????????????????? [Tadayoedo Shizumazu Saredo Naki Mo Sezu] Kou Yoneda  
Prequel to Don't Stay Gold

Yashiro has ...issues (more like a whole damn subscription). He's a masochist with slightly sadistic tendencies who gets off more with guys. Otherwise he's your average high school student. Recently though, there's been this annoying classmate Kageyama who seems to think its his duty to supply Yashiro with band aids for the results of his sexual exploits; through various events they get closer and soon Yashiro develops more than normal feelings for Kageyama but will he experience his springtime of love or remain drowning in unrequited affection? A yaoi love story with a twist (and a rope or 2).

### **SaturNalia says**

Yashiro is a high school student. At home he is being sexually abused by his step-father, which warps his take on sex. He likes pain and is gay. He's not ashamed of his preferences, which makes him interesting. Kageyama interests him, he's not disgusted by Yashiro and becomes his friend. Yashiro develops feelings for Kageyama but never acts on them because he knows they will not be returned. This is very sad and disturbing, but Yashiro is so interesting it's worth reading.

### **Aoi says**

Bitter sweet and open ended, what makes the manga noteworthy are these concluding lines..

*“People are... Full of contradictions. They're lonely. And then they're not. They're missed. And then they're not.”*
