## From Reader Review The Last Dragon for online ebook

### Bex 'n' Books says

Reviewer: Bex

Rating: 5 out of 5 Fairies

The Last Dragon by Dianna Hardy is a book that I've been desperately waiting for, yet dreading to read. I cannot believe the series has reached its conclusion. And what a way to end it!

This book created a whirlwind of emotions from the moment I started this epic read. Significantly, the feeling I ended with was complete satisfaction, if not a little sad to see it end. Dianna Hardy has successfully produced a full-length book that not only keep me engaged, but one that I was completely absorbed in.

I believed in Dianna Hardy's world. Her flawless, unique writing style enabled me to feel apart of the story. The tension and drama was palpable and was filled with such beautiful well-crafted imagery that reading The Last Dragon was not only easy, but a pleasure.

The main and secondary characters were both vivid and authentic. I felt as though I was walking their personal journeys with them. I even felt myself responding to characters whom I initially was not keen on. Once again, I credit this to the skill and proficiency of the author.

A spectacular finale.

I received a copy of this book from the author for an honest review. WOW!! What a finale. This author is so skilled she has so much going on and keeps it all flowing so perfectly without any part lagging, without any loose ends and it was amazing. I have read series books before where they ended with some questions not answered. This is not the case with this book - she concludes the story so perfectly! I only intended to read a few chapters as I had other books going at the time.. well I couldn't put it down and had to finish it to find out what happened next.

If you have read the Witching Pen Series you need to read this book. Everything comes to a head and all is explained about everything from creation to what the apocalypse actually is. All our favorite characters are back and we get to see what sacrifices they make in order for the new beginning to happen. And oh.. Dragons!! Yes there are dragons at the heart of this story but that is all I am saying. Job well done and I can't wait to read more from this Author!!

Review 6\*\*\*\*\*

I received a copy of this book from the author in return for an honest review.

This is the fourth book, and a spin off, of The Witching Pen series. I loved The Witching Pen novella's (a paranormal romance trilogy), so when I had the chance to get my hands on a copy of this book, I took it! I'm glad I did, because I loved it!

This story continues from the end of The Demon Bride. The barriers between the dimensions have dissolved and demons, angels and humans are struggling to come to terms with the change. Meanwhile, the dragon is beginning to stir.

I usually do a character breakdown when doing a review, but this story is told from too many different points of view to do so this time. It was nice to visit with Elena, Karl, Morgana, Lucifer, Abaddon, Michael, Amy, Pueblo, Paul, Kattara and Kathrine again. To avoid giving away any spoilers, I am going to refrain from saying too much. I will say this: This story took me on a HUGE rollercoaster ride of emotion. There are some twists and turns in this story that completely took me by surprise - my jaw literally dropped at one point! I struggled to put this book down and was completely hooked from the first page!

I felt sad when I came to the end of the book, because I wanted to keep reading! I am not sure if there will be another book after this one, but I sincerely hope so because I would like to know Brennan's story; His future intrigues me!

Dianna Hardy is a fantastic author! I am a HUGE fan of hers! I love her writing style, which is fast paced and fluid. I am looking forward to reading more of her work in the future!

As this book contains scenes of explicit sex, I do not recommend this book for readers younger than 17. However, I HIGHLY recommend this book (PLEASE read the Witching Pen novella's first though!) if you love sexy demons, angels and witches! Oh, and dragons! - Lynn Worton

I won this through a GR giveaway (thanks btw) I zoomed through the first 3 novellas and loved them. There was a lot going on in this book and possibly too many POV changes but saying that I didn't get bored like I sometimes do when its only written from one person's pov. The plot kept me hooked I had no idea what was coming next but I did secretly hope everyone could be saved. I loved the epilogue and seeing Mary and Gwain again I did miss them

I was given a e-copy in exchange for my honest review.

The Last Dragon was originally written as a spin-off to The Witching Pen Series, but I have come to the conclusion that is is more of a final installment to the series. I insist that you start with book one in the series. If you haven't read the series, you will not fully understand the characters and what part they play in this journey.

The book takes place after the apocalypse. Some characters return from the other Witching Pen books, along with a few newbies. We follow their journey of surviving the twist and turns of good verses evil. The biggest twist, whom is actually under the good and evil categories. Everyone's fate is in the hands of the last Dragon, and everyone has their own reason to see the Dragon survive or die.

I could go on and on about this book, but I would risk giving too much away. I will leave you with this, if you have read The Witching Pen Series, you MUST read this book!!! Great book. Even though I hate to see the series end, there couldn't have been a better ending.

Dianna Hardy  
The Last Dragon  
A spin-off novel to The Witching Pen Novellas

I loved the Witching Pen novellas, and this book ended it perfectly, with just enough info at the end to let your imagination take it wherever you wanted it to. The characters each had their own place, which fitted perfectly into the story, and each piece of the puzzle slowly slotted into place leaving no questions unanswered. I loved how the author alternated the different story lines contained within the book, and this just made the book even more gripping. It's impossible to write an in-depth review without any spoilers, so I'll keep it brief, it's fast paced, full of action, flowed effortlessly and will keep you completely captivated from start to finish.

I received an e-copy from the author in exchange for an honest review.

### **Nancy (The Avid Reader) says**

I received a free copy of the book from the author for my honest opinion.

Elena is the most powerful witch on the planet and not only is she a witch but she is part demon and succubus. Elena is a very strong person I mean she has to be in order to be in control of her demon and succubus. When the time is right and she needs to she will let her succubus takeover be the one whose is making all of the decisions. Elena has a very kind and loving heart and would never hurt anyone unless they hurt one of her family members first and then she would rip their head off.

Karl is having a few problems with who he truly is and it is tearing him up inside. It is making him do and say things that he would never do or say. Karl says some very ugly and hurtful things to Elena. But Elena doesn't give up on him. She knows that something or someone has probably taken control of Karl or he would not be acting like he is. If she has to put her life in danger or give up her life Elena will not give up nor will she lose Karl without doing everything in her power to find him and bring him back to her.

I loved all the characters and could not get enough of any of them. Mary and Gawain were my two favorite characters. I was hoping to read more about Mary and Gawain's time together but I will have to admit I was a little disappointed because I didn't. Mary and Gawain they were with us but in memory only. But with them not being with us did not take away from the book at all it was still one of the best books ever written. I am very glad that I read it. I kept putting off reading it not because I thought I would not like it. No, no way that is the furthest thing from the truth as you could ever get. No I put off reading it because I didn't want it to end. I am going to miss Elena, Karl, Mary, Gawain, Amy, Paul, Pueblo, Lucifer, Kattara, Katherine, Abaddon, Morgan le Fey and all of the demons and feys too.

I fell in love with all of the characters in the first book The Witching Pen and have followed along with them from The Witching Pen to The Sands of Time and then The Demon Bride and now I have seen the last of my good buddies in The Last Dragon. Elena, Karl, Mary, Gwain, Amy, Paul and Pueblo are no more. If you have not met Elena, Karl or any of the other characters in The Last Dragon then you need to introduce yourself to them but you need to start with The Witching Pen first so that you will know and understand what is going on with them and who they are. Dianna Hardy is one brilliant author and has done an amazing job with The Witching Pen Novellas and while I am sad to see The Witching Pen Novellas come to close just knowing that she has other great and fantastic novels with some great characters is the only thing that is consoling me at the moment.

First of all, I would like to thank Dianna for sending me a copy of her book (which was won on First Reads)

Having not read the first three books, I was a little lost at the start but after continuing on reading it, I understand what was going on and really started to enjoy it. My favourite thing about the book was that the story was told with several different points on views which allowed for the plot to develop.

This is a must read book but start from the first book, unlike myself

How do write a review on a book you loved and hated to see end. Well here I am giving it a try. When I first started the Witching Pen Novellas I was skeptical because each one was about different characters and the origin of the story was like none other. With The Last Dragon, Dianna has wrapped up everything giving it the grand finale ending. Whereas I was so sad because I was hoping to see more of Mary and Gwain (I love them), we got more Amy and Elena. The love triangle with Amy, Pueblo and Paul was so sad but had a terrific conclusion. The rift between Elena and Karl just about broke my heart. Talk about emotional, that situation alone gave me heart palpitations. Be ready to give this book your full undivided attention because with so many things going on you just might miss something. Great Job Dianna! And thanks for the bit at the end :)

### **Mary says**

The Last Dragon is book 4 in the Witching Pen series and the first full length novel in the series.

I just finished this book and I can only say... wow! This series got better and better with each book and this is the best book of the series! The story has it all... angels, demons, magic, witches, fey, shapeshifters, a cranky God and dragons! Once you start reading – you cannot stop – and that's a promise!

If you want to read this book - make sure to start with book 1. The storyline is rich and complex and you would miss so much, when you skip the first stories in the series.

The Last Dragon is written from several points of view and we meet all of the main characters from the previous books again. I don't want to give away spoilers, so I can just tell that this story is about the battle between light and dark that every single one of the characters has to go through. This way we learn a lot more about Elena, Karl, Amy, Pueblo, Lucifer, Abbadon etc. - while we're impatiently waiting what's going to happen, when the dragon finally rises...

If you love stories with romance, action and a lot of very interesting paranormal and biblical interpretations, then this book is for you!

This is a review of an ARC copy graciously given to me by the author. There are so many adjectives that describe this book and series. I fell in love the Witching Pen Novellas. The characters are so corporeal and the plot unique. The world that Dianna has created for this series is so full of folk lore and little tidbits of fairy tale that we have all been subject to over our lives.

The Witching Pen introduces you to Karl and Elena. In The Sands of Time you meet Amy and Pueblo. In the Demon Bride you learn Mary and Gwain's story. In the Last Dragon all of these stories meld together and you get to experience the meaning of apocalypse.

I could not put this book down. My eyes are blurry and tired from hours of reading. It was that good. Ms. Hardy's use of biblical lore and fairy tales to create her own mythology is just brilliant! I mind was spinning throughout the whole book trying to figure out what was coming next. I am happy to report that this book is not predictable. It is fresh and unique and spell binding. Even though the characters had to suffer I wish that I lived in their world. It is magical and the love exhibited by the characters was palpable.

It is not my intention to give away any plot points so you are going to have to read this book for yourself. I highly recommend you read the novellas first, you will probably be lost without them. This book is a true gem, well done Dianna!!!!

Life is what you make of it. Enjoy!

As I started reading through the last Dragon it didn't take long for everything to fit into place. The Last Dragon kept you on your toes with new twists and turns that kept you flicking through the pages. For me I was always tuned to Amy and pubelo I felt drawn to them right from the start and wondering what would become of them. to say I wasn't disappointed. I would of liked to read bit more on gwaine and mary hoping there could be a little spinoff. What I liked about the last dragon all the characters had a big part in the story and not just focusing on karl and elena. Thankyou Dianna for giving me the opportunity to read and review the last dragon

### **Autumn says**

I received this ARC to give an honest review.

Where can I start, Dianna Hardy is amazing with the way she can tell a story. We have followed the path that everyone has taken. Karl and Elena are a couple now, Gwain and Mary are no longer apart of the group.

Pueblo, Amy & Paul well they have their own thing going on. Elena's mother is back. We meet up with Lucifer and in this installment I actually felt bad for the way Lucifer is portrayed in a way with this book you think Lucifer actually has feelings. There are dragons in the book, how the dragons come about you have to read. The Apocalypse is happening but it is a different kind. Not your normal run of the mill Apocalypse. Everything comes together in *The Last Dragon*, everything makes sense and the way it is told is awesome. Things are a bit complicated with the couples but they all seem to make it through or do they? I highly recommend you read the others in this series because if not you may get lost.

### **Elizabeth Morgan says**

I have no idea how to start this review, so I'm just going to dive straight in.

**The Last Dragon** blew me away. I enjoyed reading the first three books in the series, I personally feel that each got better and better, and I have absolutely loved the development of the plot, but my god, this book!

Firstly, I have to say that the interpretation and twist of well known biblical stories is astounding. I mean, wow, *Dianna Hardy* has really reached in and turned one dimensional, well known characters into three dimensional ones. I mean, she has breathed life into these characters; these biblical beings we have heard about time and time again, and you really feel for them.

I mean, everything in the world is balance; good and evil, right and wrong, light and darkness, but even so, life isn't so black and white and that is what Dianna has brought to these well known characters; balance.

I don't want to go into details, but Lucifer for example, technically we are told and made to believe he is well, the guy is evil incarnate. Not this version. I fell for him in this book. I mean, I really, really felt for the guy, and well, I felt for a lot of the characters that I didn't like at first. And that wasn't because they weren't written well, because they were; it was simply that they were the "bad guys/girls." I loved the complexity of these characters; that through Dianna's unique way of writing you learn all you need to learn about them; about their mistakes, regrets etc.

We learn so much more about each of the – previous – secondary characters in this book; how they have played their parts, and why they are the way they are . . . and my god, have I mentioned how I love the twists? I know in a previous review I have stated that the world building was fabulous, but wow, as a reader I was fascinated. As an author I was blown away at how Dianna has reworked the story of how the world came to be; where god, angels, demons, and Adam and Eve came from. Genius.

As for our wonderful leads . . . They have hard choices to make in this book, and it was wonderful to see their progression and growth as characters. I don't want to say a lot. If you have followed the series this far you will know that each of them has a lot on their plate in one way or another, and all I can say is that the loose ends were tied up beautifully.

This story is fascinating and emotional. The humour is still present alongside some deep, and heart warming scenes. And the ending . . . Oh my, Dianna Hardy knows how to write a story. I didn't want this book to end.

If you are a fan of *Dianna Hardy* and you haven't read this series, you have to. You have no idea what you're missing out on.

If you are a fan of this series, then you are going to LOVE this book.

**The Last Dragon** is the perfect ending to a unique and fabulous series.

*(This book was received from author in exchange for an honest review.)*

### **Maggie Frank says**

I just happened to stumble upon Wilted a couple of summers ago which led me to The Witching Pen. Little did I know then how deeply invested I would become with the characters in this series and what a HUGE fan I have become of Dianna Hardy!

In The Last Dragon, all hell is breaking loose, literally. The apocalypse has created a world where there are no boundaries anymore between those that are paranormal/magical/evil and the human world. As I read this I was overwhelmed by the level of detail and profound creativity that Ms. Hardy brings to the reader. Her take on mythology, religion and true love is astounding and it made me really think of things in ways that I might never have considered.

Elena & Karl, Pueblo, Amy & Paul and a host of other characters are dealing with the startling realization that what they thought was going to occur with the Last Dragon is now much more complicated. The couples in this saga are so rich and this last book pays beautiful tribute to ALL of those that Dianna's readers have connected with.

I will not provide spoilers but will share that I was thrilled with how everything was tied up in the end. Even when I was reading and wondering how things could ever work out for any of the characters, I stayed brave and continued on. While I never could have foreseen the hows and whys, I absolutely loved this wild ride and highly recommend the entire series (read them in order people of you will be confused!) to those of us that love our paranormal with a sexy and often time romantic flair this is a must read!
