## **In Too Deep** Mia Ford

The baby that was supposed to bring us all together, has torn us all apart.  
She's mine!  
I need to have her.  
But fate wants something else.  
Very soon she'll belong to my elder brother.

It's my brother's wedding and she is the maid of honor.  
She stands across at the altar,  
And I just can't keep my eyes away.

Our attraction is mutual,  
A magnetic force pulling us together.  
Both of us know it's forbidden,  
But keeping our fling a secret wouldn't hurt anyone, would it?

That's just what we thought,  
Until...  
The tragedy strikes,  
And our whole world is shattered.

Tomorrow is the day when she's agreed to get married to my brother.  
She says we need to give up, distance ourselves – that it won't work out!  
But I am already in too deep.  
How can I give up so easily?

### Couldn't get through this book

It dragged. It was boring and didn't and couldn't hold my interest. I read a lot of books, and once in awhile i come across one that i am pushing myself through. With all the books out there to read, why bother? Ive had too many books I couldn't wait to get back too. No sense pushing myself through what Im not enjoying reading.

Ms Mia Ford is an exceptional Author to me as well as one of my favorites. Everytime she releases a book, it is likely to be a surprise inside. Each read is consistently insightful and the storylines are always engaging. In Too Deep blew me away with the emotional impact of some of these scenarios. This book is incredible and like everything she publishes, I didn't see what was coming next, I just kept at it until the very last page. So Much feeling is inside this book and it truly feels like you are right there in it. It certainly takes someone beyond talented to pull that off. Thank you Ms Ford for another compelling read. Romance reader's everywhere should follow this heartbreaking journey and see how it plays out in the end. I do not want to give away the plot but just wow... Riveting.

While I was fortunate to have requested an advanced reader's copy of In Too Deep in exchange for my honest opinion... I enjoyed it so much, I had to purchase it. That is how much I recommend reading In Too Deep. I really would like to recommend anything written by Ms Ford.

OMG,,,,,!!! This book by Mua Ford took me over the edge,,,,,, but, damn, what a ride,,,,, !!!

Persephone Smithers, or "Sephy" as she's called by her family and friends,,,is the Maid of Honor at her sister Liza's wedding to Marcus Grint and as she's standing beside her sister at the altar, she just remembered that Marcus's best man was going to be his brother, if he made it home on time, which he said he would be, and she looked over and found this Adonis of a man standing next to Marcus staring at her,,, his brother, Alex,,,,,

Alex Grint has been traveling wherever he wanted to go as long as he stayed away from his father, cause when that happens, he must take a job at his father's company,,,, that's the last thing he wanted,,,,, Marcus and his father ran that company without Alex being there,,, but, now, he seems to have a reason to stay,,,, look at that girl,,, Liza's sister is hot,,,,,

Now that Alex and Sephy have started hooking up together, nobody can know, especially their families,,, they can never know, his mother thinks Liza is out for Marcus's money and she wont have any different thoughts about Sephy,,, and now that Liza and Marcus are back, they can tell, everyone,, but they cant,,,,, it

seems Liza is already pregnant, and this should be about that baby, not their secret affair they are having, even though they are practically living together,,,,, maybe after the baby is born,,, until tragedy stricks and yet again, they are at odds with each other because of the tragedy and they can't talk to anybody about it,,, not even each other,,,,,!!!

This book really took it out of me,,, there were secrets and lives and life and death and happiness and depression,,, I simply COULD NOT put it down,,, I urge you,,, If you want a good book to read,,, one-click this book,,, sit in your favorite spot, grab a glass of wine, a dan for the very steamy parts and have some tissues handy,,,,, never know when you're going to need them,,,,, I totally would recommend this book to everyone,,,,, !!!

I voluntarily got this ARC to review it,,,,,

The plot is amazing. But the book...not so.

Boy and girl meet at their sibling wedding. They love each other. But they keep their relationship secret from their respective siblings (h's sister and H's brother) and parents. They don't know how they will react. But before they could share the news of their relationship, h's sister dies after giving birth to a child. So the parents think that now the h should marry the H's brother for the sake of the child. So now what will happen the H and h's love?

This book is similar to the famous Indian film Hum Aapke Hain koun

But the book was boring.

I almost skimmed through.

I would say it's not bad but Meh.

### **Amber says**

Mia sucked me right in with this one, but it was oh so emotional following Sephy and Alex and everything they had to go through in their short time together and the sacrifice that Sephy was willing to make for the sake of her nephew spoke volumes of the type of person she is.

Alex never wanted anything serious, he was always so busy traveling around the world that relationships weren't part of the trip until his big Brother Marcus asks for his return home to be his best man at his wedding and suddenly the swift impact of emotions attacked Alex like a freight train and that only intensified meeting Sephy his brother's sister in law.

An emotional read that will have your throat tightening and tear prick your eyes. I received an arc copy for an honest and voluntary review.

I received this book with the understanding that I could leave a voluntary and honest review.

In this book we meet Persephone and Alex. Persephone has recently been dumped by her ex while catching him with her friend. So when she is maid of honor at her sister's wedding she is happy for her but wishes she could have this for herself. Alex has been on a constant party train for a while now but when he heard his brother was getting married he knew it was time to come home. Can these two find a HEA or will outside forces make sure that will never happen?

This is an amazing story. There are ups and downs I really want to tell you about. However I don't want to ruin the story for any other readers. I will say this book will have you hooked from the first word to the very end. I would highly recommend it to anyone and everyone.

### **Elaine Coghlan says**

I love Mia Ford's books, but this one is exceptionally full of emotion (you may need some tissues to hand). Here we have Liza and Sephy (sisters) and Marcus and Alex (brothers)Its Liza and Marcus's wedding and this is when Alex and Sephy meet, they get together but keep their relationship quite. A gripping romance grows between them that sizzled making it a gripping story that will have you glued to the end. Brilliantly well-written, intriguing story that just draws the reader in from start to finish. the emotional pull to the story is quite extraordinary. This is certainly a book I would have no hesitation in recommending. A guaranteed must read which has you hoping for these two characters to get their HEA. I was offered this book in the provision of providing my own honest view which also has a Gorgeous book cover too.5\*Highly recommend. Thank you Mia.

Another wonderful story that you brought us. In this one we find two people who wholeheartedly love each other but can't seem to find the right way ti bring up to their family. Then one day Sephy's sister had her baby boy and not even 5 minutes later it's as if she knew all along that she was sick and passed away. Alex and her have to find a way to make it work but his parents have other plans. So through all this and that it takes them a few months to finally get back to the love that they have for each other. In the end it all works out and they to become a family of theirnown. I absolutely loved this book. I give it 5 stars. I voluntarily read and reviewed this book as an Advanced Reader's Copy

### **Lynn Starzyk says**

My favorite Mia Ford story yet! This book was such an emotional roller coaster for me. One minute your soaring and the next fighting tears of heartbreak. Alex and Sephy's story is so full of love and regret it's painful at times. The want to see if love prevails in the end is what keeps you rapidly turning the pages. Ms. Ford has created a story with an interesting family dynamic that questions everything you believe between

right and wrong. It addresses one family's approach to grief and how that can go terribly wrong. Hang on to your heart when you pick up this book and get ready to hold your breath. In the end it's worth it. I received an ARC for an honest and voluntary review.
