## **Dating my Friend's Daughter** Penny Wylder

In public, I'm as crisp and smooth as an apple made of ice.

But in private... I'm burning up with lust.

And it's all thanks to her: Cora Bradbury.

Her red hair smells like cinnamon, her wild curves have just as much spice. She's supposed to be an intern at my company but she acts like her real job is making my pants too tight.

I'd love to show her how dangerous it is to flirt with me...

But she's the daughter of my best friend and co-worker.

Touching Cora would cause a scandal that would throw everything I've worked for into the garbage. My enemies would jump at the chance to ruin me.

So I know better than to go near this barely eighteen year old.

I think I can control myself. I'm sure I'll stay strong.

Until we're left alone in my office late one night.

Then I find out just how spicy Cora really is.

## Jennifer Scarn says

A fast read, but not too fast. Fantastic quickie tho. A little bit different than the typical trope for this in that the h is also a strong willed and smart woman. Not too much drama, but just enough. Great H. The chemistry was hotter than Texas in June! Enjoyed it. Received an earlier version and this is what I really thought of it.

## April Symes says

This is the story of an older man/younger woman (Michael and Cora) who met and there was this instant chemistry. Only thing is Cora is Michael's business partner's daughter and she is their new intern. The story was more about the chemistry between Michael and Cora and the hot passion they had which translated to the great sex scenes they had. Now as for the plot, it came off as a bit flimsy or weak but in this case, the steamy passion the main characters made up for it. I completely disliked Cora's father and Michael's business partner Jack. I wish there was some followup as to what happened to him ... Jack was a busy boy and not a good business partner.... I would have liked to hear what became of him but overall, this was a good story, just would have liked to see more plot –It just seemed the characters jumped into bed a little too quick but like I said, I liked Cora and Michael. They were spicy, funny, sexy, sweet and a bit real which made this story come off as real, not fake so that is why I do like this story. I really disliked the character of Jack.

My Rating: 4.3 stars \*\*\*\*\*

"I received an advanced copy of this book from the author at no cost to me."

Dating my Friends' Daughter as an ARC in exchange for an Honest and voluntary review.

Dating my Friends' Daughter is a very well written and exciting book. I love the storyline of Older man/Younger woman romance. This book was incredible hot and amazing. I really love hot and sexy love story of Michael and Cora. Cora is Jake 20 year old long lost daughter. Michael is Jake business Partner and best friend for over 10 years. I loved all the twist and turn Penny Wylder put in this book to grab the reader attention. When Jake finds out about Michael and Cora relationship he threatened him ways he never thought will happen. When Cora notice Michael has change and treating her different she went to confront her father. Can Michael and Jake repair there relationship despite Michael dating Cora? I really loved the love story and chemistry of Michael and Jake. Can relationship with an older man/Younger women work out? Despite everything can Michael and Cora make there relationship work? Is Micheal and Cora True Love that can withstand anything thrown there way? What an Amazing book and I can't wait to read what Penny Wylder come out next.

### **Quick and smutty!**

Pretty good.

Friends daughter. Boss and intern. You think the story is just about these two sneaking around and getting naughty, but then a side plot reveals itself and you're like WOAHH!

All in all another good Penny Wylder read. Quick, smutty, and fun.

Oh Penny, you went all in with this one! Wow! My E-reader about overheated. Older man/younger woman but it doesn't stop these two! Wanting your close friends daughter is bad but when said friend is also your business partner things could get sticky. Penny Wylder went there and delivered on this hot Office romance that is sure to keep you warm! I give this an "A" bc yes, she went there too or should I say He!!!!

5 Sexy Stars

I? loved this!!!! The funny thing is as much as I? love this author when I? first saw this book I? thought, hmmm, another dads friend story but this book was soooo awesome:)

As usual, I?t was a quick read filled with the insta trifecta of love, lust and hotness!!!!

I? adored the quick relationship of Michael and Cora and selfishly would have loved a longer book on them but this was just as perfect for a Sunday read!!!!!!

Ok

Not one of my favorite stories from Penny Wylder, but still an interesting and sexy read. A best friend's daughter and older man/younger woman trope.

Michael Foster walks into work one day to find an alluring redhead waiting at reception. Running late for a meeting with his business partner, Jack, he's unable to meet her. That is, until Jack is introducing said redhead, Cora, to Michael as their new intern - and his daughter.

There's a lot of sex. The plot is thin, but what's there is interesting. Michael and Cora don't spend much time getting to know each other... at least, non-sexually. Getting a feel for their love is difficult, but their physical chemistry is powerful and convincing.

It's a quick, entertaining read that'll come in handy if you're trying to 'get in the mood'.

I received an ARC in exchange for an honest review.

Easy quick reading.

When I saw the book's title I thought, ok just another dad-friend story... but it was really funny, easy and sexy. So the older guy younger intern was good for a short insta-love/lust reading

### **Babel says**

A dirty office romance with a little conspiracy thrown in the middle.

Completely told from the man's point of view, I found it refreshing, and just perfect with that epilogue full of banter and romantic mischief.

The male character is the epitome of good, hardworking business man who is tempted beyond endurance by a young, redheaded bombshell. The author manages really well to show his misgivings as well as his utter fascination with an intern he shouldn't be coveting. I think this novella is quite different from all the others I've read by this author which shows she can reinvent herself quite creatively.

I also enjoyed this couple's dynamics as they experiment together about domination and spankings for the first time. The conflict is not emotional this time, but it's rooted in the business. Great idea for a change of pace.

Lots of dirty steamy times, good writing style, and the fun is guaranteed.

I voluntarily reviewed an advanced reader copy of this book. I so loved this book. Michael is, wow just wow, hot, sexy older man, working himself to death, not dating, no time and no one really worth his time, until....Cora, he spies her sitting in the lobby of his office and can't take his eyes off of her, the glances and

smiles they flash just heats him up before a meeting with his partner Jack. While in their meeting, Jack introduces Michael to Cora as his daughter and his ego is deflated. This can't happen, she's my best friend's daughter, Michael had never heard anything about her, Cora had just found Jack recently. Just when you see a little glimmer of hope, well that's gets squashed or does it? The chemistry is off the charts smoldering hot, one night will not be enough to curve his hunger for her. The one caveat is Jack put Cora up in an apartment in the same building as Michael and they can see each other as much as they want. There are lies, deception, mistrust, and secrets. Can Michael get past his anger towards Jack? Will Cora right the wrongs? Wow, such a great read, you will have to read for yourself!!!

Received an ARC in exchange for an honest review.

What can I say? This book is full of a naughty romance and a betrayal.

Michael meets Cora for the first time when his business partner, Jack, introduces her as his daughter. He knows Cora as the smoking hot redhead in the lobby but once he learns her identity realizes his business partnership is his main priority above his lusty thoughts for Cora.

Once Jack calls Michael to have him attend a meeting with potential investors, his is beyond angry that he was blindsided. When he watches Cora walk in and finds out Jack's motives for her being there, he knows he can't stay. Cora finds him and convinces him of every reason they should be together, her father not part of the equation, Michael finds himself making out with someone 15 years his junior.

After some very steamy, sexy time elapses of them being together, Jack finds out and threatens Michael in a way he never thought he would. Once Cora senses something is wrong, she goes to Michael and knows that things definitely aren't right. Cora then confronts her father and exposes him of things no one saw coming.

Leave it to a fiery redhead to get exactly what she wants....

Quick and sexy little read - who's been bad?

I received an Advance Reader Copy for *Dating My Friend's Daughter* written by Penny Wylder and voluntarily reviewed this book. Michael Foster started his company, Tailor Me, with his close friend Jack Warner seven years ago. But having known Jack for a whole decade did not prepare Michael to meet Jack's daughter, whom Jack himself never even knew about until recently, Cora Bradbury. Cora was a beauty,

freshly hired to be their summer intern, and a 20-year-old college student. And she made it known that she was attracted to Michael. So, for the next three months, Michael has to keep it professional, and it was going to be a real trial because suddenly, Cora was everywhere.

When their passion flares out of control and things heat up not just behind closed doors, Michael suddenly finds himself in a taboo relationship and the future of his business is in jeopardy. Now he is having to do everything he can to get to the bottom of it and not lose it all. Luckily for him, though, he's got an unexpected source on his side.
