## Potterwookiee Obert Skye

The latest creature to emerge from Rob's closet is a cross between Chewbacca from Star Wars and Harry Potter. Rob names him "Potterwookiee" ("Hairy" for short) and soon Rob finds himself treading water as he tries to figure out how to care for his mixed-up friend. Great laughs and great books help Rob along the way.

## From Reader Review Potterwookiee for online ebook

### **Meredith Kostek says**

Great for the child ready to move on in chapter books from books like Diary of a Wimpy Kid. Funny, high interest, and a great way to find out more about some classic "creatures".

### **Debra says**

This book takes two wildly popular series, Harry Potter and Star Wars, and merges them into one tiny, smelly creature.

Robert has an unusual closet. Not only does it store all of the junk he stuffed into it, but it seems that an unused chemistry set combines with other stuff in there and spits out strange creature combinations. So is born, Potterwookiee, a combination of Harry Potter and Chewbacca, a smelly, hairy wookie looking creature with a Potter scarf and wand. And that is only the start to the problems, add bullies, an annoying big sister and little brother, a set of crazy friends, and the Flinger.

Great fun, great illustrations and the story just speeds along.

This is a lighthearted book about Robert Burnside who has a problem. His closet makes weird creatures. This book takes place after Wonkenstein. It is for younger Harry Potter and/or Star Wars fans. I overall liked this book a lot.

### **Cameron Smith says**

This book is really funny and I like that about it. at sometimes it could be plain. one of the best things about it is that it is very creative and it kind of reads like a diary of a wimpy kid book.

Genre: Fiction

Grade level: 4th

I have this book in my Favorites shelf because of the hilarity of it as well as the appeal of joining two very popular fandoms: Star Wars and Harry Potter. This book is written in the similar style of Diary of a Wimpy Kid or Dork Diaries- both of which are popular for the 4-6th graders. The story is the second installment of The Creature form my Closet where creatures emerge from Rob's closet, much to his dismay, to make his life more complicated than it already is.

I imagine students reading this book for fun for this book is perfect for catering to a student's imagination. The main character is relatable with his frustrations as well as we've all been scared of the monsters hiding in our closets so this story spins those monsters into something funny and not so scary after all. This is also a great challenge for students that are ready to take on chapter books as it does have chapters, yet they are broken up into illustrations and short paragraphs through out instead of just pages filled with words.

### **Martina says**

It was kind of entertaining and some of the jokes more so. But not sure if he can pull this gimmick off again and again and again (or how many more books there are supposed to be in this series).

### **Leanne Jones says**

My 8 year old enjoyed this book so much that he read the rest of it without me. I had to read the end alone because he didn't want to read it a second time during bedtime. Little jerk lol

### **Ms. Yingling says**

Rob's closet from Wonkenstein is back, and this time it has disgorged a smelly combination of Harry Potter and Chewbacca, which Rob calls Hairy. Apparently, a chemistry set left too long in the closet bonded in a weird and mystical way with some books stored there, helped along by a heavy new closet door with a creepy guy on the doorknob. Once again, the creature gets Rob in trouble as he and his friends go about their daily lives, which include a lot of annoying school bullies and annoying siblings. The parents are also kind of quirky. Rob tries to get onto a cooking show, which is disastrous, and Hairy helps out a little bit.

**Strengths:** This will never be on the shelf. I am amazed by the number of 6th graders who will ONLY read books with pictures. This limits their choices a lot, but this is at least something other than reading Wimpy Kid for the 47th time.

**Weaknesses:** Not my cup of tea. One of those guy things I don't understand.

### **Kara Cat says**

Ok. I need a breather... Ok I'm good. Now, THIS is what I call... \*drumroll\* THE BEST SERIES EVER! Really, I'm like, looking for a sequel for this book that features the famous Hairy outside of the series.. Wait, I'll be right back, just need to grab the next book...

### **Rob says**

Goofy fun. I like a good kid series that encourage further reading of other books. My 10 year old son loves this series too.

#### **Critique of The Creature From My Closet:Potterwookiee**

The Creature From My Closet:Potterwookiee by Obert Skye is a wonderful book. The closet of our bedrooms can be filled with monsters. In Rob's closet, it's a creature that looks like Harry Potter and Chewbacca. With all of the problems in Rob's life right now, the Potterwookiee just makes things harder for Rob. Rob goes to the library, tries to get the help of his "friends", and finds something could fix everything. The word choice for this book isn't precise, but for this book it's a good thing. The book is structured like a Big Nate book, and having precise word choice would ruin the book. For example, on page twelve, the author wrote "As soon as Wonk helped me solve my problem, he went back into the closet and disappeared". Having a more precise word such as vanished, would not fit this book at all. Keeping it casual is very good for this book. Also on page 173, the author wrote "I just stood there in shock". Like I stated previously, having a more precise word such as "awe" would not fit this book whatsoever.

The point of view of this story is also interesting as well. Rob is your stereotypical teenager. He hates a lot of things. His Dad, Mom, Brother, Sister, School. On pages two and three, Rob calls his sister "obnoxious", and he thinks that his Dad's a problem as he is "always happy". Seeing the world through his eyes makes the story more relatable to my life (Except that I don't hate everything, just a couple of things). It can also bring back memories of being a teenager if an older reader reads the book.

In the end, The Creature in My Closet:Potterwookiee is a great book to read. It's not a serious book such as the Hunger Games, it's just a fun book to read when you have nothing else to read at all. I would recommend

this book to anyone. It's not inappropriate at all, just a light hearted book. However, this book is part of a series. If you want to understand why all of this is happening, read the first book in the series, *Creature from My Closet: Wonkenstein*.

### **Ashley says**

Two multi-million dollar fandoms merge together in this hilarious, middle grade illustrated novel. The second in the *Creature From My Closet* chapter book series, *Potterwookiee* is great for fans of *Diary of a Wimpy Kid* and other similar illustrated novels.

After the *Potterwookiee* emerges from Rob's closet, the little guy ends up in a weird trance. To help him, Rob turns to the first Harry Potter book for the answer, illustrating that wisdom can be found in the pages of great books. Aside from helping his hybrid friend, Rob must also keep him safe from others and overcome the neighbourhood bully.

As a Potterhead and a fan of Star Wars, I really enjoyed this book. It's an easy, entertaining read for reluctant readers and is filled with hilarious illustrations to break up the text. Parents and educators can feel good about this clean, well-received, and most definitely fun read for middle grade readers.

Keep kids reading this summer with *Potterwookiee*!
