You can't get much hotter than a Vampire and Biker all rolled up in one sexy bad a\$\$ package. Hawk is about as sexy as they come and Suzi was a great match for him. Another great story in a series that I am really enjoying. Patricia writes great action packed sexy-as-sin romances and I really can't wait to read more from her.

This is book 2 of the Sons of Sanguine book series by author Patricia Rasey. I thought book 1 was great and Patricia Rasey did not let me down with book 2.

Kaleb is now the president of the MC group, Sons of Sanguine, since Kane was ousted as president for breaking the rules of the group. Some one wants him dead after 2 of his guys are killed but there are no leads and a pretty little blood donor is taking up too much of his mind lately.

Suzi has loved Kaleb for years but after the 1 time they were together and after his nephews death she is trying to hate him because he broke her heart. When word get out someone tried to kill him her world gets turned inside out again over this man.

The character Kaleb is more cold hearted bad boy You just can't help but love the bad boy when he tries to show his love to his female character Suzi. Great story line and the characters work so well together that they make the book worth the read.

Trying to find out who is out for his head and coming to terms with his feeling for a gal, Kaleb also has to deal with his brothers in the gang. Kaleb and Kane work together to find out the truth.

Because of strong language and sexual content this book is for mature paranormal readers. Patricia Rasey has outdone herself with Hawk in my opinion and I hear book 3 will be just as good as the first 2.

Jealousy, rage, lust and mayhem, Ms. Rasey intensely delivers a novel that sets her apart in vampire romance.

Hawk seems to have all the problems of his world falling on his shoulders. Complete chaos is hitting the Sons of Sanguine MC in more ways than one. A rival motorcycle club forgets their place. Losing beloved, loyal brothers to an enemy and Viper is missing. The one thing that will set Hawk over the edge just walked through the door. Hawk can't keep his head straight with the brunette beauty, Suzi in his mind, let alone his sight. Overwhelmed with desire, anger and hate Hawk pushes Suzi to the edge. Once there it, maybe he who falls first!

Suzi, after being gone for months walks back into a door that could damn near break her to get out of again. Sexy and enthralling, now president of the Sons of Sanguine MC, Hawk makes her walk a thin line! In an act of mercy Suzi dives into a free fall of lust, hatred, forgotten emotions and untold secrets that send her spiraling into the arms of the one man that is determined to make her lose her mind.

Ms. Rasey flawlessly continues the compelling stories of the Sons of Sanguine MC with HAWK! Not only giving the reader an intense, emotional ride of a romance at break neck speeds, a deeper, more personal look into the Sons of Sanguine MC. Action, danger and lurking surprises grace the pages from beginning to the end. Not to mention a cast of hot bikers saturated with characteristics, ego, charisma and flaws giving each of them distinct personalities that scream out for the reader attention. This reader fell in love with more than one of these alpha and egotistic super sexy, vampire bikers.

Hands down, Hawk is my FAVORITE READ OF THE YEAR!!! Yes this book was that good! Ms. Rasey took me on a ride at a hundred miles an hour downhill, didn't let up, didn't slow down! A ride I highly recommend!

Hawk is the second book in the Sons of Sanguine series by Patricia A. Rasey. This book can be read as a stand alone, however I highly recommend you enjoy Viper's story before diving into the intenseness that is HAWK!

Hawk, Book 2 in the Sons of Sanguine series was outstanding! Ms. Rasey continues the story of a vampire motorcycle club with Kaleb "Hawk" Tepes and Suzi a retired donor from the club. Secrets and misunderstandings have kept them apart but the desire and want for each other draw them closer. The storyline has tons of action, mayhem, vampire politics, blood and scorching sex. "Hawk" is the classic paranormal romance but has elements that make it different than the "cookie-cutter" vampire stories that are out there. I would recommend this series 100%!

Angela (Angel's Guilty Pleasures) says

Hawk is book two in the *Sons of Sanguine* series by Patricia A. Rasey.

What's better than an MC romance? Well, one that's full of vampires.

So I wasn't sure if I'd like this second book in the series. I had a lot of issues with book one, *Viper*, but it turns out I thoroughly enjoyed this installment. I couldn't put *Hawk* down and read it in one day. It was entertaining and the vampire MC aspect worked, now that I understand the dynamics.

With Kaleb and Suzi their romance took center stage to the suspense. These two have a decades old history between them and so you can bet the sexual tension is going to be sizzling. There's a lot of sex, talk of sex, & the sex scenes are scorching hot.

Suzi was a nice character. She wasn't annoying or whiny. She had spunk and went after what she wanted. Despite Kaleb breaking her heart years ago. Kaleb was stubborn and pure alpha male. The bad-ass MC president worked well for his character.

Hawk was an enjoyable read. I liked the push and pull between our leads and couldn't wait for them to overcome the obstacles and find their HEA.

Our Review, by LITERAL ADDICTION's Pack Alpha - Chelle:

*Copy gifted by the author in exchange for an honest review

After thoroughly enjoying *Viper* (book #1), I was more than excited for the release of *Hawk*. Especially because Kaleb grabbed my attention in book #1 and made me want to know more...

Hawk picks up where *Viper* left off, but I believe it can be read well as standalone. I would personally recommend reading the books in order - *Viper* and then *Hawk* - but if you're unable, you will be able to enjoy *Hawk* without first reading *Viper*. Just not *quite* as much.

In *Viper*, the Sons were forced to kill a primordial vampire, make some shaky alliances, break a ton of rules, and completely change the dynamic of their MC. *Hawk* takes those things to the next level with additional shakeup within their Club, several attempted murders, a kidnapping, betrayal, a hard earned love story HEA, a bunch of surprises, and one heck of a set up for the power couple... er couples!?!... for book #3.

Kaleb and Suzi have been fighting their attraction for one another for over 10 years and there are some heavy duty secrets and half truths that make their relationship beyond tension filled. Because of this, their

interaction in the book is both hard to take and an utter relief when they finally figure things out. LOL You will feel just about every emotion for them and it's most certainly a sexy 'me Tarzan you Jane' adventure.

Hawk, SONS OF SANGUE #2 is an intense, action-packed roller-coaster ride, and you will learn much more about some of the other Sons and supporting characters. I am REALLY curious to see how Patricia spins the next tale given the crazy circumstances of the newest 'mate' and the introduction of the new character(s).

SONS OF SANGUE is highly recommended to Paranormal Romance readers who like their heroes Alpha, their heroines able to hold their own yet willingly submit to the sexy bad boys, and plenty of MC territorial action and intrigue.

I loved Viper, but Ms. Rasey took it up a notch in Hawk which shocked me. I wasn't sure how she could do that, but she did. I wasn't a lover of Hawk, in fact I was mad at him lol. By the middle of this book I was completely in love with him and cheering "Go Hawk". Now, I will say I've claimed one of the Sons "Gypsy" as MINE, however, Ms. Rasey is going to have to redeem him in his book. I have complete faith she will do so beautifully. The woman is an absolutely wonderful writer, and truly amazes me. I thought there was no way I could love Hawks book more than Viper's, but now Viper has slipped past just barely. I look forward to the next book slipping past to take the #1 spot away from Hawk. Way to go Ms. Rasey, if there way a 10 star rating you'd totally get it <3

Hawk was even better than Viper. A must read!!!

Janet Rodman says

Vampires, motorcycles and romance, this book has it all. Patricia Rasey continues her Sons of Sanguie series with Hawk. Kaleb "Hawk" Tepes is now the leader of the Sons after his twin Viper steps down as president of the club and someone is trying to kill him. As Hawk and the other club members try to find out who and why someone is trying to kill him, Suzi, a donor, who has been in love with Hawk for a long time, now becomes a target of the killer as well.

I thought Viper was outstanding and couldn't put it down. Ms Rasey has out done herself with Hawk. This is one of the best vampire/MC books I have read all year. The plot and characters were so interesting. Just when you think you can take a breath, Ms Rasey throws in a surprise character that makes you say "Wow". I enjoyed this book so much, I look forward to reading it again. I can't wait for the next book in the series.

Kimberly Rocha~ Book Obsessed Chicks says

Utter turmoil in the land of the Sons of Sanguie. Kane is no longer MC president and he is off Lord knows

where with Cara. With the murder of two of their own, new president Kaleb needs to sort out who is responsible and quick. They all believe the evil Rosalee is behind it all with someone close aiding her in her efforts.

Devastated with the deaths of his brethren Kaleb is thrown for a loop when Suzi reappears after six months away. Suzi had to leave, there was no other choice for her. It was killing her inside watching Kaleb flaunt his fast ways in front of her.

After 10 years of fighting intense love/hate issues over Suzi, Kaleb is coming to the end of his tethers over this petite brunette who makes his blood boil.

Dealing with his animosity for her over the last decade was Suzi's cross to bear after her friend Ion's death. Kaleb's jealousy and anger over the apparent relationship Suzi shared with his nephew fueled his deep feelings but having her at close proximity is torture. Can he hold on to his hatred when all he wants to do is make love not war? Kaleb and all he holds dear to him are now on a hit list and only the Sons of Sanguine coming together, even with Kane and Cara, may give them a chance to come through. With a primordial vampire on the hunt keeping the MC family and dear ones becomes a matter of paramount importance for the Tepes brothers.

Hawk: Sons of Sanguine, by Patricia A. Rasey is intense from the get-go. Kaleb's roller-coaster of emotions leaves him open to the one thing he tries to avoid, a relationship with the only woman who has ever made him feel. In the first Sons of Sanguine book, VIPER, we were getting to know these sexy and intriguing vampires. Hawk is a whole new ball game and Patricia A. Rasey hits a home run with this story. Things are getting fierce with a rival MC club, the murderer who is still out there and even right under the Sons' noses in the nightclub that helps sustain their way of life. Each and every character has its own distinct and memorable personality, they're just begging for their own story. Patricia A. Rasey's fresh and exhilarating take on vampires is a must read. Readers will not be disappointed.

Short Review

Love this series! Takes my love for MC novels and mixes it with my love for paranormal romances and vampires and comes out with one heck of a story. Hawk is the second in this series and so far each book gets better and better. I can't wait for book 3. The Alpha vamps are everything you could want in a main character with their bad boy attitude and biker ways. The heroines are personable and not completely pushovers.

I would highly recommend this series gave it a 5 stars and a don't miss for all you MC fans and PNR fans...a must read.

Hawk is the second book in the Sons of Sanguine series and I truly enjoyed it. It picks up from where Viper left off and just keeps on rolling with some unbelievable surprises.

Kaleb "Hawk" Tepes is now the president of his MC after his brother Viper stepped down. It's not smooth

sailing for Hawk as president; there is still someone out to get the Sons of Sanguine or more specifically Hawk himself! Kaleb tries to focus on the person that is after him and his new responsibilities as President. As things get pretty intense for the Sons of Sanguine and he tries to navigate all the trouble rolling in Hawk makes the decision to bring Suzi Stevens deeper into his life, who he has a love/hate relationship with for the past ten years. He soon comes to realize that this might be the best place for her to be.

Suzi has been in love with Hawk for years and has had to stand on the sidelines watching him from afar while struggling with her feelings for him. When things turn ugly for Hawk and the Sons of Sanguine Suzi offers her help. But her help comes with a price; the reveal of secrets that can change the perception of someone close to Hawk. What happens when secrets are revealed and the truth finally comes out?

I loved Hawk from when he was introduced in Viper. He is the quintessential Alpha Male! He is a super-hot vampire that rides a bike. Can it get any better? I always felt that he was a little bit of a hard-ass but in his book he actually shows a softer side of course that only comes out with Suzi but it's great to see. As he finally comes to realize his feelings for Suzi hasn't changed in years he is forced to confront old jealousies that he has harbored for years. When Suzi was introduced in Viper I felt she was nothing more than an airhead blood donor. In Hawk Suzi really comes into her own, she is a complex character that finally gets her time to shine. She is extremely loyal and is willing to help Hawk out regardless of how he has treated her in the past and knowing that she might get hurt in the process. Together Hawk and Suzi generate some pretty heavy chemistry.

Hawk is one wild ride! It is well written with a really great story line...Vampires and MC, a great combination. Viper and all the other members of the Sons of Sanguine continue to be a huge part of the story and help create a wonderful cast of characters (what made me most happy was finding out what happened to Viper and Cara!). Hawk also delivers some OMG surprises that are making me crave the next book in the series. If you enjoy paranormal, MC or really any romance with a sexy alpha male and sweet heroine then Hawk is the book.

Stephanie Marshall says

After the sentence was handed down to Viper to step down as President after he broke the rules of the club, Hawk(Kaleb), Kane's twin, stepped up from Vice President to become President. This book starts approximately six months after Viper stepped down. After stepping down Kane and Cara disappeared and no one in the MC had known where they had gone, but knew after time they would come back.

Throughout this book we get to learn a lot more about the history between Hawk and Suzi. They have a love and hate relationship that goes both ways. Suzi has been a member of the donor society for the last ten years and had serviced many of the Sons of Sanguine during that time. But no matter how hard she tried, she could never forget about the connection she had with Hawk when she lost her virginity to him at the age of 18.

Hawk didn't see anything but hatred when he looked at Suzi, or at least that is what he would tell himself. He thought she was a 'cold-hearted bitch' that didn't deserve anything, which is what led him to take her on as his personal donor and she could service no one else. He saw this as a way to punish her and make her pay for the past. Hawk didn't know that by doing this he would not only torture her but himself as well.

After the first book I wasn't too sure how I could like Kaleb, since he seemed to be a playboy vampire who just used the women for his own needs and cared about no-one but himself. Throughout this book, I got to see not only a new side of him, but also some of the other brothers as well. This opened my eyes and

reminded me of the commitment and devotion that the MC members showed to each others and those they cared for.

This book has a lot of drama between not only the MC with the primordial's from Italy, namely Rosalie, but also with the Knights MC and whoever was trying to behead Hawk. The raw emotion and attraction between Hawk and Suzi drew me in and made me wish for a happy ending to occur among all the madness. The author does not disappoint in this book and I can't wait to see what will come next for the Son's of Sanguine MC in the next book.

Kim says

Well what can I say I liked the idea of vampires and bikers enough I went on with the second in the series hoping to like it more, well I liked it a little more. Of course that would probably have something to do with going ahead and skimming the annoying repetitive inner thoughts of both Kaleb and Suzi after realizing it was going to be like the first book.

I really didn't like either one of them for the entire first half of the book, so until about halfway I skipped whole pages unless it had something to do with the threat to the MC. By the second half I liked them both and liked them together but not enough to really care because it just took way too long to do this crazy thing....talking to each other.

I could have done without Cara's stupid little move in this one, I can see why the MC wouldn't have trusted her going back to her job and she proved them correct in that. Of course that was just swept under the rug for the time being.

Then there was Tamera in all her ignorance, poor Grayson. Yes he acted like an ass but in this case I totally don't blame him, she was just pathetic. First throwing herself at him then doing what she did, being a donor she knew better or at least should have.

The best thing about this one was once again the crap about Rosalee and then Vlad showing up. But that was left hanging as well so I didn't even get the satisfaction of finally seeing an end to her craziness. Needless to say with what happened with Tamera in this one I won't be continuing with this series. It has a great story line, the whole MC and vampires thing is great but I can't deal with so many dense females or the asshole males for over half the book, not to mention way too much inner dialogue to wade through. Honestly I can see why these guys don't want mates after the way the 3 have behaved so far....
