### Tobias says

Sannoh leads with 20 Points roughly 10 Minutes before the game ends, but Shohoku miraculously managed to catch up mainly through Sakuragi's rebounding skills. Im excited to see if they can turn the game around so late in the game

\*This review is for the series as a whole with 4.5 out of 5 stars\*

I've posted 2 articles about Slam Dunk early this year so I'm sure you guys already have an idea how I adore this series. The anime series was incredible but its manga counterpart is beyond incredible, it was AHA-mazing!

I'm not a sporty kind of girl and I don't think I'll be anytime soon, but I think what's great about reading books and watching shows is that you learn and (kind of) experience a lot of things you don't normally do in real life. And because of Slam Dunk, I learn to appreciate sports stories and eventually love them.

When I started reading this manga, it felt so nostalgic. It's not so different in the anime so while reading it, I keep on picturing out all those episodes which I think made my reading experience even more enjoyable.

Slam Dunk showcases a great team work. What I learn to appreciate about sports stories/shows is that it'll give you a lot of lessons about what it means to be a great sportsman. And Slam Dunk absolutely slammed dunk that part!

I usually watch the anime series first before reading its manga counterpart and as for Slam Dunk, I've watched it quite a number of times already and I don't think I'll ever stop watching it, \*wink. Even after watching the anime, I can still feel the tension, the suspense, and the excitement while reading this manga.

As you can read on its title, this manga centered around the sports basketball and through it weaved a really good story everyone of us will enjoy and appreciate whether you're into sports or not. Another thing I love about reading manga is that it will never ceased to make you laugh with its funny scenes and Slam Dunk had it big time! I lost count how many times I laughed my heart out reading this masterpiece.

The drawings were really so good too plus those facial expressions were epic, especially Sakuragi's, haha.

This story has a main character but I love that it didn't just center around him but the author also gave its other characters a chance to share their own story. I love the character development as well especially

Sakuragi's.

And speaking of Sakuragi, I didn't eventually like him at first. He's definitely trouble and I didn't quite appreciate his annoying antics and his excessive bragging. But all throughout the story, you can't definitely help it but like his character. As I've said above, Sakuragi's character development is definitely one you should see. From being this good for nothing delinquent, he became a true sportsman. I just absolutely love his improvement not just in basketball but eventually as a person. It's definitely hard for me to explain but I just LOVE Sakuragi. Ofcourse he can still be an airhead sometimes but I can see now that it's one of the things that makes him quite likeable, haha.

Slam Dunk has some pretty amazing group of characters and as I've said in this article, they come in varieties so I'm sure a lot of readers can find some characters they can relate and love.

The anime series left off the national championship and let me tell you guys, it was already good as it is. It was full of intense scenes with a right blend of humor but the national championship parts were sooooooo good I can still feel its intensity even after finishing this manga. Actually, I cried pretty hard when they won! You should definitely read it!!!

Although the ending felt short which ofcourse makes you want to ask for more, I guess it was still a pretty good and hopeful ending, not just for team Shohoku but for the other teams as well. Besides, after that intense match with Sannoh, I don't think Slam Dunk failed me.

So if you're looking for an intense sports shonen manga to read, Slam Dunk should be on top of your list.

## **Jedi JC Daquis says**

This is it, volume 28, the final stretch. Inoue is definitely not holding back anymore. All the guns have been firing between Shohoku and Sannoh in the final minutes of the match.

Less words, more sweat. The fatigue, the fear, the determination among the players. You will feel them all. Oh my friends, you will feel them.

## David says

One of the more iconic of sports manga. It's the first series where I actually both read the manga and watched the anime. It has flawed protagonists, growing up pains, colourful characters, and beautiful meaningful relationships, all neatly wrapped around the context of college basketball.

## Lone Reader says

Gettin up on that table is a very Sakuragi-sh thing to do but he did that to wake his team mates up. He did not brag. He even admitted he doesn't know what they were doing since HE IS ONLY A ROOKIE. You have grown up Sakuragi-kun!

Grabbing the opponents shirt first, then faking it another time to get a better spot for the rebound, you tensai! Kogure's flashback always moves me. That fist bump of Akagi and Mitsui...you guys! Really, i was that guy with that flag, crying.

Slam Dunk #28: Dos años

"Dos años" se llama este tomo, y mucho más es lo que tardé yo en leérmelo desde que lo tengo, deshonrándome una vez más. Último tomo de la serie al que le amarreteo una estrellita porque tiene más o menos los mismos defectos que el volumen anterior pero la tapa me gusta mucho menos.

Ya lo sé. Soy un caprichoso sin criterio. Pero como diría cualquier cheto/a en una conversación intrascendente en la que no se exprese con claridad "No importa, yo me entiendo".

The game against Sannoh will NEVER end.

## Jedi JC Daquis says

In each of the pages, the readers will feel the fatigue, the fear, but most of all the determination, the determination from each player to make their team win. That is what volume 28 is showing us.

We are now at the final stretch of the Sannoh and Shohoku fight, and you'll see that Inoue isn't anymore holding back. He is clearly delivering the message to his readers that this is the final showdown, the last

shebang. There's less words and more sweat and panting. Ike ike Shohoku!
