# Rise of the Guardians Movie Novelization

Stacia Deutsch (Adapted by)

**Rise of the Guardians Movie Novelization** Stacia Deutsch (Adapted by)

**Join forces with the Guardians to defeat Pitch in this retelling of the animated feature *Rise of the Guardians*. Includes eight pages of full-color images from the movie!**

When Pitch, the boogeyman, decides that children should believe in him and not the Guardians, he adds a little fear to their dreams, turning them into nightmares. If children around the world are afraid, there will be no more room for hope. The Guardians must band together to stop him. But in order to do so they need a little help from an unlikely source: Jack Frost. Jack loves to have fun, but he's not usually one for heroics. Will Jack find the hero within him before Pitch can carry out his master plan?

Join Jack Frost and the entire gang of Guardians—North, Bunnymund, Tooth, and Sandman—as they band together to vanquish the boogeyman and his nightmarish threats and to preserve the very spirit of childhood. This junior novelization includes eight pages of color images from the movie.

## **From Reader Review Rise of the Guardians Movie Novelization for online ebook**

### **Reina says**

The title says it all: it's the novelization of the new movie, Rise of the Guardians. As obvious as it is, I love the characters that shaped my childhood: Santa Claus, Tooth Fairy, Easter Bunny. Add Sandman and Jack Frost (the character under the spotlight and the one you can most relate to as he is only a teenager), Rise of the Guardians creates a good plot for children, teenagers and adults alike as they battle Pitch the Boogeyman and protect the children of the world.

You can never be too old for children's books.

---

### **Myckaila Leach says**

This book is a word for word follow of the Rise of the Guardians movie. The book is boring and lacks any real feeling, do to the fact that it is a novelization and not an original book. The only reason i read this is because i really liked the movie. This is one of the few books that i would recommend not reading, but instead watch the movie.

---

### **A. Nixon says**

This novelization was cute. It's for a younger age group than I often find myself reading, so the simplicity of the writing threw me off a little at first, but the story is solid and the characters adorable. It's a great read for anyone who has seen and enjoyed the movie.

Although, I do kind of wish they hadn't tried to write every single scene as it happens in the movie -- the result was that the story jumped in places, as the movie did quick edits between scenes. If the author had written with more of a sense of the overall story, rather than writing down the movie, then I think parts of it would have flowed together a little better.

---

### **Grace says**

i love this book, i am currently reading it for, like, the millionth time! It's so good. i watched the movie twice and i enjoyed this book just as much as the movie.

There's only one thing i didn't like. Some of the adjectives Stacia used didn't really match how they felt in the actual movie.

**THAT WAS MY ONLY PROBLEM!!!!**

Good book, i really recommend others to read it.

but DON'T read it if you haven't watched the movie--so many spoilers! ;)

---

### **Mundie Moms & Mundie Kids says**

A great read for young readers who love the hit movie, RISE OF THE GUARDIANS. This novelization is great for elementary school age readers and also features images from the movie.

---

### **Hov Vathana says**

This book is about the boogey man and the five good people. I love this book because this book is so mean. I look this in TV because in tv we can see the action story not in the book.

### **Tere (La Vida Secreta de una Lectora) says**

Leído en inglés. Una de mis películas favoritas hecha libro, si bien es una adaptación casi fiel del film al libro, me la pasé de maravilla. Tuve que poner la película para poder escuchar sus voces porque son algo que me fascinan; los diálogos cambian muy poco y las expresiones también tienen una pequeña diferencia, hay que comprender que todos nuestros protagonistas tienen sus características al hablar.

La historia nos cuenta como una noche un joven despierta desde el fondo de un lago, su nombre es Jack Frost, la luna se lo dijo. No tiene ni idea de quien es o que tiene que hacer en su vida, pero cuando se da cuenta que nadie puede verlo se sume en una depresión y comienza a comportarse de una manera bromista e inapropiada, sin considerar muchas cosas a su alrededor. La oscuridad comienza a acechar y es entonces que la luna escoge un nuevo guardián, siendo el mismísimo Jack Frost el elegido, seguiremos su camino para saber si decide convertirse en un guardián o si decide rechazar la oferta.

Una bonita historia que me hizo conocer a personalidades que no conocía, no tenía ni idea de quien podría ser Jack ni Sandy, pero me gustó bastante. Una lectura sencilla, para gente joven.

### **Kayleigh D'Andilly says**

After seeing the film (which I really liked) I got this to read to my little boy. He's only 1 and a half but he likes being read to and there are some nice pictures in the book to look at. It was a good adaptation of the film and made for a fun bedtime story. I would suggest watching the film first though as the book does lose a little of the magic.

## Dale says

*Published by Simon and Schuster Audio in 2012*

*Read by Keith Nobbs*

*Duration: 2 hours, 33 minutes*

Based on the William Joyce book series *Guardians of Childhood* , *Rise of the Guardians* was a very pleasant surprise when we took the kids to go see it a few months ago. I was not expecting much and came away very impressed with a complex story with plenty for adults to think about but light enough for kids to be entertained. It also has a balance of scary and funny and avoids the all too easy bodily function-type jokes.

The premise of the story is that the Guardians are defending the children of the world against an onslaught by the Boogeyman, who goes by the name Pitch Black. Pitch Black revels in causing fear and nightmares and destroying the best aspects of childhood. The Guardians are the Sandman (Guardian of Dreams), the Easter Bunny (Guardian of Hope), Santa Claus (Guardian of Wonder) and the Tooth Fairy (Guardian of Precious Memories). They have been called together by The Man in the Moon. The Man in the Moon has also called Jack Frost to be a Guardian but no one, including Jack, can figure out why. The story is the story of Jack Frost and how he figures out his own past and how he can help The Guardians, if he even wants to help them, that is...

## Marcie says

If you've watched television at all in the past month, chances are you have heard about the movie *Rise of the Guardians*. It's a children's film about all the well-known holiday characters such as, Santa, the Easter Bunny, the Tooth Fairy, Sandman, Jack Frost, and The Boogeyman aka Pitch. The human world is threatened by nightmares and only the Guardians can save it. Jack Frost doesn't have any memory of where he came from. When trouble arises, the Guardians call on Jack for help. Jack isn't so sure he wants to help anyone.

Especially people who might ruin all his winter-time shenanigans. However the Guardians have another problem besides Pitch. The children of the world are slowly becoming unbelievers of the holiday heroes they once held so high.

This is a cute story for kids. The author of this story really puts a twist on these characters. Santa is Russian, Easter Bunny is from the Outback, and the Tooth Fairy is a little eccentric. I really liked the little changes. I think it makes *The Rise of the Guardians* stand out from other holiday movies of the past. The narrator did an okay job with the accents and personalities of each character. I wasn't overly impressed, but I believe kids will enjoy listening to this audio book, even if they didn't see the movie. It has the perfect blend of humor and drama while incorporating the message to believe in yourself. It also has the basic 'good versus evil' theme too. I think kids of all ages will enjoy this, but especially kids between the ages of 4-10, The audio book is approximately two hours long, so it's a great length for the younger crowd.

\*Update\* I let me kids listen to this after I did. They absolutely loved it!

---

### **Aurora says**

I love the movie that this book is based on. I bought the novelization about three weeks ago and let it torture me that I couldn't read it until I saw the movie. Last night, I saw the movie, and it was epic! And then I read the book, which was slightly less epic, but still awesome.

### **Fatatat says**

We've reached that stage at which I proof read books before I read them to my daughter. Not just to check for appropriateness but also so that I have the Answer to all the questions that crop up. We recently started reading Harry Potter but have decided to put that aside for a year or two until she can deal better with the complexities of the story, I should state at this point that my daughter has only just turned 4 and having watched a few of the films she has started confusing characters and getting her time line a little mixed up. Rise of the guardians has so far been a good compromise, we discuss the story between reading sessions and so far we're following it quite well. It's nice and direct with a one track storyline, also, being about Santa, the Easter bunny and other such wonderful beings its surprisingly relivent to where Lotte's mind is at the moment

---

### **Emiliano says**

Jeje, con este libro complete mi reto de lectura de este año y debo decir que aunque el libro estuvo bien peco de ser muy corto, ya que había veces en las que parecía que iba muy deprisa, pudo haber hecho más descripciones y detallado más cosas, pero bueno no estuvo mal

---

### **Cassie Kelley says**

This book is a good novelization, and it is clearly for children. The writing is simple and easy to read, the characters are portrayed well, and the magic is still there.

From Sandy's good dreams to Tooth's collection of memories, from North's wonder to Bunny's hope, the joy of childhood shines brightly. This fresh take on familiar characters is a delightful change, and it shines with magic.

If you enjoyed the movie but maybe wanted a little more depth or insight into the thoughts and feelings of the characters, this book is for you.
