Dominick Cassano is a dark, strong, charming, playful, smart...and oh, so beautiful Italian. He has broad shoulders, bulging arms, a sculpted chest, and a chiseled set of six pack abs. And then there's his hot Italian libido and HUGE package. Women definitely swoon over what lies beneath.

But is that enough to get a woman to marry him for a green card?

Obviously not! His potential wife turned into a runaway bride at their wedding. His older brother, Leo, is desperately trying to keep him in the United States. And that's when Chloe Zeller jumps right in to help save Dominic from being deported.

She knows she can't fall for the bad boy and plans to keep the marriage platonic.

But with a package like that, how can a girl stay away?

#### **Fake**

She writes romance, he is her gay best friend\hair dressers brother. He needs a green card because his work visa got messed up standing up for a woman who harassed. Can they make it work.

### **Sarah says**

#### **It's ok**

I was not certain I would like the book based on the description and I was correct. The plot line was a bit odd and not very believable. The story was well written (the last chapter was a bit rough but not a huge issue) but I just could not get into the story as I could not believe the premise. I don't think I'll be continuing this series, though the female lead being a romance writer is an interesting choice I might want to explore again.

#### **Samantha's books**

This book has a lot of dialogue that is extremely funny. It starts on high drama and keeps it that way throughout.

### **John says**

#### **Partial Book**

If this story had been complete, I would give it 4 stars. The only reason I've given it a generous 2 stars is because I really liked the writing style of this author. Anyone who can write quirky must be quirky. **HOWEVER**, I find that writing in serial form to be a disgusting ploy to sell more books. Write a good book, sell it at a fair price, and I will be a loyal customer. The author is too talented to resort to such tactics.
