Leather & Lace

Brynley Bush

Leather & Lace Brynley Bush

NFL bad boy Knox Beckinsale has made headlines one time too many. Injured, suspended from the Torpedoes, and needing to clean up his image—fast—he heads to Fort Collins to help his Grandma Rosie after her heart attack. No women. No parties. No trouble. Until he meets Leila Patton, who's nothing but trouble with big blue eyes and a girl next door demeanor that does nothing to hide curves that could make a man forget his religion.

Knox Beckinsale is cocky, arrogant, and sexy as sin—everything unemployed journalist Leila isn't looking for in a man. Which makes him absolutely perfect for banishing the memory of her former boyfriend who broke her heart—and fired her. But one night turns into another, and before long Leila realizes there's more to Knox than just a pretty face and killer abs.

When secrets from Knox's past surface, Leila is forced to choose between writing the story of a lifetime...or taking a chance on her own love story.

EACH BOOK IN THE HARD MEN OF THE ROCKIES SERIES CAN BE READ AS A STANDALONE

Nikki Brooks says

Knox Beckinsale has the worst reputation. He may be an NFL star but between an injury, suspension from his team and a tainted personal life due to some really bad choices, he is in the headlines for all the wrong reasons! Fort Collins may be just the escape he needs. His gran needs help and he loves that woman. He can get his physio nearby and his vow to be woman free should be a breeze.

Enter Leila Patton, she may look like the girl next door but she has curves that Knox just can't ignore. After interference from both of their grandmothers, the couple find themselves fighting a mutual attraction. Leila has her own relationship ghosts and has no interest in this cocky man, at all, really. If she says it often enough she might believe it.

When Knox' indiscretions come to light when Leila takes on an assignment which might land her the journalism job of her dreams, will Leila cut and run and use Knox to leapfrog up the career ladder? Is Knox using Leila's wholesome image to cure his bad reputation?

OMG I'm loving this new series! Knox and Leila are just sparks galore and I was rooting for them from start to finish. I loved that there was more to Know than a killer smile, abs and being famous for the wrong reasons. Leila was really well written as the woman whose world has been whipped away from her through no fault of her own. And those grannies!!! Talk about master manipulators! A great read and I can't wait to get my hands on the rest of the series!

Erika PBookHavenBookBlog says

"He grins at me. This is no longer a one-night stand, Leila. This is a mission."

A hot, engaging, well written novella that was a perfect balance of sweet and sexy. Knox and Leila meet by chance and stumble across challenges, and some hot and dirty encounters. Knox and Leila eventually find their way in a surprising twist and results in an incredibly satisfying ending. This couple is hot, sweet, and funny. Thank you to the author for providing a copy to review.

"But then there you were, all luscious curves and sass, making me laugh and calling me out on my BS and seeing me as Knox the man, not Knox the football legend."

Bad boy & good girl = sexy fun...

I've read everything this author has written and loved each and every story. This one is different in that it is part of a multi-author series, but it has the same great writing and full on characters I have come to expect.

And did I mention the romance was sexy? And sinful? Yeah, can't forget that.

Matchmakers have brought Knox and Leila together despite the fact they are very, very different people. Knox is a disgraced football player trying to lay low while he recovers from a physical injury and an even more damaging one to his reputation. Leila is back home while she regroups after being laid off from her job. Baking is keeping her mind off her job situation but Knox is quickly going to take over all her thoughts.

***“Your dick is actually just as big as your ego.”***

The snarky banter between these two was fun and light while the emotional thermometer was spiking as well. I love when a story not only makes me laugh, but also makes me sigh and say ‘aww’ at the same time. This story did all that and more. Knox and Leila were characters to hug and savor, laugh with and struggle with as they resisted the tug they felt for each other. They clicked physically – oh yeah, no doubt about *that* – but they also could talk to each other, with Knox opening up in a way that surprised even himself.

***“Because you’re a beautiful woman with curves that could make a man forget his religion.”***

Knox and Leila had me laughing and fanning in this swoony, addictive read! ~ Diane, 5 Stars

First time reading this author and won't be the last. Loved it!

---

### **Katie says**

Knox and Leila's story is soooooo wonderfully written and so hot your going to wish it wasn't a novella. I normally think you don't get enough story line with novellas but I think Brynley Bush has the perfect balance. You will love this story!

---

### **Nicole Smith says**

This was a enjoyable installment in the Hard Men if the Rockies. Each book can be read as a stand alone. I really liked the characters together especially since Leila had no clue who NFL star Knox was which made their first encounter wonderfully awkward. The add in matchmaking grandma's things are bound to get interesting between these two. For journalist Leila Knox's story could be her big break, but will she follow her heart instead? Great chemistry between the characters and when they come together it's explosive! Good flow to the story for me and one I couldn't put down.

## **Emily Allen says**

This is another new author for me and I can say I'll be reading more of her books. I've read a lot of books in one day and I this one was no exception. When I finished the last chapter I could have used a cold shower. So if you're looking for a hot read when the weather gets cold, I suggest picking up Leather and Lace or all the A Hard Men of the Rockies Novella's.

*I received an ARC in exchange for an honest and unbiased review. I have no affiliation with the author or publisher.*

**Knox Beckinsale**, is a cocky, egotistical football player, taking time off to recuperate from a pelvis injury with his grandmother. He doesn't have time for women. In fact, he's sworn them off for good.

**Leila Patton**, a good-girl journalist that left it all behind when her boyfriend of 2 years cheated on her with his intern. She's helping her grandmother out at her bakery while she licks her wounds before finding another journalism job. She doesn't have time for Knox. He's definitely not her type.

Neither one want anything to do with each other but the pull between them is magnetic. Alcohol and bad decisions never mix because Leila has the perfect solution. A one night stand. Its perfect. Neither of them want anything serious. She wants to forget her ex and he gets an guaranteed lay. What man would turn that down?

The first time together they almost burn the apartment down it's so damn hot. All I can say is wow! Knox sure does know his way around a woman's body. And since its a one-night stand it's okay to let him be a little depraved, right?

Leila has no clue that Knox is a pro football star and that's just how Knox wants it. He's trying to recuperate and get his life back on track. But as with any secret, it's bound to get out. Especially when you're famous. Between the mind blowing sex and spending time together these two slowly start to fall in love. Neither of them counted on misunderstandings getting in the way though.

This book is full of the most erotic steam imaginable, the most vulnerable characters around and the sweetest love alive. You're definitely not going to want to miss out on Leila and Knox's story.
