Diadem #10: Book of Doom, by John Peel

Hopefully this won't be the last Diadem book, as Peel while Peel answers some questions, he also asks a bunch of new ones. I was a little sad when I finished this book, because I know that my questions won't be answered for a while. Peel's website promises the next two in the series will be published together, hopefully in 2010.

When Oracle and Shanara betray Score, Helaine, and Pixel, the two are trying to prevent the trio from turning into the Three Who Rule. Score is sent to a world of killer plants. Helaine is trapped on Calomir, a prisoner of the Overmind computer. Pixel is a captive in his own mind, with his body possessed by his evil self, Nantor. Jenna shows her worth when she does all she can to rescue her new friends.

The strengths of each character shine, and I was flying through the pages to see what happened next. The history on Shanara shocked me, and while I saw some of it coming, I definitely didn't see all the twists Peel had up his sleeve.

5/5.

I didn't really like this book it wasn't good enough for me. It was kinda wierd, a person named Nantor is one of three people who rule has escaped from jewel has taken over pixel's body. some of the parts of the story were really good to me like at the begining Shanara was explaning how she was confused.

overall i think this was an ok book. i recomend this book for people who like fantsy books. i'll give this book a 7/10.
