**One Good Cowboy** Delores Fossen

**The most honorable cowboy in Wrangler's Creek is about to get an offer he can't refuse...**

Carson Rowley expects Granger Ranch office manager Evie Martin to do any number of things when he breaks the news that her “on again, off again” boyfriend has eloped with a stripper. Cry, maybe. Curse, probably. Kiss him senseless? Nope...didn't predict that. Now that Evie's offering what he secretly craves, there's only one question: Just how bad should a good cowboy be?

Evie's nowhere near as heartbroken over her unreliable ex as everyone in Wrangler's Creek expects. Especially once it's clear that her long-simmering crush on Carson is mutual. Carson's not the casual type, and inviting him into her bed means inviting him into her heart. But once he's there, she may never want him to leave...

## **From Reader Review One Good Cowboy for online ebook**

### **Danielle Urban says**

One Good Cowboy by Delores Fossen is another hot read. This writer has a way of heating up the pages. Sexy cowboys with stubborn women and two match making moms. Things get wild and crazy. Hearts are on the line. Evie was engaged to Carson's brother who left to marry a stranger. Carson is left dealing with their mom and trying to help out Evie. Evie has always liked Carson a lot. But with their moms meddling and pressure, it's hard to get anyway. Now, after all hell has broken loose, Evie admits her attraction to Carson. Actually, she did a lot more than tell...Carson is the good cowboy. One kiss and Evie's words have him tighter than he'd like. He's attracted oh, right. But their situations are complicated. Can love enter the equation? One Good Cowboy is a short but well-developed tale. A hot chase with an emotional journey attached. I was intrigued. Exciting, fast-paced, and engaging. Overall, I recommend this book as a must have on readers' to do lists.

### **DJ Sakata says**

My Rating:

4.5

Favorite Quotes:

There was a cowboy lying on the bar of the Longhorn Saloon... A drunk who wore faded jeans, an unbuttoned denim shirt and scuff-toed cowboy boots, and had a pair of red lace panties partially covering his face. His last moments of consciousness had probably been exciting, to say the least.

Post-cancer awareness. I realized life's too short not to do what you want to do. I don't want to be Bennie's girl. I don't want to be anybody's girl... I want to be somebody's woman...

'Is that the stripper?' Ida asked, her mouth pinched so tight that it sort of resembled a cat's butt. Best not mention that comparison, though, to Ida.

My Review:

One Good Cowboy was a quick, amusing, and steamy little read that kept me pleasantly engaged, entertained, and smirking. Poor Evie, no one was listening to her or taking her seriously, it was as if the kidney c-a-n-c-e-r she had recovered from had taken off with her brain cells as her family and most of her

friends stop listening to her words and wanted to determine her future for her. Although, why they settled on the loser they had picked out for her was questionable to me, thankfully Evie had better sense than her parents. Evie had essentially given up trying to be heard, so instead, she decided action was better, so glad she finally took her shot.

### **Sharlene says**

Short, sweet and romantic novella.

---

### **Donna says**

Really enjoyed this one. Carson was a real sweetheart.

---

### **W. Johnson says**

#### **Funny Love Story**

The tangled web of Evie and Carson coming to the realization of their mutual love was FUNNY. Mix in crazy family members and it is worth reading.

### **Patti Hopper says**

#### **Good read**

Always satisfied with this Author's work. Love cowboy romance with a little angst and a whole lotto lovin. Really good read.....

---

### **Susan says**

Short, face paced and fun story. The story opens with the aftermath of a bachelor party, with good guy Carson passed out on the bar with a pair of red panties laying on him. Not what Evie expected to find when she stopped by her father's bar on the way to work. Even less did she expect to hear that her sort-of boyfriend had run off to Vegas with a stripper. Carson was cautious giving her the news, as he wasn't sure how she would take it. He certainly didn't expect her to smile, then haul off and kiss him.

Evie is sick and tired of everyone pushing her at Bennie. Their mothers had been doing it since they were kids, and nothing Evie says will convince them she isn't interested. She also hates the way everyone treats her with kid gloves just because she'd had cancer. She's well now and determined to live her life the way she wants to. And what she wants is Carson.

I completely understood Evie's frustration with the fact that nobody listens to what she says. I loved how she took action and made her interest in Carson known to him - and anyone else who would listen. Carson was stunned, but wary, as he thought maybe it was just reaction to what had happened. It was fun to see Evie's attempts at convincing him, and his final acceptance of the truth. The dinner that wasn't was terrific, and the heat between them was intense. The scene afterward, as Bennie, Gigi, and the two mothers converge on Evie's house had me laughing out loud. Bennie was a bit of an idiot, but I think Gigi will be the making of him. Seeing Carson and Evie try to get through to their mothers was hilarious as they finally saw the truth.

#### **Ok**

Was too short and confusing. Was ok but not one of her best works. While I have always enjoyed her books until now. This one was a disappointment.

---

### **Jane says**

Short story but sweet, didn't have much to do with the series, but I still enjoyed it.
