Bang....

The events of one night on Willow Island will irrevocably change the lives of so many forever.

Breesan Maxwell's ultimate downfall came that night after one kiss. The impenetrable wall surrounding her fragile heart crumbled, and now the entirety of it belongs to one man, Marcus Walker. Finally accepting his love along with those she denied for years, Breesan finds that it is vital to her existence.

Heaved unwillingly into his poisonous covert life, will she survive the threats of abductions, illegal experimental drugs, and death?

Morgan Walker's twisted family responsibilities will lead him to an ultimatum that shreds his perfect plan apart. Promised one woman, intrigued by another, yet neither owns him. Will the one woman who could redeem his narcissistic ways be lost to him before he realizes that he suffers with a broken heart and needs her love?

Can these entangled souls survive the relentless pursuits of unforeseen forces, stopping at nothing to get what they desire? Or can Breesan, Morgan and Marcus push through their fears and personal hells, fighting for what really matters most before All Is Lost?

Marie Wathen you did a fantastic job and I am in book hangover with this yet again! This book is such a great mixture of romance and suspense and I am craving more. The twists and unexpected turns that this book has taken has enchanted me and I want more now!!! Breesan has developed so much in this book and Marcus is soooo yummy!!! I love the way Morgan is developing as well. I can't say any more just WOW!!! Thank you!

### Heidi Tieman says

A series that will grab you by the .... And never let go!!

I am hooked. Book 1 (Be All) was a very pleasant surprise and Book 2 (All is Lost) far exceeded my expectations! Marie writes from three different perspectives flawlessly giving you a unique reading experience allowing you to feel the raw and uncensored emotions of each character. There are so many twists and turns, I was literally glued to my reader until I finished this one! All is Lost picks up where Be All leaves off, subsequently leaving my heart ripped out on the floor. The first scene with Breesan and Tristan in the hospital left big, fat tears rolling down my face. You feel so connected to Breesan, you can't help but feel the utter heartbreak and agony she has endured and guilt she feels for inflicting pain on the people around her.

What can I say about the Walker brothers....Marcus owns me and his vulnerability where his heart is concerned made me melt even more. He is dominant and charming in a very heart-stopping, green-eyed package. Morgan, I feel so many mixed emotions for. He wants to be good and do the right thing but hasn't found a reason to change until it's too late. Even the illustrious Waverly won me over after a bit.

We get to meet more people in this installment, each playing an important role in this amped up plot. It keeps thickening and I am anxiously awaiting Book 3! If you are looking for a balanced combination of Romance, Mystery and Suspense, I highly recommend this series. I am so happy I stumbled across Be All (Book 1) and am honored to give this ARC Review for All is Lost (Book 2).

5 Stars all around!

Wow! What an amazing second book. I enjoyed the first one but I liked this one even more.

It starts off from the end of the second book and the prologue grabs your attention straight away and never lets you go. We jump straight into the action and this story was even more fast paced than the first.

I really like Breesan this time around, She was a strong character and finally let the people who love her I to thee heart.

I'm still devastated about Tristan and I really hope he turns out to be okay and goes back to normal.

I loved the twins again, even more so with Morgan taking a stand against his dad and I hope he sticks to what he wants now and the brothers sort out their differences.

The plot was even better than the first, I was constantly on edge wondering what was going to happen next and the ending was even more of a cliffhanger than the first! I am so desperate to read the third book and I'm hoping there isn't too long of a wait as I need to know what is going on.

This is looking like a really strong series and I reckon the third book will be even better as the story develops and more questions are answered.

### **3.5 Whirlwind Stars of Chaotic Suspense**

Picking up right where Be All left off, the members of Willow Island are all back, all have been effected by that crazy dangerous night at Grandad Walker's house, and all eyes surround Breesan Maxwell.

After a childhood marked by loss and tragedy, Breesan built walls around her heart to avoid experiencing such pain ever again. Not even fully opening herself up to her closest and only friends Ana and Tristan. Yet, the moment Marcus Walker struts into her life, her walls began to lower. The connection is like a gravitational pull that neither can ignore. What starts out as a job for Marcus, turns out to be so much more. Following the climatic attack during Breesan surprise birthday party, it is as if a light blub goes off and Breesan realizes how much she truly cares for those around her; especially her rock, her protector, her love—Marcus.

Marcus Walker had himself convinced staying away from Breesan was the best option for her safety. His only focus was to watch out her from a far, not drag her into his hectic, crazy life as a security agent. But once the dots are connected and all the danger leads to one person—Breesan—Marcus realizes he would do anything to keep her safe and not as a job but out of love.

Damn if this man doesn't step up his swoon and alphaness. His protective instincts are turned on hyperdrive determined to never let Breesan out of sight. For as long as possible Breesan is kept in the dark of the full extent of her danger, and she isn't the only one. I found myself scratching my head a lot like "huh" then BAM whiplash! I had no idea who was bad or good. Marie Wathen constantly keeps you on your toes. Has you suspicious of anyone and everyone. The suspense, the intrigue and anxiousness surrounding "Why & Who want Breesan dead?"

It almost felt like two different plots were taking place in this story. Marcus' twin brother, Morgan, the infamous selfish, conceited, status conscious playboy, attempts to cure his broken heart and grasp his freedom from the clutches of his morally dysfunctional and corruptive family, by running away to live a life of no responsibilities; in where else than sin city—Vegas.

***"I will finally have true freedom. Freedom and fun, oh, and the other F word; fucking my way up the strip, with no commitments."***

We receive all three characters' POVs and where Breesan's and Marcus intertwined, for the first 55% Morgan is out on his own running into and running from trouble after trouble. However, when all the characters are rejoined and work together, the plots start to mesh making your eyes bug wider as you start to piece the connections together. This story is a lot darker than Be All, there is kidnapping, vicious skanks still lurk coughElisecough, despicable parents, Brett and Haleigh Walker, continue to try to control their sons, human trafficking is discovered, and more people are put in harms way as new threats transpire against Breesan Maxwell.

The romance between Breesan and Marcus lingers throughout the book with high amounts of sexual tension that will leave you hot and bothered. Unfortunately, this sensation will go on for 85% of the read

On plus side, while you lust after Marcus Walker's goods, he will swoon your heart out leaving you too gitty to care about the sexcapades. I was extremely proud of Breesan for the growth we see in her both emotionally and maturely. On the contrary, I enjoy getting those butterflies in my stomach from the way a guy woes, yet, Marcus comes off a tad too sensitive at times. The exchanged of their feelings for one another is also repetitively expressed. I would of like to see more growth in their relationship rather than putting it all on hold due to the mayhem around them; granted don't know how Marie would of done that considering there is so much mayhem and mystery surrounding this storyline.

There are a lot of secondary characters, family member, task force team members, people of suspect, sketchy new trouble makers it can be overwhelming at times to remember who is who. We do get a more in-depth introduction to the task force members. Holy hot assertive, intelligent, strong, and big hearted Rhys he is delicious. I really enjoyed the banter between him and Marcus, and him and Sam (Marcus' sister and Rhys ex-girlfriend). I am on the fence about Sam Walker some of her actions will have you leery but I can't deny that the chick is badass a helluva of a sister.

Marie Wathen definitely knows how to keep your interest. I however get confused easily and with all the action, suspense, chaotic, drama packed events that took place, I got a wee lost along the way. I didn't see that ending coming, I should of known the intrigue couldn't be wrapped up. Ms. Wathen leaves you hooked and in utter shock "What the...Who the...Come again.....???" I have complete confidence in Marie Wathen's writing that as the series progresses more questions will be answered and mysteries will be untangled. I look forward to book 3—I plan to practice playing the game "Clue" I will solve this story!

WOW!!!! I loved this book and can't wait for the next one. The author brought this book to life. We all have our trials in life and this book has plenty of trials. Morgan has realizations that bring his life tumbling down on him emotionally. Breesan finds love, life, and sorrow. Marcus finds the love of his life and never wants to lose her. Everything in this story starts bringing together all of the first book "Be All". I am really excited that the author took the readers to heart when writing this book. I want to give a big Thank You to Author Marie Wathen.

OMG...

Seriously...mouth dropped, gasping in SHOCK at All IS LOST!! All is LOST...OMG!!! I can't give away too much in this review, because there are so many twists and turns in events, that will leave you gripping the seat, begging for me. You will say "NOOOO" in shock by the end. I know I did!! I'm so curious to see how it all ties together, and I can't wait for more of this series.

Breesan and Marcus WOWED me...their connection is the gut wrenching kind that people dream about. Their emotion for each other is raw, intense, just complete utter passion. They love whole-heartedly.

Morgan, still annoyed me. His sense of entitlement is over the top. But, he does sincerely care for Breesan, and Waverly as well.

Marie writes with such description, I always feel like I am watching the events in her books, unfold right before my very eyes. All is Lost is RAW, INTENSE, SEXY, POWERFUL, SCARY, PASSIONATE AND EXCITING. This series just keeps getting better and better, and I'm not exactly even sure how, considering BE ALL was amazing to begin with!! I wish the rating system went up to 10 stars...hell even 20 stars, because ALL IS LOST is AMAZING!!!

Absolutely fantastic! It even tops Be All....what an amazing follow up!

Marcus and Breesan are fantastic together. I loved them in Be All, but I fell in love with them in this one. I really wanted to see where the story was headed after the first book, and it is one hell of a ride. I rarely give short reviews, but this time I am going to do just that. YOU NEED to read this book! If you loved the first one, you will adore this one!

Breesan gets stronger with every single page, and Marcus is the kind of man you fall for without regrets. Please pick this up and let Marie Wathen take you on a journey you won't forget! I give this book 5 lipsticks! I cannot wait to see where this goes...=)

It's hard to even begin with this review b/c it was that GREAT!! This book was beyond amazing! Marie grabs you from the beginning and holds you with each page! There were times I was screaming at my Kindle and others I was speechless! This book takes turns that you will never see coming! It was hard to put it down for anything!

Breesan and Marcus are perfect for each other! She is such a strong female & her strength grows constantly.....and Marcus is, well...perfect & HOT!! ;) Morgan got on my nerves in the beginning being selfish & immature, but he finally figured out what he wanted and my mind changed completely about him!

If you haven't read the book, you need to pick it up today! But, you must read Be All first! Marie Wathen is a great author & holds you captive with her words! :)

### **Merilyn Dignum says**

I was lucky enough to beta read All Is Lost and I am so glad I was given the opportunity. This story does end in a cliff-hanger but that is no reason to miss out on a great read.

The story of Breesan Maxwell and her friends who live on Willow Island that we were introduced to in Be All continues in All Is Lost.

It starts the day after the party with everyone reeling from the traumatic events of the previous night, but it's

not long before more trouble strikes and Breesan is again caught up in a situation she can't control.

That event brings the team Marcus works with fully into the story as they attempt to uncover what is really going on and keep Breesan safe. It also brings Marcus and Breesan closer than they have ever been.

The mystery deepens but, at the same time, some aspects are revealed. Love is found and love is lost, friendships are tested, and some of the characters' real personalities are exposed. Some good, some bad and some that seem pure evil.

If you loved Be All, you'll love All Is Lost.

Can't wait for book 3.

OMG Marie Wathen I really, really don't like you right now!!! This book was AWESOME, but once again I was slapped up side the head with the cliffhanger ending! How could I not know it would be the same as in book 1...dummy me!

I don't know where to start this review. If you haven't read Be All the first book in this series, I highly recommend that you do.

Marcus Walker - dude is hotness personified and Breesan is his EVERYTHING and he will do whatever it takes to protect her.

Morgan Walker is Marcus' twin and I'll admit I found him to be childish, annoying, selfish, and I just wanted to reach through my kindle and slap him HARD. But, he is finally coming around realizing what he gave up when he let Waverly go.

Barret Walker the twin's father is an ASS no 2 ways around it! I disliked him in the first book and I really, really dislike him in this book!

I loved Tristan in the first book and through no fault of his own (thanks Marie Wathen) he is not on top of my likable list in this book. He better wake up before its too late...Please Marie.

This book is filled with lots of awesome characters, lots of mean, evil, and crazy characters, intrigue, mystery, and turns you won't expect.

If your looking for a really good book that you won't be able to put down than look no further. As I mentioned earlier, there is a cliffhanger ending, so be prepared, but the book is so worth it!

I can not wait to read Sam's (the twins sister) story and hopefully, pretty please Marie an awesome no cliffhanger ending, but even if she does leave us hanging, this time I will be prepared!
