Rebellion Serena Grey

“Don’t you want this Sophie? Don't you want me to touch you? To make love to you, over and over again?” his lips make a trail from my neck to my shoulder. “Isn't it enough?”

David Preston came into Sophie's life and changed it in ways she could never have anticipated. Now the intensely sexy, exquisitely beautiful man is hers, or is he really?

Pam says

This book was given to me by the author in return for an honest review. I need part 3 like yesterday!! We learned a bit more about what David and Sophie's relationship was about but not enough to cure my curiosity. I love this story. The sex is hot. David is a total alpha male and Sophie his innocent victim. Love this series!!

Annie says

Received ARC in return for honest review.
Steamy, compelling and frustrating!

In book 1 we met Sophie who has had quite a tragic life. Her mother died during child birth and she has never known her father. Her very strict and old fashioned aunt raised her but even she passed away recently. Sophie is struggling with financial problems and her job at the local town gift shop looks uncertain so she is considering leaving and trying to set up life elsewhere.

Enter David. Gorgeous, rich, successful, charming stranger with a secretive side. He is passing the shop and steps in. Fireworks explode.

Their story here picks up the day after the wedding. 3 days after they first met. You do have to suspend belief for this part. However the quick marriage on his part is explained later on although I couldn't help but think he had taken advantage of Sophie and her innocence.

The couple constantly have sparks flying and they certainly share a very steamy romance (if you could call him romantic?) Sophie is ignored by David for the first few days of the marriage as he works and is left lonely. I really wanted to shake her and get her to stand up for herself but then when she does it doesn't really work out. It reminded me of when I first read 50 Shades and was torn between just enjoying the story and strangling Ana for not being stronger. However, I could excuse Sophie due to her upbringing.

What I did really enjoy is that we learn more about David and see glimpses of why he is the way he is. I described him as gorgeous, rich, successful, charming stranger with a secretive side. I could add hot in the bedroom, cold everywhere else.

Serena Grey can certainly write. Her story is descriptive and compelling and her characters are well thought out. David especially has the classic layers that are peeled away gradually and constantly leave you wanting to know more.

I'm looking forward to the next in the series. The teaser at the end has certainly grabbed me as you can see that more of David is going to be revealed.

Francis says

"It's as if I've stepped off the edge of a cliff, and even though my heart's in my mouth and my stomach is in knots, I'm the most excited I've ever been in my life. I'm totally enthralled by him. I want him, every part of him, and I desperately want him to feel the same way about me."

Serena has done it again!

We learn so much more about David in this second installment of this series, and I can say I'm a little taken aback because I...ugh I want him to love Sophie so badddddd!!!! It seems that poor Sophie goes from ecstatically happy to on the verge of tears from one page to the next but it keeps me so enthused and turning the page to find out what happens next and how it'll be fixed or if it can even be fixed.

Sophie loves David but he's just so damn stone cold...his demeanor..is so difficult. I know deep down inside he has to feel **SOMETHING** for her. I just know it, I don't care what anyone else says...I'm sticking to it!! (lol) She is willing to show him just how much she loves him and she believes that by giving herself to him that this is the only way..but she's not sure of his feelings and intentions at all, and I believe that is what frightens her the most.

OMG. The teaser for the third and last installment in the series *Claim*. Has me super impatient for the book. I cannot, I repeat, cannot wait to get into David's brain. I need to know what all he's doing and if his intentions really are...in the end...backed by love.

Didi says

Again, a very quick read that sucked me in only to finish abruptly. I'm turning, turning then it's OVER so fast!

The 2nd instalment in this series was better than the first. It captured me from the first page and by the last I was weeping for Sophie. Although she's eighteen, she comes across as mature for her age, but that I'm sure, has everything to do with her circumstances growing up.

Sophie finally develops a backbone when it really counts but I couldn't help empathizing with what she went through. Yes, she's naive and so full of hopeful love but she's authentic and honest with her feelings and expectations. Her dreams are shattered by David immensely, and I was rooting for her.

I have many questions of course concerning David. Why did he do what he did with Sophie? Is there an ulterior motive? Is he using her? And if so, for what purpose? What's the real story with that bitch Carole? So many questions! It doesn't help that David is so mysterious but I have my theories about him.

We get a teaser of the 3rd novella and it's in his POV. It gives us a glimpse of the possible way he actually feels about Sophie and what his life was like as a child. I honestly think he cares about her greatly but for reasons not yet revealed, he is trying to remain emotionally unavailable.

This was very quick and to the point but I'm realizing I like that. The writing is good and the story flows very

well. There's no filler--just the goods. And despite the similarities to FSoG, there was enough here to distinguish itself. Really looking forward to the next instalment!

GENRE: Contemporary romance

STEAM: High

POV: 1st person, Sophie

CLIFFY: Yes!!!! Bad move David! **grrrr!**

Tammy Bland says

Received this book for an honest review.

David and Sophie pick up after the wedding and on the way to his/their home in Seattle. Sophie had doubts as would anyone that marries after knowing someone for roughly 24-48 hours. After arriving in Seattle David goes about his life as if he is still single with no thought or care as to what a "married" life with a partner should be like. He is distant and doesn't see the needs or wants that Sophie desires. Sophie is naïve and thinking that she found her Prince Charming and they will live Happily Ever After. Not the case. This is the real world. Real issues. More issues because you don't know the person you married.

After discovering that anyone that comes into contact with Sophie must sign a NDA, her insecurities begin to show. Why would David keep her a secret ? Why did he want to marry her ? All these questions and more begin to take root. When an unexpected encounter with David's mother occurs, David is furious and demands his mother leave. What Sophie didn't understand was his mother mentioning Carole. Sophie finds out that David and Carole has had a "relationship" that has spanned several years.

At a fund raiser, Carole confronts Sophie in the bathroom and her claws come out. Making Sophie even more insecure because she realizes what Carole was spitting at her are her same thoughts. When she tries to find David, she gets David and Carole lip locked. Sophie leaves in a cab and begins to pack and leave. When David gets home a confrontation takes place.

“Don’t mistake what we have” he says, his voice like cold water on my skin, “and don’t underestimate it either. What love. Did you fall in love with some stranger you hardly knew Sophie, just because he asked you out to dinner. Get real sweetheart, this has always been about sex.”

“I hope I never have to see you again. Carole was right about you, you use people, and when you’re done with them you toss them away like rubbish, you’re not worthy of my love.”

And so we wait for another book.....

I would give this book 3.5 stars. I have a hard time relating to the characters in the story. Too much is still left unspoken to get to know the characters. David has a dark side but too what extent ? What was the purpose for the marriage ? Sophie needs to grow up and grow up fast. She bit off more than she can chew and needs to put her big girl panties and deal with life.

I also think there is too many editorial mistakes.

I will continue to read this series to see where the author goes from here and hopefully will be able to get to know the characters better.

~ Becs ~ says

"You're an aphrodisiac." He murmurs in my ear, his voice husky. "I want you every minute,"

Part two of The Dangerous Man series and we pick up exactly where we left off at the end of Awakening. Super rich David Preston has married innocent little Sophie and is now whisking her off to his penthouse in Seattle and a life of luxury beyond her wildest dreams.

I got a really strong feeling when I was reading Awakening that all was not as it seemed and my fears appear to be grounded after reading Rebellion. David is being economical at best with the truth where Sophie is concerned and she's rightfully worried and a little bit afraid of what the future holds. She has no doubt that she's in love with David but she has no idea how he feels about her. Yes, the sex is great but does it go any deeper than that for him?

Sophie is like a true innocent walking into the lion's den with no protection – she appears to be a pawn in a far bigger game. She's a sweetheart but incredibly naive and David is a Goliath – a man who's power and control seemingly knows no bounds. In fact, I liked him a lot less in this one. I really wanted him to love her, to show some kind of emotion towards her but he just seems to want to possess her and I fear for her.

"I wanted you the moment I saw you standing outside that little shop in that small town, looking so lost and alone. I wanted your innocence, your beauty," he leans over and drops a soft kiss on the sensitive corner of my lips, "I wanted your body Sophie, I wanted to see your face when I make you scream my name."

His words set a desperate fire to my blood. I lean into him, hungry for him. When it comes to this, I can't fight him. I make one last attempt. "You didn't have to marry me," I whisper, "You already had me."

"And then I wanted no one else to ever have the pleasure. Understand that Sophie," He says, moments before his mouth descends on mine in a scorching kiss. "You are mine."

There's a pretty big cliffy at the end of this one. I did enjoy it and it's very sexy and, when David is in a good mood, I like him a lot but, as always with these erotic e-series, I'm left wanting more, to have the plot fleshed out and to get to know the characters a little better.

3.5 stars

Crissy says

“Rebellion” was an absolute hott and exciting read. It picks up right where Awakening left off. David and Sophie are married and Sophie is definitely in marital bliss until she realizes that she doesn’t get to spend as much time with David as she would like. A woman by the name of Carole Banks seems to pop up in a few conversations Sophie hears but she has no idea who Carole is. Is David trying to keep Sophie as a secret? Sophie soon realizes that things between her and David may never be the way she wants them. Carole is a part of David’s past but is she still a part of his future or is Carole seeking revenge? Sophie has to make a decision that she never thought she would have to make so soon. Have David really married her for love or did he marry her or does he have an ulterior motive. “Rebellion” is a short, steamy read but it is sooo good. I swear this series just gets better and better; I wish it wasn't so short because I wanted more. I cannot wait to read the next book in the series. I highly recommend this book to anyone who is looking for a good quick read filled with sex, suspense, mystery and revenge.

Heather andrews says

To say that Sophie and David have a normal relationship is really not saying much they meet, get married and this all happens within a three day time span (This is not a spoiler as it happened in book one.) David likes to make a lot of hot promises and I have to say I'm really liking that, "I'm going to make love to you until your voice is hoarse from screaming my name." You know then there were times that David I thought was kind of an a** not even a damn honeymoon and the girl only asks a question just to get her head ripped off, "Sophie, maybe in you imagination being married means spending every single moment together, but real life isn't a fantasy, I have a business to run." Sophie has a temper on her and she's not afraid to use it, "didn't you make the beauty team, the personal shopper, every person I've spoken to in all the days you've kept my hidden in this apartment sign a document to prevent them for saying anything to anyone about me?" And of course we're left again with a cliffhanger, which leaves me wondering how many books will be in this series?

Alp says

Argh! With that ending, how can I write this review properly when all I want to do right now is dive into the next book!

In short, this second installment was better than the first one. Sometimes ~~stupid~~ cheesy drama simply hits the spot for me, and in this case, it really did! I enjoyed the drama in this story a lot despite both David and Sophie’s apparent overreactions. In this book, Sophie acted a bit childish at times, but hey, she's eighteen! Well, I can make an exception for her since David wasn’t acting any more mature than her though he was already twenty-seven. I got frustrated with him when he never answered any questions she asked.

Ok, I really need to know what will happen next. So, off to the third one!

Austlyn says

"I cannot wait ladies, I have seen an arc preview and OMG!!! Serena I need you to write faster!!!!!! Pretty, Pretty please!!!"

Serena did not disappoint, this book was every bit as good as the first one! My only complaint is it ended too soon! :(

I NEED more now!!!!!!!;

Christine Wallflower & Dark Romance Junkie says

2.5 Stars

I have a feeling this is going to be a serial. This was also quite short, I was left wanting to know what would happen next. A little more light was shed on why David did the things he did in Awakening.

I think I'd prefer it, if this was a complete book. I need to know more about David! This novella wasn't bad, but it wasn't great, it was over in the blink of an eye, which is a bit frustrating.

Copy kindly provided by author in return for an honest review

Candace says

This series continues to move along at a blinding speed, but there are a few more tidbits provided about the characters that keeps me tuned in. I actually wish these two would quit having sex and just talk! They are still virtually strangers, even married, and the only thing that doesn't seem to be a secret between the two is the sexual chemistry they have together.

There are some pretty big issues brewing in this serial, but it was hard for me to feel much emotion, one way or the other, because I don't know much of anything about David or Sophie. Toward the end of this book, David seems to have been exposed as the jerk I originally thought he was. Then, the epilogue shows a different side of him and again, I'm questioning his motives.

I also really wanted Sophie to grow a spine when they argued. Instead, in the midst of a huge argument, he touches her and without getting any answers, she hops into bed with him! I definitely had some eye rolling moments toward the end of this one. I love a good, steamy romp as much as the next reader, but anticipation is key.

More character development is needed still, but I'm going to stick it out because I want to know exactly what

David's intentions were/are. I learned more about him in the epilogue, than in the rest of books 1&2 combined. Hopefully, more time will be spent on any aspect of this story other than the sex.

Jamie says

Book 2 was definitely better....on to book 3. Full review at end of series

Novel Grounds says

Just like the first, this was a very quick and thoroughly enjoyable read. I love the fact that with this series we get epic little by little. It builds the story and even with the small novel you get a ton of storyline.

This book was quite short but we got to know David and a little more. His reasons for the marriage, and his true feelings toward Sophie.

Life was bliss for a short period. Then, reality settled in. Sophie is slowly opening her eyes to what her life may turn out to be. But at the same time David is opening his eyes and seeing the fact that he needs to work to make his marriage work.

This book is a slightly super bumpy roller coaster, but its an interesting one. I am looking forward to reading the next installment.

Mary says

And the plot thickens.

In this sequel to A Dangerous Man, there were answers but there were also more questions towards the end. We get to see more of David's soft side towards Sophie but you just know that he's a man covered in layers and layers of secrets. And of course, the drama ensues. I like how Sophie is slowly coming into her own in this one and actually having the wits and guts to question things happening around her.

But what I loved most about it was that despite its shortness and a cliffy ending, I didn't feel that the story was incomplete. It just left me wanting for more.
