Saved In The City Jacquelin Thomas

Twenty-one-year-old Patterson Haney has always dreamed of leaving her small Georgia town, moving to New York City and becoming a model. She's been blessed with the looks and the spirit to succeed, and she knows that God will guide her every step in the competitive profession. But when she meets smooth-talking, gorgeous Miller Baisden, it's her personal life that poses the greatest challenge: Patterson is torn between the powerful attraction Miller awakens in her, and her desire to maintain her morals.

Pampered native New Yorker Macy Baldwin has taken a lot for granted, including her wealthy parents' financial support—until they cut her off for flunking out of college. Pretty and fashionable, Macy decides to pursue modeling. If things don't work out, she can always fall back on her plan of finding a rich husband. And when she discovers that a handsome, widowed stockbroker needs a nanny for his little girl, Macy is sure her erratic prayers have been answered. But when she finds herself actually *working* for a living, she realizes God works in mysterious ways....

Born with the striking features and statuesque height of a true Nubian queen, social worker LaRue Arnette has often been mistaken for a model. But when she surprises her Baptist minister father and devout mother by quitting her job and leaving California to give modeling a try, she can't help but wonder—is she fleeing from her true calling? A certain tenderhearted reverend may be the one to lead her to the answer that's always been in her heart.

Brandi says

I really enjoyed this book! I love stories of friendship and faith. The women reminded me of myself and my girlfriends. The author did a great job conveying their individual stories and bringing them together. This book increased my faith and encouraged me to stay faithful to the Lord.

Shanika says

i have had this book for over a year, but I cannot get past the third chapter. Can anyone tell me if it gets better as i read on?

Anner says

This a re-read. I enjoyed it just a much as I did the first time. Great read.

I loved it. Three women from different states, and walks of life. Then in steps God and he puts his plan in motion. The way Patterson and LaRue took Macy as she was and showed her how she could be if she would let God change her. They each found everything they were looking for, the only difference was that they let Gods will be done. They weren't perfect just children of God looking for what was right there along. God even took there talents that he had blessed them with and allowed them to use them instead of what others said. Macy's role was the most challenging one. She knew nothing about God's goodness but was willing to change to obtain his love and peace. Grace and mercy overflowing.

ONE OF MY FAVVVVVVVVVVORITE!

Sandra Menefee says

How unlikely - 3 black women from three different backgrounds together in New York City. Those three backgrounds is unique for a reason. Each possesses what the other does not from how to get along in the big city to leading each other to Christ. They were what the other needed. From gaining spiritual insight, trusting God and living how God intended us to live. They each had an effect on each other and in the end despite being complete strangers, they became true friends.

OOSA says

Thank You For Being My Friend

Once upon a time there were three girls...

Macy is a native of NYC. She's a spoiled brat and after getting in some trouble her parents decide that it's time for her to make it on her own.

Patterson is a Georgian and a strict Christian. She'll meet obstacle after obstacle as she tries to adapt to big city living.

LaRue is a Californian who's harboring a lot of hurt. Though she's been told that she looks like a model, it's late in her life that she decides to make a go for it without following God.

I found this book to be a very good read because not only was it refreshing, but it was also very inspirational. Three strangers with a common goal develop into friends.

Really enjoyed this by the time I got to the end.

Shannan Harper says

A story of 3 women who end up becoming friends after meeting at a model open call, while navigating life in the big city and trying to keep their salvation intact. A good read

Shalawn says

Very good christian-based book!
