# Ensuring National Biosecurity: Institutional Biosafety Committees

Carole R Baskin (Editor) , Alan Zelicoff (Editor)

**Ensuring National Biosecurity: Institutional Biosafety Committees** Carole R Baskin (Editor) , Alan Zelicoff (Editor)

*Ensuring National Biosecurity: Institutional Biosafety Committees* reviews the various responsibilities and associated challenges Institutional Biosafety Committees (IBCs) face and proposes changes that may help improve this system and increase national biosecurity and worker safety.

In recent years IBCs in academic and other institutions have been tasked with increasing levels of responsibility, overseeing work with recombinant genetic material and hazardous agents. IBC members often lack the training to effectively ensure that the work performed is truly safe for scientists and the general community, and so increasingly rely upon the expertise of the researchers themselves. With the proposed US dual-use research policies soon to be implemented, this strain may increase. This book provides readers with the necessary information to be able to enhance national biosecurity within the US, EU, Australia, New Zealand, Japan and more.

*Ensuring National Biosecurity* is as an invaluable reference for biosafety professionals or for researchers who need to understand the regulatory landscape that impacts their research.

Examines and assesses the current state of Institutional Biosafety Committees (IBCs)  
Collates contributions from world-renowned experts in fields as diverse as research compliance, law and astrobiology  
Reflects an international perspective on regulatory biosecurity and biosafety

## Ensuring National Biosecurity: Institutional Biosafety Committees Details

Date : Published February 22nd 2016 by Academic Press

ISBN : 9780128018859

Author : Carole R Baskin (Editor) , Alan Zelicoff (Editor)

Format : Paperback 270 pages

Genre :
