When I found out my friend, author Susanna Leonard Hill, was releasing a new series of board books, I offered to review one. My friends know I'm not likely to give a favorable BOOK NOOK REVIEW unless I sincerely like the book I've been given.

The day WHEN YOUR LLAMA NEEDS A HAIRCUT came in the mail, I was having a very rough time at work. I thought I would give Susanna's book a quick read and then delve deeper into it at a later time. I found myself actually chuckling out loud at some of the adorable illustrations Daniel Wiseman created to compliment Susanna's cute story, like this one...

It brought me back to the days of my own youth when I tried wearing a perm myself, as well as those days of trying to tame my own son's curly locks. It is also written in a similar vein as author Laura Numeroff's "If You Give..." series which makes WHEN YOUR LLAMA NEEDS A HAIRCUT a very enjoyable read. I can't wait to read other books in the series like WHEN YOUR LION NEEDS A BATH and WHEN YOUR ELEPHANT HAS THE SNIFFLES.

Young readers will laugh at the whimsical artwork and parents will find their own little ones asking to hear this delightful story "just one more time!" A great addition to any home library...

School picture day is coming up and llama needs a haircut. Of course there's no easy way to get your llama to agree so you just have to grab him and go. The decision is which hair style to go with... bowl cut, mohawk, perm, or something completely different. To convince your llama you might have to demonstrate on yourself first, resulting in a hilarious school photo!

Ms. Hill's newest story is one of her best (but then, every single book she writes is her best). The hilarious story of the llama and all those hairstyles. What little one would not love this story? Ms. Hill's writing is the best I have ever seen. She connects with the children, and each child feels like she wrote the story just for them. The illustrations are funny and so cute. Will the child persuade his llama to get the haircut? You have to read it to find out. You will read it again and again and again.

I love Susanna Leonard Hill's books. This one, like all her boardbooks in this series, is hilarious:

"When your llama needs a haircut, you have to be a little bit tricky. Llamas usually think their hair looks just fine." This text is paired with an illustration of the llama with flowers and twigs stuck in his hair.

I especially enjoyed the pages where the type of haircut for the llama is debated. My son laughed out loud at the perm picture. This is great book to read just for fun, or also to get your child thinking about his or her next haircut. It's a great read aloud, with beautifully expressive illustrations.

Picture day is coming - and your llama is looking a little on the shaggy side. Time to give him a spiffy new haircut so he can look his best. But first you have to catch your llama, then you have to wash his hair and comb out all the tangles, and of course, he will complain. Once that is done, you have to decide on what style to give your llama, who sure is squirmy around those scissors...uh oh. Well, sometimes, you and your llama need a new picture day haircut. This delightful book will have your and your young readers chuckling at the antics of the llama who isn't really into getting his haircut - some young readers might even find a little of themselves in him. It is, of course, the perfect companion to the author's two earlier books, When Your Elephant Has the Sniffles and When Your Lion Needs a Bath.

If the picture of the llama with a bowl cut doesn't instantly cheer you up, I don't know what will.

Cindy Schrauben says

WHEN YOUR LLAMA NEEDS A HAIRCUT depicts a young boy's attempt to give his llama the perfect haircut for picture day. The comical options take us on a lively adventure - trimming a wiggly llama can get a bit tricky. But, in the end, Hill shows us that it's all about embracing the day. What a fun read!

Rene Aube says

Who doesn't want to look nice on class picture day? Llama, of course!

Susanna Hill takes readers on a rollicking romp to try to make Llama look his best. All the cuteness is topped off with a fun, giggle inducing surprise. Illustrations portray wonderful expressions any llama would have when you decide your llama needs a haircut! Enjoy!!

Once again, full disclosure here. I'm a Susanna Leonard Hill fan so of course I jumped at the chance to review her newest adorable picture book. But for this one, I had my 16 year old daughter reading with me on the first read. She is a tough audience who doesn't always appreciate the picture book genre. However, Llama got two thumbs up! As she said, the magic is in how the Daniel Wiseman's extremely clever illustrations complement the sweet, funny story and send it over the top. You've got to see this llama! Such personality! We both laughed out loud at the bowl-cut pic! Having survived 16 years of hair battles together may have added to our enjoyment. I expect giggles galore when I bring this one into my kindergarten classroom.

Funny and relatable.

Julie Rowan-Zoch says

My Storytime gang LOVED this! Toddlers between 1 and 4 shouting out responses to the hairstyles under consideration, discussing how they like or don't like getting their hair washed or cut! The illustrations are adorable and SO funny!

Teresa says

It's always a joy to read a book that appeals to both kids and adults and "When Your Llama Needs a Haircut" does that! Simultaneously sweet and humorous, the story will tickle kids' funny bones and possibly make them re-think the next time they have a tantrum about getting tidied up for a class photo. It will also bring back memories for adults from when they were little themselves and resisting grooming and haircuts (ah, the classic bowl cut...). And, honestly, who doesn't love llamas?

Daniel Wiseman's illustrations--bold line drawings paired with a soothing, slightly retro palette--have a fun, quirky feel that complements Susanna Hill's amusing text. I love that the little kid is a person of color with

hair as distinctive as the llama's.

The story has the right level of exuberance that lends itself well to library story time, yet is just calm enough to be suitable for bedtime reading, too. The \$7.99 list price is an absolute deal for this sturdy book that is sure to become a favorite for many kids.

Suzy Leopold says

It's picture day. Who doesn't want to look dapper? Of course, llama does. To look his best, he'll need some help with the perfect hair style. Who better to help llama than a young boy who wants to look good on picture day, too.

This delightful book is sure to have little ones saying, "Read it again!" The charming book is filled with colorful illustrations sure to entice giggles.

This series is written in a similar fashion to author Laura Numeroff's "If You Give..." series. I look forward to reading two more in this series, WHEN YOUR LION NEEDS A BATH and WHEN YOUR ELEPHANT HAS THE SNIFFLES.
