**manda says**

Is this a parody/spin-off of gossip girl??

Naarrgghhh. I can't find this book. Anywhere.

---

**Elena says**

Uhm, sounds like Gossip Girl to me. Only with vampires.

But since I haven't read the GG books, that could be arranged with these ones. Or maybe the originals. .\_.

I don't know, maybe I'll give it a try.

**Melannie :) says**

Is it just me, or does this sound vaguely like Gossip Girl? :/

---

**Angel says**

After waiting forever to read this book, I decided that even if I finally read which isn't likely to happen it won't get more than one star because I'd be thinking "This is what I've waited all this time for?"

and since we've asked a 1000 times where to get this book with no answer what so ever .. I though to myself: "If the author doesn't care, Why should I??"

so it's getting a 1 star review out of frustration!!

**Demi (Breaking Bookshelves) says**

Sounds incredibly like GG. But with a paranormal twist. I don't really like Gossip Girl, but I enjoy the paranormal so I may want to read this.
