Meet Jacobi, Jamari, and Joriah, three brothers closer than you can ever imagine brothers being. They share a home, which is the host of many late night wild parties where they go by their own rules.

Jacobi, being the oldest and most level headed of the three, is ready to part ways, find a woman, and have kids.

Jamari, on the other hand, is wild, loud, sexy, with a reckless mouth, and doesn't really give a damn who doesn't like it!

Joriah is just living the life following in the footsteps of his big brother Jamari.

They were raised by two loving parents who showered them with anything they wanted, but were able to do so with drug money. Bonnie & Clyde, as they were affectionately called by the boys, were two of the biggest distributors in the south until they were tragically murdered. The last person to have contact with them was their right hand, Rick, who's not able to answer questions as to what happened that fateful night.

But their parents had a secret, something that they thought would never get out, but it did, and was the reason that they were killed. How will the brothers feel when they find out about the secret that their parents kept from them all those years?

The brothers are outraged and want answers now! Unfortunately, Rick isn't helping and is beginning to seem like their number one suspect.

In the midst of everything going on, they each meet three beautiful young ladies who turn their worlds upside down, while helping them at the same time during their time of mourning over their parents.

**She did it again!!**

Damn this book was good! I couldn't put it down! Jamari is a damn fool lol no filter at all! I'm loving Jacobi and how he fell for Luna! Shanard and Jose have to go can't wait for part 2

---

**Felicia says**

**Damn**

Luna ass pissing me off like did she go get checked out after Jose ass raped her all them times? Y didn't she tell her parents what he did?? Like what about her sister that he killed and went and hid the body like wtf she chilling like shit ain't going on

**Crazy twists**

Quick read with crazy twists. Could have been a bit longer and a few of the characters could've been developed a bit more. The relationships with the lady's could've been more indepth instead of the insta-love, but overall a good start to this series.

**Judi Tibbitts says**

**Fantastic**

I suspected that connection mid book, definitely a good read and was captivated from page one, the ending kinda left me like okay then but very much so anticipating the next part

**Funny good**

I laughed this whole book. Jacobi, Jamari, and Joriah are all close that they live together. With parents who ran the streets they ain't no stranger to living good. With their parents sudden murder their out for blood. Jacobi is the oldest and level headed but meeting Luna has him blinded by lust. Jamari is the clown and nonsense brother but he rides for his brothers. Joriah is the baby and he meets Zali who sparks something in him. Secrets are being shed and when Zali and Joriah end up in the hospital everything comes out.

**First Read!**

This was my first read by Ro Monique but it definitely will not be my last! The drama. The twist. The turns. It's exactly what urban is supposed to be about. No just drugs. Not just thugs. But a storyline that pulls you in and does not let you go! This book is the DEFINITION of urban to me. Amazing Job!

**Brittney says****Good read**

I didn't think I would enjoy this story but the truth is I could not put it down, loved Jamari !!!!!

---

**Bookbabe says****Okkk**

Ms. Ro Monique has peaked my interest with this series Jamari is funny as he'll crazy as he'll. Lol and I love it on to part 2 ..

---

**Taz Will says**

This one needed help, its fast paced but to the point where you can't get into the story because everything is happening in a blur. The relationships develop over a couple sentences and next thing you know their head over heels for each other.

---

**Denetta Banks says**

Well written story with a nice flow. Great characters that will have you laughing, screaming and loving them. The author has done a great job bringing together a great story that leaves you wanting more.

---

**Tonia says****Secrets**

I loved the 3 brother's in this story. Jacobi the responsible one , Jamari is the protector and Joriah is the sensible one. Luna need to step up her game and get rid of her husband. Piper is the right fit for Jamari. Zaii is a sweet girl for Joriah. Nard needs to go.
