The Ex Factor Nancy Warren THE RULES OF ENGAGEMENT

Wedding planner Karen Petersham *loves* weddings --- usually. Her newest client, Sophy, has brought along her best man for advice. And the best man is none other than Karen's sexy ex-husband, Dexter Crane. But there are rules when engaging in ex-sex:

- 1) Do *not* get romantically involved (obviously)
- 2) All fun. No fight.
- 3) Two words --- *booty call!*
- 4) (Reminder: nix the romantic involvement)
- 5) Remember why it ended (important!)
- 6) And get out before you fall in love with him again ...

Harlie Williams says

Nancy Warren is one of those rare authors that can write a steamy book and then a sweet romance in the next breath. Her NASCAR books are a joy to read and are somewhat sensual but her Blaze will make you squirm. Plus, her dialogue is fresh, laugh out loud funny and emotional. I highly recommend anything that Nancy writes because you will not be disappointed.

Though I enjoyed reading about Karen and Dex rekindling their romance, my favorite part of this entire book was actually the side-story involving Ron, the serious/shy CPA, and Laurel, the wacky/creative cake artist. Her accidentally frosting his tie and him walking away with a smile on his face = romance novel gold! Why can't I meet a "Ron" in real life?

Rebecca Crowley says

I would've liked this saucy, sexy read much more if there hadn't been a random subplot shoehorned into the last third, and if the ending weren't quite so over-the-top cheesy. I liked the relatively realistic characters and scenarios up until that point, and the writing is fabulous. But the subplot felt like the author was trying to make up the word count, and the ending was unfulfilling after an otherwise good read.

3 Stars! ~ Nancy Warren always writes fun romances that have heart. In the Ex-Factor, our hero and heroine are divorced and had never thought to see each other again. It's clear they are still in love and that their chemistry is sizzling hot, but Karen still has trust issues. There are two other romances going on in the book, that sometimes I found a little distracting. For a fun sexy read, you'll enjoy this one.

This book may or may not have made me cry in the library. I will say that the secondary characters/plot are much stronger than the primary one, but overall, it was a great read.

One of those Blaze books that really should be read after a different one. My Fake Fiancee is the first part of this story and certainly should be read first.

I struggle if this should be a two star read. Some parts of this were well written and very believable. The sex scenes were certainly hot enough. I even liked the dialog. And the idea was a good one. However, the main heroine was just so darn unlikable. Had this mostly been about the side characters this may have even been a four star read. But the HEA for the main couple leaves us thinking that it is certainly not an HEA. Maybe just a Happily for A Very Short Time. With how screwed up the heroine is, it is likely she'll screw it up in no time flat.

liked the side story better.

Rating: 2.5/5

Dex and Karen sure had a lot of fizz at the beginning, but Karen's continued inferiority and insecurity issues hindered any chance of reunion. I didn't appreciate that she wouldn't accept Dex's calm reasoning, and when she eventually got round to listening, it was too conveniently resolved. Either way, this actually reaffirms my non-belief in the sanctity of marriage.

Laurel and Ron's story was a lot more engaging and sweet.

Joy Strother says

This was a deliciously sexy book. I enjoyed it. I recommend this book to anyone.

Christine says

Overall, I enjoyed the story between the main characters (Karen & Dex), as well as the secondary characters (Chelsea & Dan (from **My Fake Fiancee**) and Laurel & Ron). However, when the primary female character's neuroses cause her to make judgements on what she *thinks* is happening in others' relationships to the point of interfering in them, I lose all empathy for her. For example, she made the comment to Laurel about "*there's no accounting for tastes*" after finding out she and Ron had gone out. Also, she assumed that David was the reason why a wedding date was not set without asking Chelsea what was going on.

For a wedding planner to be judgemental about who is attracted to whom was annoying, especially when it is mentioned that she sees 'all types' in her business.

Also, the ending felt rushed to me, with Karen not really being confronted about the negative interference/comments she made about her friends' relationships. I'm not counting David talking to her about the text she sent on Chelsea's phone, as it ended up being mostly about her helping him plan an elopement. Finally, it did not seem like she had any growth or epiphanies about herself during the story, as it did not indicate that Karen trusted Dex any more than she did in the beginning, which was the whole reason their marriage broke up in the first place.

I love my happily ever afters, but this really did not hit it for me.

With so much build up the end was just a little ... lacking.
