I absolutely positively freaking loved it.

So the story goes:

What happens when the man you thought was the one, ends up being the one that got away?

When Finley breaks her heart on graduation night, eighteen year old Emilyn is left alone to pick up the pieces of her life. After muddling through the next ten years-including immersing herself in a lifeless marriage-she is brought to her knees when she encounters Finley at her high school reunion. Long ago buried emotions and feelings bubble to the surface and when Finley kisses her, Emilyn flees the scene. Arriving home to find her husband in the arms of another woman, Emilyn is forced to return to her hometown and start again. But is it possible to start afresh when the past just won't seem to let you go?

Finley has spent the ten years since high school focused on his career. As a songwriter, he has never had a problem getting women. But when he realizes that the woman he let go a decade ago could be his happy ever after, he decides to do whatever it takes to get her back. But are some hurdles too great to overcome?

Well Finley, Finley, Finn lets just start by saying....

You are so....

I so wanted to be mad at him for breaking Emilyn's heart but I just couldn't do it. I was instantly in love with him and every time he spoke I loved him more. Yes, he broke her I mean broke her but he had his reasons and they were justifiable. He did what he felt was right at the time but he never stopped loving her. And she never stopped loving him. Now there worlds were about to collide after 10 years and the love they share is just as strong. But Em is now married to Weston, but not happily, she's holding on, doing what's expected of her but her heart has always belonged to and with Finn.

Weston made me sooo....

I wanted to....

Him, even before he got caught with his pants down, screwing the nasty slut Julia. Then I wanted to....

Him.

Harper, well she was the ultimate best friend. She always had Em's back and protected her fiercely. She was loyal, funny and a tough chick. She constantly had me....

When she would go off on Weston I was...

You go girl!!!

I believe my heart stopped beating when Em discovers she was pregnant, I was so upset. But when Finn steps in, I was a little better but I was so hurt because I wanted Em and Finn to have the babies. What a hurdle but it doesn't stop Finn at all. He stand true to his " Tiny Girl" when he says he is going nowhere. *squeee*

I was so caught up in the story and everything was going so well and then things happen and my heart is ripped from my chest. I swear I thought it was happening to me. I understood what Em was saying but I didn't want it to happen.

This is a story do first love, true love, soul mates, love lost and second chances.

I.....

I was

And...

But in the end I was....

This may be the debit novel for the author but I must say....

What can I say....I am a sucker for a second chance love story. I thought this book was AMAZING. I was hooked from page one all the way to the end. This book had it all....there were funny times (a lot of Kyler and Harper's comments), there were sweet moments (Finn and Emilyn together), there moments I wanted to throw my kindle and yell at it (Anything to do with Weston and Valerie, both were twatwaffles), there were also sad moments (I can't explain because it would spoil the book), and then there was also HAPPY moments. I know I said that this was a book about second chance love but it was also a book about a woman's journey to finding her true self and her true self worth. I really enjoyed Emilyn as a main character, although I truly did feel as though she was a doormat at times in the book (mostly pertaining to her marriage to Weston the douche) but i was glad to see that in the end she realized that everything she went through in her life was for a purpose and got her to the point she got to in the end of the book. I really like Finley aka Finn. I think that he showed throughout the story that he truly loved and was devoted to Emilyn even after leaving her all those years ago. He was totally swoon worthy in my book :) The secondary characters, Kyler and Harper and Emilyn's parents, were amazing as well. They were such great support systems for both Emilyn and Finley. Some of the things that came out of Harper and Kyler's mouth was downright hysterical. I look forward to reading their book later this year.

My only negative to this book was that there were some editing issues...like missing words or the wrong word in a sentence, but I will say that it wasn't bad enough to deter me from enjoying this book immensely.

I would definitely recommend this book to everyone, especially if you enjoy a book about Second Chances at Love!!!!!!

I had the honor of beta reading for Stacy Borel's Ever Enough. What an amazing book and Stacy is one of the sweetest people I have met (even though I have never really met her, I feel like I have). Stacy sent me Ever Enough chapter by chapter, and at the end of each one I was begging for more. It was a book that had it all. It warmed your heart, made you laugh, made you cry, made you cuss...ALOT... but in the end it just made you feel good.

Emilyn was such a great character. It was so nice to see her grow. Broken by Finn at high school graduation all she really did for ten years was exist, she didn't live. Life has a lot of tough lessons for her but man did she come out stronger. I will say that her husband Weston is a MAJOR ASSHAT!! But it wont take you long to figure it out.

Finn.....swoon..... Finn. I lurve him. He was the popular foot ball player in high school who made a choice to leave come graduation day. Thinking he was making the right decision he quickly realized how wrong he was. I have several highlighted passages in my book that deal with Finn but I don't want to reveal too much. You will just have to read and find out.

Em and Finn have the GREATEST best friends. Every girl needs a Harper (I got mine) and every guy needs a Kyler. They are there to tell it like it is and pick up the pieces. They will guard your heart and soul and make you laugh like crazy. Men protect your balls around Harper, piss her off and she has some very interesting ideas on how to make you suffer.

I feel like I could never do this book justice with the review I may write. I really can't put my finger on why I love it so much, I just do. I made the mistake of reading bits and pieces while I was working and at times I was laughing out loud and other times I was crying. Then I would message Stacy telling her what a dumbass I was for reading at work. Do your self a favor and read this book!!! Plus there will be more to the story, a little birdie told me that we may learn more about Harper and Kyler next. I can't wait!!!

A SWEET SECOND CHANCE ROMANCE....

What a cute story!! A sweet story about high school sweethearts that got a 2nd chance 10 years later....

Finn and Emilyn were seniors in high school and in love...Em was ready to spend her life with Finn after graduation and live happily ever after but something makes Finn leave the night of graduation... leaving Em devastated and heart broken and unable to pick up the pieces of her broken heart. Eventually she starts to heal and ends up married to a up and coming lawyer that moves her to Chicago so he can be all that he can be. Em ends up in a loveless marriage to a real dickhead. She fly's back home to Idaho for her 10 year high school reunion. Her most awesome bff ever, Harper, still lives in her old town and they've stayed very close over the years. Harper has always been her rock and saw knows how devastated she was when Finn left town. She's only going to this reunion because Harper has assured her that Finn will NOT be there....10 years later Finn still holds her broken heart in his hands. Time hasn't diminished her feelings for him and she couldn't bare to see him.

Emilyn....

Finn is living is now living in California with his best friend Kylar.. they write music and are hitting it big in the industry.. he also never got over Emilyn and left her for some pretty dumb reasons in my opinion

Finn...

Well of course they run into each other at the reunion and Emilyn is floored..she can barely breath around him. Flinn wants to talk to her and try to reconnect.. she's everything he ever wanted. But Em is married now and as much as her heart wants Finn and her marriage is a joke she can't take what she wants... they share one amazing kiss the night of the reunion and it sends her flying home early. Flying home to get away from Finn and all the feelings he's opened back up in her.

Em gets home and finds her husband screwing another woman and he's not at all sorry about it. He's a total douche! So Em packs up a few things and fly's right back home to Idaho where Harper and her parents are. She's filing for divorce and moving on with her life. In the mean time..

Once Finn finds out that Emilyn is back home he's coming back too.. to do whatever it takes to make Emilyn his again. He realizes what an awful mistake he made and he's going to get her back..

But it's a hard road with plenty of obstacles, loss, heartache, and uncertainty....I was crushed a few times..there were some pretty sad moments for such a sweet book. For the most part, this was a sweet feel good story..there was however some very sad moments that added some depth and strong emotional undercurrents. Just the right amount of sorry and angst without going overboard..

But we do get an HEA And it was so sweet and the road they traveled to get there was a great story.. I enjoyed every page of it.. definitely looking forward to reading Harper and Kylar's story.. Harper is hilarious and takes no shit off of anyone, especially Kylar.

I definitely recommend this one when you are looking for something sweet and emotional with not too much angst.. a great second chance love story with a sweet HEA.

I'm sorry.... I'm trying to like this book... But I can't !!

The book started off strong...i was like... yeah.... this is going to be a good book.....but once you start to know the Main character...forget it!

I find Emilyn Extremely frustrating and aggravating!!!! I mean grow a backbone!!!! Say something!!!!

Argue!!! Stop Relying on other people To fight your battles!!!!

First of all... If my high school boyfriend left me with out a word as to why he left ... I wouldn't be so forgiving!!! I would want answers As to why he left right away... Not prolong it...

Then she Decides to move in with him which is crazy!!! Come on now...ughhh

Then the whole husband thing....once again...say something ...argue!

I just wish Emilyn would have put up more of a fight with Finley. Make him work for it... That would've been more realistic...

Warning/Spoilers

I am sick and tired of this book!

I am trying to calm down, but this book was so depressing, I was forcing myself to reach the end...I was so frustrated that my brain was exploding with anger and hurt! The plot was just one big mess! The hero left his college sweetheart girlfriend at the parking lot without an explanation ON WHY? And that is after he professed her love to her and gave her hope for future together...WHY GIVE HER ALL THAT LOVE Confessions then? when after he crashed it down like a piece of junk? Do you know the reason "WHY HE LEFT HER"? Because the he needed to see if there was "something else out there" and whether it was really a true feeling the one and only for her....And I was like WWWHHHAAATTT? Apparently he spoke to his father before he died that confessed to him love forever whilst in college may not be as truthful as it may look! But did the hero not think to give himself and his girlfriend a chance to see for themselves if their love was worth the fight? I just choked at the part when he gave that pathetic excuse to leave her! And I am not finished here!

After he left the heroine could not function and every single part of her was broken. And you know what? He knew how she felt! and did nothing about it...WHERE WAS HIS LOVE FOR HER WHEN IT SHOULD MATTER THE MOST??? The poor heroine had been broken hearted and married a man that she could not fully give herself because half her heart belonged to the hero that with all those years was just having sex with other women instead.

Even after they met again at the reunion he planned to explained himself WHY HE LEFT...but why he waited so long? leaving heroine tormented with depression and grieve? When she ran from the reunion after he kissed her he did not stop her just texting her some stupid text messages....and I was thinking IS THAT ALL YOU CAN DO? IS SUPPOSED THE LOVE OF YOUR LIFE NOT WORTH MORE EFFORT AND DETERMINATION? he left and hook up again with his on and of girlfriend and continued to have sex with

her and I just lost respect for his character! Is that how you show the woman you love that you want her back in your life? by having sex with another girl? Sorry, but his is not my thing!

Then another killer came that just was so not ok!!!

She blamed herself for their situation and that she should run after him when he left her many years ago....and I was screaming WWWHHHAAATTTT? Why is the heroine one to have to fix the damage that was the heroes doing? He should be the one apologizing and groveling, begging and fighting for her forgiveness because he was the one that left her and not her! This is not a good portrayal of someone who truly is sorry for his mistakes and wanted to atone for it. it takes more than what the hero did for his retribution to really restore the love they had for each other.

Lizzeth "Too many books so little time" says

I enjoyed this book. I think that for a first novel it's really good. It's a fast read and not too angsty. The one problem I had was the heroine. She was a doormat, and I really had trouble connecting with her because of that. So, in my mind I rewrote the scenes where she seriously pissed me off, otherwise I couldn't have had finished it. I'm looking forward to the next book about Harper, I really loved her character.

Squeeeeeeee!! I have a feeling I'm gonna love this one. I'm a sucker for long lost loves.

"I'm sorry... I'm sorry... I'm so fucking sorry!"

This story managed to rip my heart to shreds and then slowly put me back together again.

I can't possibly review this without a few spoilers....

18yr old Finley and Emilyn were in love.

On Graduation night Finn breaks Em's heart leaving her alone to pick up the pieces of her life.

10 years have past and we meet Emilyn, who is about to head home for her high school reunion. Em is married to West. West came into her life a year after Fin left. West is a successful Lawyer and over the years has worked his way up the ladder.

Em gave up everything when she married West. Her days are spent alone and for the last 2 years her marriage has been slipping away.

Coming home for the reunion was meant to be easy. Fin wasn't on the attendee list so when she encounters him the night before Em's perfect happy facade comes crumbling down.

Focusing the last 10 years on his career, Finley is finally being honest with himself that he isn't happy, something is missing.

After a brief encounter with Em, Finn realises how much he really has missed Em.

The night of the Reunion, Em and Fin fight emotions and feelings that bubble to the surface. Finley asks Em if she truly is happy....

Em's answer encourages him to take a risk and kiss her.

Panic washes over Em and she flees the scene.

Guilt pushes her to head straight home back to her husband.

Arriving a day earlier than expected, Em walks in on West in bed with another woman.

Omg.. that whole scene was intense.

~ "What the fuck is going on here?" I bit out.

Neither of them said a word, but at least West had the decency to move away from Julia, pulling a sheet around his waist as he did. The silence was doing nothing but pissing me off even more.

"I said, what the Fuck is going on here... **IN MY BED!?**" I screamed. ~

With her sham of a marriage over, Em heads back home to get her life back in order.

Hiding low, Em is distancing herself from a persistent Finn, who won't give up calling and texting, letting Em they will eventually talk about that kiss.

This is where I was thrown a curve ball.

Couple weeks later Em finds out she is Pregnant to douche bag West.

I did not see that coming at all!!

After a couple months of Em avoiding him, Finn heads back home to confront her. He is aware that her marriage is over, but when he shows up and see's Em pregnant, he understands her reasons for avoiding him.

Finn is seriously the sweetest man EVER. To step up and be a man the way he was with Em and the pregnancy had me totally swooning.

~Even though she was carrying another man's child- a man that I had grown to despise- this child was life. A life that was half her, and because of that I automatically felt love for it and would do anything to protect it.~

Vowing to be apart of her life, in whatever capacity she is comfortable with, Finn promises that he isn't giving up on her this time.

~"I came here because I heard you were going through some things. The idea of being away from you when I could possibly help was something I couldn't stomach. I came here because I want to be here with you. I asked you to move in with me because I want you to live here. I'm going to go to your appointments because I want to be there for you and this baby. Nothing I'm doing here is out of obligation."~

As the pregnancy goes on, Finn and Em can't fight their feelings any longer.

But can Em trust Finn not to break her. Can she open up herself to the possibility that handing over her heart again could destroy again.

~I'm never leaving you again Em. Never! You are mine. Do you understand me? Mine! And if I

have to spend the rest of my life finding every single piece of your broken heart, I will. I will put you back together again Em. I'll do it because I'm still so in love with you. I will fix you, and I'll fix this."

But Em and Finn are about to face more heartbreak, can they survive another goodbye? or will it be too late? Is too much to overcome.

I loved everything about this.

I loved the second chance romance. I loved Finn. My heart broke for Em and I was rooting for them the whole way through.

The steam factor was hot, and the scene when she get caught with the Vibrator was GOLD!! I was laughing so hard then was left panting!!!

West was the BIGGEST DOUCHE. What a Twat!

This was an amazing Debut by Stacy Borel.

Can't wait for Harper's story. She really was a hoot and had so many great lines in this!

~"I've been stuck with average men; the kind that you take home to meet the family. Fuck you, no thanks! I need someone built, dangerous, who isn't afraid to pull my hair when he is fucking me."~

Would definitely recommend this one.

Em and Finn were just amazing :')
Lovedddd Harper and Ky!

West was a fucking bastard. I wanted to do bodily harm him!

Really loved this book, looking forward to the next one; Have a strong feeling its about Harper and I already know her loud mouth is going to make me love the book. I just hope she doesn't turn out to become a spineless woman like how Trish became in Trish, Just Trish because she too was loud mouthed in the first book then suddenly sucked major ass in her own book.

Btw, Loved Harper. Funny ass, loud mouthed bitch :D

Well lets see where do I begin. This book was fabulous . I laughed I cried I was sad and I was down right pissed off, wanting to commit a book murder . I will start with the folks I disliked Weston , Julia and Aubrey and her minions and Val .West -seriously pissed me off how could anyone be do callous I would love to inflict some bodily harm on that man. Julia - Was just a whore plain and simple . Aubrey -bitch get a life . Val -how desperate could you be Jesus have some self worth your not wanted.

Now on to those I loved Em,Harper,Ky and Finn

Emilyn - her story broke my heart . Self confidence is our strongest weapon and she did not have that . Stuck in a loveless marriage for to long because her heart belonged to her one great love. The way her story played out was great she became a whole new women by then end and deserved her HEA kudos for going after it. Finn - grrrr I could have punched you how dare you not follow your heart out of fear of failure . I would rather risk failure and be happy than be miserable for 10 years for not claiming what was mine. Glad you grew up in this book and took charge when needed .

Ky & Harper looking forward to that story. I love Harpers rawness and the lack of filter on her mouth.she was a fiercely loyal beat friend Her and Ky are meant to be this should be a fun book.

“...I’m never leaving you again Em. Never! You are mine. Do you understand me? Mine! And if I have to spend the rest of my life finding every single piece of your broken heart, I will. Swoon! I loved this book! Such a refreshing down to earth story about love, love lost and the journey it takes to find redemption and to win back that love that you let slip through your fingers.

This is the story of Emilyn and Finley. They were high school sweet hearts attached to hip, very much in love and did everything together. But that all changed after graduation night when Finn decides to break up with Em leaving her shattered, heartbroken and alone.

Believing that her life is over Em becomes a recluse, a shell of the girl that she once was, but that is until she meets Weston. An up and coming young lawyer in her father's firm he is relentless in his pursuit to win Em over and after a whirlwind romance she finds herself a married woman and moving to Chicago with her new

beau. But looks can be deceiving and after 8 years of marriage she realises that her husband is not as attentive as he used to be, and feels as if her marriage is slowly slipping away. She then receives a call from her BFF Harper about a high school reunion and reluctantly agrees to go.

Finley has been living the high life in California as a sort out music writer. He's at the top of his game and is highly successful however after almost 10 years he still has one great regret and that is letting the love of his life go. After receiving an email about a high school reunion he decides last minute to attend the gathering with his best friend Kyler...and that's when the story really begins.

I enjoyed this book a lot. Em and Finn's relationship was really cute and I loved them together.

Ok I really need to get this off my chest so forgive me while I vent...!!

WESTON IS SUCH AN ASSHOLE! Like honestly Grade A pure bred Asshole! He was such a cold, heartless, selfish, manipulative bastard!! I don't think I've ever hated a character quite like I hate him and that is really saying something coz I only hate three other characters like him! Honestly who treats his wife of 8 years with no respect and then flaunts his shit right in front of her without even considering her feelings...and gives her car away after knowing how much she loved the thing...aaaannd had the nerve to treat her with so little respect with no sympathy whatsoever after she had JUST gone through a traumatic experience...!! I swear my blood boiled every time he entered a room, I wish I had a bat so I could beat his face in coz I just know that whatever he's about to say is just as vile and as poisonous as he is! Gaaaahhh I hate him! Oh and Em really??!!! Grow a back bone and stand up for yourself! I hated the fact that she let him treat her that way and didn't have the balls to talk back to him or even slap the bastard coz lord knows he deserved that and so much more! Kudos to Finn for knocking him on his ass even if it was just one punch it still was very satisfying to read! Ok vent over!

I loved this book and totally fell in love with Finn! He was so devoted to Em that even after finding out the reason she was avoiding him he didn't let it hurt his pride and ego but chose to overlook it and loved her anyway! Oh and Harper! Loved her! What an amazeballs bestie! She was hilarious and was super loyal! *“...I swear to god if he hurts you i'll string him by his toes and shove a hot fire poker in his ass...”* See? Absolutely awesome! Lol

Well all in all I really enjoyed it and would definitely recommend it to anyone out there!
