BookChick says

I liked Ford and Talia together. They were definitely an unlikely couple with his past but Talia was able to help him overcome that. I absolutely loathed Mina. She was scum. I'm glad Luke saw her for what she was. I would have liked to see him get a happily ever after. He seemed like a good dude, and deserved one after his dealings with Mina.

I try not to have someone that I just really hate in a book but I will have to say that it didn't work out for this book. Mina is one mean, rich girl that gets anything she wants and doesn't care who she hurts in the process. She's always going to cheat on the one she is with and not think twice about it. Mina is like the wicked witch in the fairy tales.

When Ford found out that his girlfriend of six years had been cheating on him he went off. He knew that something was wrong because she could never wait to leave and when they had sex she never got into it anymore. If Ford is the way that he is described in this book I would never let him go. It almost makes him lose his one true mate ten years later. He knows that he can't fight it and he just needs to give in. His bear is taking no chances and will take over if he needs to.

Talia knows that she didn't get the good looks in her family and she is a little over weight. That changes when she meets Ford. He makes her see herself in a different life. Talia just wishes she could stop her brother from marrying Mina and making them all miserable. Even though she doesn't know Ford all that much her fox feels safe with him and she always trust her fox.

I never thought I would see the day that a fox and bear mated but it seems in this series that you can't mate with the same animal that you are. That was something that I didn't see coming and I really hated it when I found out that this was the second book in the series. I really don't believe that I am missing anything but I will be going back and reading the first book so that I can read the third. I really hope that Talia's brother finds the right woman for him. That part was really sad in this book and I won't give too much away. I don't want to ruin the story for anyone.

This is an author that I have been reading from just recently. I saw that she wrote books with another author that I liked and I knew that I would like her books. I liked the story line and I want more now.

I LOVED IT!! I wish Talia's brother had moved on as well and found his mate too. I also wished she had beat the S**t out of Mina.**I LOVED FORD AND TALIA!!!**

First scene is a sex scene of H with ex gf

Fast forward to 10 years later H is still pretty much hung up on ex gf when he meets heroine (whose brother coincidentally is Mina's - the ex gf - current fiance)

A nice enough story (I like Jenika's shifter books) except for the fact that Mina (ex gf) had wayyy too much power given to her in this book.

Someone as vindictive as Mina admits to cheating on you for the past 6 months, you get the fuck over it. Not have a 10 year long pity party celebrating yourself being played by having one night stands with a bunch of women.

Nope. I feel bad for Talia (heroine) for being placed in an awkward position...Ford's a dumba** p*ssy and Mina's the wicked witch of Sweet Water.

We read about the 2 brother (Ford) that finds his mate (Talia) she is a sexy foxy mate (pun intended) y must say i like these short storys and specialy these on cuz it had a good clasic background contemporary story, it is short but good I really like that they talk about thick girls which makes more of a bigger range to move the character arround always good sexy scenes with a glimps of the HEA.

Ford was in love with Mina his then girlfriend but she broke his heart by cheating on him for 6 months, 10 years have passed and he still sorta stuck on her he been messing with girl after girl (he fucks a chick before meeting Talia). He heard from mina that she's back in town and shes getting married, he's out and mets Taila there is a connection there something he never had, he pushes not thinking he can have these feelings for her, but drama seems to want to tear them apart since Mina still has feelings for Ford but shes marrying Taila's Brother..

Can these two get a happy ending? Can Talia brother finally see how toxic Mina is?

I LOVE A DIRTY TALKING HERO

Ford Wylde bear shifter had a disastrous relationship with Mina 10 years ago. He's hardened his heart over

the years just using random women for sex. Then he meets Talia Landon who's in Sweet Water for her brothers wedding. Ford cannot get Talia out of his head. The sexy little fox shifter has become all he can think about.

This is a sexy tale with some really hot scenes. I loved Ford he made Talia all hot and bothered with his dirty talk. A short story but well worth reading.

A Fox Between the Bear's Sheets

Ford loved Mina, high school sweethearts and together for years. Something is wrong though. Something is different. Mina being human and Ford a bear shifter, they had their differences. When Ford discovers her cheating, it breaks his heart and spirit.

Talia is in town for her brother. He is getting married to a woman, she does not approve of , but will stand by her brothers decisions. A night out on the town puts together Talia and Ford. They are both determined for the encounter to be a one night thing. But fate may have something more in store for the two, neither are prepared for.

This is a awesome cute read. Ford was hurt and completely screwed up because of it. Talia is a curvy fox shifter, who only wants to be loved and cherished. I loved the chemistry between the characters. It is nice to see a normal sized woman get the guy. Mina is the perfect bad guy and you love to hate her. Great read! Wonderful author.

Healing Her Mate

What did you like:

The heroine is a plus sized beauty and was able to start the healing for the damaged hero, Ford. Mina did her best to ruin the men in her life and I'm glad that Talia's brother got out of her trap. I loved when the heroine, Talia, clocked Mina. That one really had it coming and it felt so good to see her get her comeuppance. The ending was nice, showing everyone moving on. I'm kinda hoping that Talia's brother gets a HEA too.

Would you recommend to a friend: Absolutely. Can't wait for the next book.

April says

I think Ford can easily make it onto my fav smexy bear list!!! He is just so delicious!!! Loved this book!!

First, in order to get to the awesome part of the book you have to get through the first two chapters, that are rather angsty for the hero and he is less than likable at times. But it is important to understand his back story and why he is so gun-shy.

The third chapter is where the romance comes in and the story really picks up momentum. Loads of great story telling and a fabulous dynamic between Ford and Talia. I really loved them together!! Such a delight to see the beginnings of something special. This time the pacing was right on point. Steady story action balanced out with bedroom action.

Now I am always a big fan of the bear shifters, let me tell you this one does not disappoint in the steam factor!! Hold onto your panties girls cause it is off the freakin hook!!! Or just leave the panties off cause you will go through a weeks supply reading all the hot and heavy pounding in this book!! Oh, and swoon, Ford is a dirty talker!! Yeah, it was seriously hot and I was highlighting smexy scenes to review again later!!

Can not wait to see what happen with baby bear bro Bram!

Claudia says

This was a hot sweet story and although it was a novella it didn't seemed rushed
loved the characters and the connection between them

nevertheless, as I am a lover of full novels, a bit more time would have made it spectacular
