## Trouble Under the Tree Heather Webber

When landscape designer Nina Quinn agrees to deck the halls of Christmastowne, an indoor Christmas village, little did she know how dirty the job would be.

Christmastowne has been plagued by mishaps. Someone's stealing toy donations, cutting lines to the security system, starting fires, and poisoning the poinsettias. Worst of all, Nina's neighbor, Fairlee McCorkle (aka Mrs. Claus) is found murdered under Christmastowne's enormous decorated tree.

The deeper Nina digs for clues to unwrap a killer, the more she discovers that some secrets are best left buried in the past.

## From Reader Review Trouble Under the Tree for online ebook

### **Bird says**

Every Heather Webber book I read seems a little bit better than the last. She is definitely my favorite cozy writer (and one of my favorite writers, period!). I love everything about her stories - the plots keep me guessing, the side characters are fun and interesting, and I adore Nina (the main character). There's usually a hint of romance, which works perfectly for me as well.

I had one minor quibble, and it was that I figured out what was going on at her parents' house from the first time it was mentioned.

(view spoiler)

---

### **Trisha says**

Although I only gave it 3 of 5 stars the first read, I enjoyed it a lot this time and upped the rating to 4 of 5 stars. I think I gave it the lower rating before because I wasn't happy about Bobby at the time; however, it didn't bother me as much this time. I loved the mystery Christmas decor that kept showing up at her mom's house. Christmastown was a bit over the top.

---

### **Zainab says**

3.5 stars

---

### **Luanne says**

We are back in Nina Quinn's world in a holiday story. Of course there is a murder that Nina becomes involved in solving. Great story.

---

### **Jeanie Jackson says**

Loved it! For some reason, I thought this book was a novella so I did not rush to read it. Sad for me because that means I read it out of order. As always, there is silly fun and really delightful fun. The mystery was complicated enough that I did not figure it out; I just suspected everyone. I did guess the prankster before the end and loved who it was. I especially appreciate that there is growth and character development in each book of the series. I do hope there are more books in this series but the last one so far was handled so well that I wouldn't feel cheated if it didn't continue, just heartbroken.

### **Cherie says**

Heather Webber's TROUBLE UNDER THE TREE is a delightful page-turner with a witty amateur sleuth in Nina Quinn.

The holidays are stressful, and it's even more so for Nina Quinn. She's working long hours on decking out Christmastowne, her fiancé is out of town helping his ailing mother, and she may have lingering feelings about her ex-husband. When a string of incidents occur at Christmastown, it's up to Nina Quinn to dig through the dirt and lies to solve not only Christmas capers, but also a murder, or two.

TROUBLE UNDER THE TREE yanks the reader into the story with the wonderful voice of Nina Quinn. She's sarcastic, witty, and a wonderfully well-written character within an amazing supporting cast. Each character is different and makes their mark. The plot is fast-paced. For a mystery, Webber does well in dropping hints of some secrets but still leaving some big surprises for the end. Since this is a book in the Nina Quinn series, backstory and re-telling who characters are and hinting at the previous books are used. Personally, I could've done without these tidbits and still enjoyed and understood the story, but it didn't affect my love for it either.

After reading TROUBLE UNDER THE TREE by Heather Webber, I want to run out and read the rest of the Nina Quinn series. Be prepared to dig right in!

---

### **Candace Davidson says**

I enjoyed this book so much that I couldn't put it down. I finished it in a few days. Nina gets herself into a lot of different "situations" that would make the typical person go crazy. She deals with a lot of ups and downs in this book. As always Heather Webber leaves up wanting more, with the cliffhanger that she leaves at the end. Argh, I don't want to wait for the next book! As I've said before, this author is funny, really funny. If you have read a book or more of this series or any of Heather Webber's books. I guarantee you will enjoy this book. The next and most recent release from this series is called The Root of All Trouble.

---

### **Emily says**

Solid Nina Quinn; good. Nothing too exciting but it was a good read.

---

### **February Four says**

I didn't expect to, but I really like this one. No over-the-top shenanigans, these were actually believable. My faith has been restored.

---

### **Meg says**

A great addition to this older series. Love that all the fun, recurring characters continued to play a big part in the stories.

Unfortunately, the series ended after the next book (which I had read out of order), so have completed the whole thing now.

I have started following the same author's Wishcraft series (written as Heather Blake) and need to get back to her Lucy Valentine series, as well. But will definitely miss reading about Nina and the gang.

---

### **Jan says**

This was a great read, as are all of Heather's books!

---

### **Kristin Humphreys says**

Oh my gosh was this good. I'm looking forward to the next one in the series to see what's happening in Nina's love life and with everybody else in her family. I again, never guessed the killer. Didn't even suspect. Another great book by Heather Webber.

---

### **Mel says**

Love Love Loved this book. Nina is always a hoot!

---

### **Bridget says**

Nina Quinn has taken a job during the Christmas season preparing an indoor "Christmastowne" - a place created by an old schoolmate that will be themed that way all year round. Usually, Nina and her crew do their landscaping outside, but this was a chance to keep everyone on the payroll during the off-season.

Weird things keep happening at the site, and even Nina's stepson thinks there is something wrong about the place. When a body turns up under the big tree during the lighting ceremony, Nina decides to investigate. Between this series of events, someone sabotaging her mother by placing inflatables on her lawn and rooftop (which offends her sensibilities), and mysterious behavior by her only sister, Nina has a lot going on. Her fiance also seems to have become uninterested, and she can't decide how that makes her feel.

Not great literature, but a fun holiday read. I enjoyed it.

---

**Allison Fenton says**

good book, but didn't like ending.
