On Death's Wings Auburnimp

Fallen Angel meets fallen mortal.

Samael, Fallen Angel with the power of life and death discovers a young junkie being beaten in an alleyway. Ever the impulsive creature, he rescues Daniel from his pimp. From that moment Samael's life changes. But is it for the better or worse?

Daniel, addict and whore, knows his former 'employers' will come searching for him. What he's not suspecting is how useful being befriended by the Angel of Death will be.

Can Samael forget his former lover, the Angel Raphael while in the arms of a mere mortal? And what of Daniel, can he accept Samael for what he is?

Very interesting take on Sameal, the Angel of Death, who has spent thousands of years in pain over losing his love, the angel Rapheal. He comes across a whore being beaten to death by his pimp, and becomes enraged that someone else would try to make the decisions of life and death for him. He takes the whore, Daniel, home with him, in order to abuse the boy and make his pain take the place of Sameals. Somehow, however, it doesn't work that way. The story lures you in, and now I have to read the next one.

What the h*ll just happened?! Was this even a full book? It sure didn't feel like one.

Okay, so what was there was actually pretty interesting. But then it just stops! I feel like this was just a teaser for a full book. Nothing was solved emotionally. Samael is still acting like an *ss and stuck on Raphael - who he left 10,000 years ago! Daniel gets over a heroin addiction in ONE DAY. Nothing has been explained, other than Samael is a fallen angel. Samael and Daniel know nothing about each other outside of lust. And Daniel somehow manages to "fall in love" despite all that.

This book doesn't give them time to form a real relationship before it ends, and even the ending sounds like it's just setting up for the next chapters. The chapters that DON'T EXIST. Argh! If the author had just made it longer, 90% of my problems with this book would be gone.

Sorry for the rant, hope you enjoy this more than I did.

Hey All,

To get the best out of this series I suggest u read this series before The Angels & Demons series as it is the same characters, story and universe. If u read the A&D series first it will give away a lot about this series' characters as well as the story line and awesome convulsion.

I loved the story line, characters and almost everything in this "Fallen Angels " series.

4.5 stars for the whole series. In my opinion The only thing that would have made it better was if the books were longer, full length novels. I would have loved to be able to get even deeper into the characters. If it were I wouldn't hesitate to give 5/5.

Don't get me wrong we still got to know them well and it flowed seamlessly but I just would have loved more. I finished reading both series within 3 days and now I've come to the end just wishing there was more so I could keep reading the story.

This is a MM paranormal series with Mainly Angels in it as well as some demons to a much lesser extent. In this series the Demons are the enemies as well as a power hungry Archangel. Some great steamy s&@, and true love matches which were great and didn't take over the story line.

This series takes place millions of years after the Fallen Angels left heaven due to one power hungry Archangel Metatron. By doing this many were miserable from being separated from loved ones. This series is about reuniting loved ones and bringing balance to good and evil. We see lots of Samael (Angel of Death) , Raphael (Air Archangel,) Daniel, Lucifer (Morningstar), Nathaniel (the Creator) as well as the elemental Archangels and some lower angels.

All in all great series which I strong recommend if you enjoy mm paranormal fantasy or anything along those lines this is a great series for you.

If u enjoyed this series and want to know what happens next, move onto the "Angels and Demons" series as it take up strait after the awesome conclusion of this one. :)

Kind Regards

B

Samael is a fallen angel, the angel of death. He is not a forgivin person, someone who feels pity or is used to do good thing. But one night he sees a pimp beaten to death a young boy and decides he doesn't want that someone else take him the right on live or death on human. And so he kills the pimp and take the hustler home.

Daniel is a lost soul. He is so lost that when someone hold him an hand he takes it without esitation. Live or death is not so important for him now. But between pleasure and pain, Samael is gentle with him and he now wants to be with him forever, or at least for all of his mortal life.

The story is very short and I'm happy that, maybe, this is only a brief prequel to a more complex story. I have no really the chance to know well Daniel, and have only some hints on Samael: he is not like a knight in shining armour, he is a man a great hunger and easy to explode. Daniel is a simple boy with a awful life, but he has not the wounded soul of someone who has no reason to live more.

I will look forward to read more.

I enjoyed this one but wish it would have been a bit longer. Hopefully we learn more about these facinating characters as the series moves along.

An enjoyable little read, if a little formulaic. But hey - it worked well.

I'll probably pick up the rest of the series.

There's actually 8 books to this series and I whipped through them all in 2 days. Wow! But I'm only going to post a review to all 8 of 'em on this first book. Although Auburnimp could have put a little more fighting action into the stories as I'm a big reader on action packed reading, she still knocked my socks off.

The stories seemed almost so surreal that it could almost alter the beliefs in Heaven and Hell, God and Satan and all that nifty jazz we are preached about but not really listening to. At least I don't. But keep in mind that these stories are all fiction after all.

My own stories emanate around writing about Angels and Demons since it's my passion and there's not in my apt opinion enough stories out there about them. Who would have believed that Fallen Angels could love? Well, folks, in this series they can and they do passionately... even Lucifer. Shocker!

I admit and must confess I would like to read more of these.

Draw your own conclusions but do read them all.
