Where the Heart Is

Jenny Gardiner

Where the Heart Is Jenny Gardiner

Reese Larkin had given up on ever going home again, until she realizes that home is the only place she'll ever be able to reclaim what's most important to her. After a call from a long-lost friend, she decides to embark on a road trip to revisit her past and along the way comes to realize that home really is where the heart is...

(originally was titled House of Cards)

Diane says

I found this book to be really aggravating. I kept reading it in hopes it would get better but eventually enough is enough. Although I thought her writing style was captivating enough, the constant drone of her parents befuddled marriage was sucking the life out of me. If you are looking for a feel good read skip this one.

Mandy Saial says

This was a cute , Hilariously ,fast -paced ,sometimes depressing love story . It was like sitting on the couch watching a Hallmark channel movie

Brandy says

A Depressing book with a VERY happy ending! Hard to get into....The Heroine? Reece's family is F'd up for lack of a better word. Won't ruin the story by giving all the details of why. But I'm glad I stuck through this story. 1.I was morbidly curious as to what happens next. 2, Reece's estranged husband was just a doll! Total sweetheart and put up with a lot. Seeing the cover, I thought I'd be reading a typical chick lit/romance. WRONG! Know that that won't be the case. Like I said, I'm glad I kept reading, and was so curious as to what happens next in this poor girl's twisted life, I spent the whole lazy Sunday reading this. Like I said, the prologue alone is worth reading through the whole book. DEFINITELY glad I purchased this FREE kindle book, and would read another FREE kindle book by this author.

Lydia Granger says

It's an okay story. Lots of drama. Not a favorite. Reese's life has been nothing but dysfunctional from birth to her wedding day when her mother is murdered by her grandmother. The story is about Reese dealing or not dealing with the tragic losses of family, friends and finally separation from her husband. She comes to grip with feelings and the past while she attends her grandmother's funeral.

Tania says

I am so glad that I discovered Jenny Gardiner! Really enjoyed this and the others that I have read. I look forward to the 4 I just ordered :)

Author: Jenny Gardiner

Recommended for: fans of chick lit

Edition: Kindle

I found this book on the Kindle Store for free and so I thought that I would give it a try. I thought that it was a really good heartwarming 'chick lit' book, written by the fantastic Jenny Gardiner. It starts off quite sad and down but it all ends with a nice uplifting ending. We go on a journey with the main character (Reese) through the bad and tragic events that had happened in her life. The characters are easy to relate to and likeable. It is incredibly well written with a really good storyline.

Jenn Greenleaf says

The plot is quick and to the point, which is something I like when I want to get lost in a book for a little while. I liked the story (Reese struggling with her past and having trouble moving forward until she receives a much needed shove in the right direction), but I wish it hadn't ended so abruptly. With so many chapters leading the reader through all her trials (present day, and past reflection), I was left hungry for more when her problem was resolved. I'm still giving this book four stars though because, as I mentioned, I really liked the story overall.

Carolyn says

Loved it.

Tania says

Super glad I discovered this author!!

Barbara says

A slightly depressing story, but with a wonderful ending, I enjoyed Where the Heart Is. Reese has a fantastic husband and a great family that came along with her marriage to him, but she lets the terrible upbringing with her dysfunctional family and the tragedies in her life weigh her down until her husband Taylor finally gives up and leaves her. At her best friend Ginger's urging, she gets her courage up, returning home to Pittsburg to attend her horrible grandmother's funeral, connect again with Ginger, and finally put to rest the demons of the past so she can move forward to a happy future. I loved the ending, and it made up for quite a lot of the depressing, tragic events that happened in her life up until then.

Auriella says

This book was sad and depressing for 90% of the entire book. However, cuddling with my puppy at 4 in the morning I finally finish and get to the good parts! Glad I stuck with it, but I've read other novels by Gardiner before (under a pen name) and they had much less depressing storylines. She sure is a great writer though, excellent techniques.

Suzanne says

A bit predictable, but a good read. :)
