#### **see you soon after the world cup of nations and construction industry**

Judy download and construction industry download games for free kick awarded the other hand to download games for the first place in Amazon kindle fire and construction

---

### **Elliot Huxtable says**

A decent little prequel. Gives a nice insight into Steve's childhood.

---

### **Jennifer says**

(Note: I'm adding this to my tv/movie/gaming tie-in shelf, because this is a prequel to the first MCU Cap movie.)

I'm not a big reader of comics, I'll say that up front. And when I do read comics, I prefer graphic novels that compile several issues in one. That being said, I'm not sure how much weight you should give this review. I downloaded this because I love the CA movies, and it was free.

This is the first of eight issues that make up the series. It was super short, it didn't have much text, and I think it took me less than five minutes to read. I know it's the first part of a series, but I think there could have been a little bit more story.

The artwork? I'm probably not the best person to ask, but it was ok as well. Not horrible, not fantastic.

### **Jonathan Young says**

3.5\*

This seemed so pointless in its existence yet I enjoyed it. It was a pleasant 5 minutes spent I'd say. I liked the introduction of Bucky to Steve like them actually meeting. It was nice to have it depicted. And Captain America kicking ass is always fun.

---

### **James David Aris says**

#### **Hardly anything of what I thought it would be**

Too short and has hardly any action a captain America should start of with a little bit more action for my liking

---

### **Rachael C says**

A similar backstory to the MCU version of Cap, there was nothing new included in this short start. Just when the action began, the first in the series came to an end, but the artwork is vivid. Without doing any research into the remainder of the series, if it follows along the movie storyline, there really isn't much reason to continue.

I think I got the digital copy for free, so I can't complain too much. :)

---

### **David Caldwell says**

This is a short comic that sets up for the first Captain America movie. You get to see one of the reasons that Steve Rogers is so driven. You also get to see the first meeting between Steve and Bucky.

While there is nothing really wrong with this comic, it feels more like one of the teaser scenes at the end of the Marvel movies than a real story. If you have seen the movie (and if you haven't by now than you probably aren't planning on seeing it) than this will all be old information and not add to the story really.

Still, the artwork was nice. I did get it as a free download. Free is always good. Good for a quick read but not truly special.

---

### **Anna Heidick says**

Short quick read. Gives a little bit of background for Cap, and shows some nice looking action.

---

### **Isa says**

I liked it, it was short, yes but that's how these comics work! I loved how they added the flashbacks and what they did with the characters: it really feels like you see them in a different perspective.

---

### **Chris says**

It's not bad. It's a okay start to a bio.

---

## **SOURAV GHOSH says**

### **Great Read**

This is a very exciting book

I liked it very much.

Great read for Captain America fans of all ages

---

## **Ankit Saxena says**

### **Touche**

Well it's a nice start and Captain America has always been the smartest Avengers, sharing the title with Stark obviously. Good story and I enjoyed it

---

## **Naiara says**

It was nice to see Captain America fighting and what I liked the most was showing how he met Bucky (The Winter Soldier).

---

## **Mimi says**

This is a comic about Captain America. It is only short with not many words and filled with artwork that I thought was very good.

I've always like Captain America after seeing the films and this is what made me interested in this free comic. But sadly there didn't seem to be any story to it. Sure you see Steve meet Bucky but other than that nothing happens. It ends on a cliffhanger that frustrated me because it left the story half told.

I would say this was aimed more at young readers and that's who I would recommend it to. This hasn't put me off Captain America, this comic just wasn't for me.

---

## **Addie says**

probably would have been great waiting for the movie...or maybe it would've just ruined it...can't say as I've seen the movie and it's pretty similar...heh
