It took me far too long to finish the ARC I got for this book (real life kind of got in the way) and that's simply my loss... After the huge cliffhanger we got at the end of the last book, this book dealt with the consequences of that. It wasn't as action packed as the last one (although the battle there was, was thrilling). We got a bit more world building and more continuation of things we learned in the previous books. And we got Amel making an amazing and brave decision that makes me love her only more.

The best of Dragons

I love following this series. This book had my heart beating so fast from exciting action it took me awhile to calm it down. It was very emotional, but I loved every minute of it. I wasn't sure Amel and Raolcan were going to get out of this one! Trouble seems to follow them everywhere they go. You don't want to miss this installment of the story. It's fantastic!

Kanyon says

Amel knows what she saw, but will anyone believe her? Book eleven starts off leaving us wondering if Amel will pull through her fatal wounds. As the story progresses the action returns in force. I think this one was a tough one for Amel. She has to fight through her negative emotions quite often and is not always successful. Having hope is the most important theme of this story. As always, if you love your fantasy with adventure, humor and a strong sense of right vs wrong then I recommend the *Dragon School* series to you!

Dragon School: Bright Hopes is the eleventh book in the *Dragon School* series.

I read this book on Kindle Unlimited.

Final Rating: 5 Stars

This is the eleventh book in the Dragon School serials and boy let me tell you.....after the ending of Dark Night the tenth book I had no clue what to expect from this book. Yes it picks up right where we left off right back into the thick of things. There were several interesting developments that kept me on the edge of my seat. If you want a series that is done in pretty much one hour reading segments this series is perfect for you, and I gotta say you must read them all! I voluntarily reviewed a complimentary copy of this book.

Annette says

I was so excited to get an ARC for this book, especially after the horrible cliffhanger at the end of the last book that was just downright mean. This book continues exactly where the last book stopped. But where the previous book was very action packed, even that action packed that it was hard to keep up with, this book is more political.

That doesn't mean I loved it any less. Maybe I loved it even more, it's hard to say. I always think that at some point I probably will get bored with this story, but it seems that it doesn't happen. Not yet at least.

It's clear that we're slowly reaching the end of the series, but still we discover new places and new mythology. I like that in this part the language of cards was explained more, although I already got most of it in the previous books, and I liked the political situation that we are presented.

The ending of this book isn't half as bad as the ending of the previous book was, which is a good thing but I still can't wait to discover how it continues! I hope we'll get the next book soon!

Brilliant book, brilliant series

This book is the eleventh book in the Dragon School Series. A new short book is released about every three weeks. I highly recommend you read all these books in order. Bright Hopes is an intense, action packed story that will keep you hooked until the very last page and desperate for the next book. Amazing characters, wonderful dragons, action, danger, hope and humour all packed into this book and into every book in this series. I cannot recommend this book, and series, highly enough .. five stars does not do it justice.

Ahh this was such a beautiful and heart warming book! ❤️?❤️?

Just as the title suggest, this book has plenty of moments of regret, of insecurity, of losing faith and those we love

But despite those nagging thoughts that pop in our minds, there is always that tiny little whisper that brings us hope and light and reminds us of all that we still have

This wonderful book reminded that there is still hope in the darkness, there is still something to hold on to, no matter how far it seems or how dark it looks. There is still hope to cling on

Amel faces one of her biggest challenges yet. Injured in battle, she is recovering from a head injury that may have altered her memories. But Amel believes she saw what she did, but no one knows if they should believe her or not. It is during these times, when we don't think anyone is listening that we lose heart but there are always going to be people, like Amel's beloved dragon Raolcan, who are wise and will advice us to cling to hope, and to know what to do

Amel is definitely luck to have such a lovely dragon like Raolcan, who loves and cares for her. As well as her mentor, Hubric, we see their relationship grow from master and apprentice, to a more father and daughter relationship and I love it!

We see the love and respect Hubric has for Amel, and the love that Savette has for her too

There is just so much love in this book, from all kinds of people, and especially Leng which is only a small part but I still cherish it!

I definitely loved this episode, lifted my spirits and I'll highly recommend this series for all to read, I can't say it enough, it's that awesome! Give it go! ❤️?❤️?

The Mysterious Reader says

To date Sarah K. L. Wilson's Dragon School series has been a wild and wonderful trip and that trip most certainly continues full speed with the fantastic Bright Hopes, it's eleventh book. Frankly it's astounding that the wonder of this series can be maintained over the course of so many books but somehow the author manages to not just do it but do so in grand style. So come along and join Amelia this adventurous (well written) ride. But for the fact that I'm literally dictating this review to my husband from my hospital bed I could go on and on with praises - the book definitely deserves it. Since I can't do that I will simply note that the book is most definitely one to read, it is easy to highly recommend, with the caveat that newcomers are best starting with the frankly great book 1 in this addictive series. I'm definitely looking forward to the next book in the series.

Gigi Sedlmayer says

OMG, The emotional roller coaster at its best.

A story you can't put down, when you start it, as it keeps getting more intense as it goes along.
Raolcan said to Amal, 'Seriously? You let some human bite your neck and see how much you like it.'
Was Raolcan okay?

I just can't wait for the next book. Have ordered it straight away. Now i have to wait.

Sarah K.L. Wilson said: "I love watching television series, short and great, no long movies. I prefer long, drawn out stories in smaller, bite-sized episodes. dragon School is my book version of the television dramas that i love."

I agree with her. I just love the story as she is doing it.

Highly recommended.

Book Review

Title: Dragon School: Bright Hopes

Author: Sarah K. L. Wilson

Genre: YA/Fantasy/Adventure/Romance

Rating: *****

Review: After the completely breath-taking ending of Dark Night I honestly had no idea what to expect from Bright Hopes. As expected we pick up exactly where we left off. So, they remaining riders and dragons have escaped the warrens and are trying to get to some form of safety before the Ifrits catch up to them again. Both Amel and the Dominar are gravely injured and both need treatment soon but there is a bigger issue as Savette, the Chosen One is also dying making everything feel hopeless but she manages to use the last of her power to save Amel in the hopes that she can reason with Hubric and get the Dominar treatment before he bleeds to death or the infection takes his life. When she speaks to Hubric for the first time since the warrens she tells him that she believe the man under the Dominar's mask isn't the Dominar she believes that it is Iskaris and that going to Umtal instead of the Dragon lands like everyone else may have them walking into a trap.

Amel knows that if her suspicions are correct then she will be leading a traitor into the hands of Starie, the false Chosen one and that the real Dominar is out there somewhere will no guard, support or medical treatment. When Amel talks to Hubric he tells her that the mask makes the Dominar not the man and if it is Iskaris then he is now the Dominar and the real Dominar couldn't do anything because no one has seen his face as is the custom but Amel has although she doesn't tell Hubric this as Ashana swore her secrecy about what they did. Amel's suspicions are all but confirmed when the "Dominar" demands that the people with him aren't to leave Umtal until he gives them direct instruction to and with Savette dying they need to leave as soon as possible, but themselves, the Dominar and Iskaris are the only ones that know what happened in the warrens and Iskaris is the only who wouldn't want that news getting out.

Shortly after entering Umtal Hubric learns that the Dusk Covenant are twisting the truth making themselves out to be the bringers of peace beside Starie while the Lightbringers are being slandered in addition to being slaughtered whenever they are found. Their problems only get worse when he tells Amel that the "Dominar" has declared them to be Lightbringers and the in custody so there is no chance of escape or communication with the outside world beyond that of their dragons. At the same time Savette is getting weaker and weaker and without the help of the dragons she will die. Their situation is dire and desperate at best and I have no idea what is going to happen to the trio and it also begs the questions that if Iskaris is really posing as the Dominar where is the real one, is he still alive and safe or did he perish like so many others?

As we cross into the second half of the novel, the Lightbringers and dragons in Umtal are rounded up and transported but it an opportunity for them to escape given proper planning. However, Amel soon realises that the man in another cage is the real Dominar and with Raolcan's help he gets transferred into the same cage

as herself, Savette, Hubric and a few other Lightbringers but they have the problem that he isn't really the Dominar anymore, Iskaris is. The Dominar is going by the name Shonen whether that is his real name is unknown, but he is also one of the Lightbringers and between the four of them they induct Amel into their ranks, an official Lightbringers. However, the one thing I was wondering is Leng has disappeared completely Amel hasn't even thought about him for ages and I want him to come back soon, so I can see more of their developing romance although I can see Amel developing a friendship and maybe even a romantic relationship with Shonen in his absence.

When they fill Shonen in on who Savette is and what is happening to her he tells them that he knows of a way to save her. It turns out when Savette healed Amel is left a bit of her light inside her which healed her bad leg but in order to save Savette Shonen has to cut the bond to her dragon and Amel has to return her light meaning she will be a cripple again. Despite how much Amel wants to keep her healed leg and be normal she wants to have her friend back more. They manage to save Savette, but I fear they have been discovered but Raolcan as always has a plan although it is improvised.

I amend what I said earlier about Leng not being mentioned in ages, but his entrance was beautiful as was his reunion with Amel however, it wasn't clear how many were lost or whether Hubric and Shonen are okay as we sort of lose focus on them in all the chaos. All I can say is this series is one of my favourites this year and I can't wait to get my hands-on Mark of Loyalty very soon and see what happens next.

For less than the price of a fancy coffee...

I can have a few hours in another world. I've been sucked into these little stories, and I love them! I saw the reviews where people are complaining about the price versus the length of the story, but honestly, it's worth it to me. My favorite thing is the consistency of the characters. I also appreciate the way the author let's us acknowledge Amel's disability without making us dwell on it. I don't sit here feeling sorry for, or pitying her. Instead, I wonder how she will adapt to get through her current situation.

I am always excited to see when the next installment pops up on my Kindle.

Been keeping my eye out for this book after the end of book 10 was a shocker. We start right back up where we were left off and jump right back into the thick of the story. My heart was pounding reading the first few chapters of this book. There was an interesting development that I hadn't thought of, however a scene in the last book now makes sense to me.

I really do love this series, I haven't got bored with any part of it so far and am always looking forward to the next book. I think the author is doing an amazing job with the story and I'm looking forward to reading the next one.

The eleventh book in Sarah K.L. Wilson's Dragon School series, and the fangirl within is still going strong. In fact, the fangirl is growing stronger. With all that is happening, I'm finding myself ever more desperate to get my hands on each new release. Big things are coming, you can feel it in the air, and I cannot wait to see

how everything comes together once we reach the end.

Dragon School: First Flight, book one, sucked me completely into the world – it was so much more than I'd expected, and I couldn't wait to get more. Dragon School: Initiate, book two, sucked me in even deeper – it showed me there was more to the story than I'd originally thought, ensuring I would pick up the next.

Dragon School: The Dark Prince, book three, was a very important book in the series – it may not have been my favourite book, but it was vital to the overall story. Dragon School: The Ruby Isles, book four, continues to move things forward in a wonderful way – it may not be my favourite of the stories, but it is another important addition. Dragon School: Sword, book five, was another brilliant read, adding more to the series – it was also the book that reminded me why I was following the series in the first place, pulling me back in after a short hiatus. Dragon School: Dusk Covenant, book six, added plenty of new twists – more than enough to ensure I remained ensnared with the story. Dragon School: First Message, book seven, brought even more to the table – more was added to the storyline, plenty of things leaving me curious as to what would come next. Dragon School: Warring Promises, book eight, left on a serious cliff-hanger – all the books leave on a cliff-hanger, but this was probably the biggest of them all. Dragon School: Prince of Dragons, book nine, was probably my least favourite of the series, but it continued to move things forward for us. Dragon School: Dark Night, book ten, was one of my favourites in the series, increasing the level of intensity and leaving us with so many expectations.

Dragon School: Bright Hopes is another great read, although it is not as intense in regards to the action and events. What is intense, though, is the information revealed. Honestly, there has been so many possibilities opened up through this one. There are so many things I'm desperate to see play out, so many details I want to find out more about.

As ever, Dragon School: Bright Hopes was a quick read filled with so many elements to keep you hooked throughout – action and drama, secrets and reveals, and a continuation of the wonderful dragon world we've come to enjoy so much.

There is no doubt in my mind that Dragon School: Bright Hopes was my favourite when it comes to interesting reveals, when it comes to information that will have an impact upon the future books. I really am excited to see where everything takes us, and I know things are only going to get better.

There's no doubt in my mind that we're at a turning point in the series.
