M.N. You had me at The!

The Lies Between Us is epically good.

Lip is the kind of alpha male we all wish we could have in our book boyfriends and who the hell am I kidding in real life as well. Lip walks the fine line of asshole and romantic gentlemen that he will leave you swooning. His family outside of the MC makes you realize why he's the kind of man he is and why he does the things he has to do. Granted, when the truth comes out about his actions, you will be seeing red and will feed the need to kick him in the nads. You'll be sexually frustrated with this man, ladies. Just prepare yourself now!

Cherry on the other hand is a completely different story. Girl, you needed a better set of friends growing up and maybe your life would have been a bit easier to swallow. The situations she faces from her horrific family life and background will leave you a sobbing mess. The one thing that means the most to her in her life is ripped away and a target is soon painted on her back. Cherry has no place to turn and living on the streets becomes more dangerous by the damn. A chance meeting with a tattooed biker sets her off on a whirlwind adventure that is now her life. She has secrets that she's not ready to reveal yet but then again, she's living in a MC. Secrets have one hell of a way of coming out eventually and when hers is revealed, shit hit the fan for her and for Lip.

All in all, The Lies Between Us is another great addition to The Devil's Dust series. Lip and Cherry's story gives you an entirely different side of the MC life when it comes to being a prospect to the club. Both of their secrets adds just the right amount of angst and turmoil to the story that you'll never find yourself being bored. Passion runs rampant and secrets cut deep in this thrilling tale. Forgy does throw a bit of a monkey wrench into the series with an announcement oh so secretly placed at the end of the book. I nearly cried when I read it, but rest assured... it's a very good announcement.

This story played with my emotions so bad that I need a cigarette. I don't even smoke but I need a cigarette right now! The story was definitely full of secrets and lies. Lip and Cherry's relationship was a minefield full of them. The reader knows that something isn't quite right with Lip after his release from prison although we are fully made aware of Cherry's secret from the very beginning (even though Lip has no knowledge of it). But oh man! When the secrets were revealed they definitely flew from the pages hard and fast. Forgy is really great with doing grand reveals in that matter. Just as you are processing one secret, another one is revealed, and then another one. I couldn't catch my breath and it was awesome! I cannot wait to read about Zeek and Lip's Battle Royale. Readers of Reign will know that that confrontation is coming sooner rather than later and it will be magnificent!

### 4.5 *Loyalty v Betrayal* Stars

It has been a year and a half since I read the third book in this series, it was so good being back in the lives of the Devils Dust MC members. I was surprised how easily I was able to slip back into their world. We get to see a different side to some of the characters, some good and some not so good.

The book starts 8 years in the past when Lindsey is at a party celebrating her brother becoming a DJ. She meets up with a jock who she always liked from high school and her life changes forever.

What happens to Lindsey at the start of this book is my worst nightmare, it had me leaking tears which never happens. (~~well very rarely~~)

Lindsey finds herself shit out of luck with nowhere to go, deceiving people just to get by. When she meets Lip who is a prospect for the Devils Dust MC, its instant chemistry although the last thing Lindsey needs is

another bad boy. Lip gives Lindsey the nickname Cherry because of the bikini she had on when they met.

What I can not get my head around is that for four years Cherry does not tell anyone about her past. If it was me I would be fighting everyday for that part of me regardless of the danger I would not even have to think about it. That was my only problem with this book.

That **TWIST** OMG!!!! It was so full on I just can not describe. I was gutted for Cherry. I am bummed I can not go into it further but its just one of those things you have to read yourself.

This is a story is about finding your place in life, loyalty and overcoming betrayal.

If you have not introduced yourself to the Devils Dust MC yet and like a good MC read you should give this series a go. @ time of review #1 in this series is free on Amazon :)

## Jessica Viteri says

HO-LY SHIT!

Be right back.

Gathering myself over here.

\*\*\*\*\*

(This may be a little spoilery...)

*“This is the real me. Do you still love me now? Do you still want my affection? Huh!? I am easily angered. I’m a hotheaded, and am more fucked-up than anyone you’ll ever know.”*

*“Yes. Yes, I still love you, Lip.”*

*“What?”*

*“It’s going to take a lot more than you being a shade darker than gray for me not to love you. You’re right, I don’t know you. You’ve proven that, but you don’t know me, either. You being rough around the edges doesn’t frighten me, not at all.”*

Moment of honesty: I went into this book thinking 'Okay. No biggie on this one. I was eh about Cherry and Lip. They were background characters to me. I am ALL about Jessica and Bobby's story. Nothing can top them.'

It's 330am on a "school night", my eyes are twitching, but my heart is excited. Want to know why? Because I just ate my words. I went into this book not thinking anything of it and came out completely, utterly and holy shit! in love not only with the story, but with the characters themselves. Lip MAY have just bumped out Bobby as my top guy. Or maybe they are at a battling tie. But nothing, NOTHING compares to how much I fell in love with Cherry.

CHERRY! Cherry is now my new BFF! truly a strong, sassy, and fierce female lead. And it is RARE when I can find a female lead that doesn't irritate me. So many heroines are whiny and makes me want to throttle them. But Cherry was absolutely amazing. She is what all heroines should be like. Although she had Lip by her side, she was still strong enough to stand on her own two feet and do what she had to do, however hard it was for her. She was a proud woman, though. She learned, as did I, that sometimes it's okay to ask for help and that there are good people out there to lend you that hand.

I am beyond thrilled and excited with this MC book series. These characters and stories have gotten better and better with each one. The Devil's Dust has become some of my most favorite MC books EVER! The characters and their journey have become part of me. A job fantastically well done, Ms. Forgy!

Now, about those kids...I think there may be a little bit of a love triangle there. Yes? No? Maybe? I see a lot of biker bad ass dads getting into brawls because of the chaos of their kids. And I especially see the girls' daddies getting their shot guns and bringing out their overprotective selves. Nothing screams ALPHA MALE like a daughter's dad.

Time. Will. Tell.

But first, we have Sin City Outlaws. Who are they? Read the book and find out the craziness that went down. And what is about to happen.....

**Favorite quotes:**

*“Dishonesty condemns you, sinning betrays you.”*

*“What the fuck does that mean?”*

*“It means dishonesty often looks like the simplest route, getting you out of the path of trouble. However, that simplicity is a façade, ‘cause it eventually comes back to bite you in the ass, making you tell lies to cover yourself. Before you know it, your sins have not only betrayed you but condemned you. I never knew how true those words were ‘til recently.”*

Awesome MC read!!! Lip & Cherry took me on a wild ride!

Cherry is trying to win her life back. One night changed her life forever. Now, the only thing that she needs is taken away from her. Homeless, she finds safety in the arms of Lip. He is a member of a motorcycle club. He is rough. He is dangerous but he wants to help her. Their affair is fast paced. The attraction strong. Both have secrets though. Secrets that will destroy them.

When everything is revealed, will they ever be able to forgive each other?

This was a very unique take on bikers. The author handled the storyline very well and the characters came to life vividly through her writing. Great work. Quite an emotional book and interesting twists. Do not miss this.

**4 Stars from me.**

? I received an ARC via TRSOR PR in exchange for an honest review. Thank you!! ?

We all remember Lip and Cherry from the previous Devil’s Dust series. Cherry, the spirited redhead that Dani befriends and fellow ol’ lady. And Lip, Cherry’s enigmatic biker man serving time in jail until now...

*The Lies Between Us* paint us a portrait of how these two got together and the jumps they face after Lip is released from prison.

**Lindsay “Cherry” Cole** hasn’t had an easy life.

Growing up in a trailer park with an abusive father and no prospects, it has always been Cherry against the world. Living out of her car and shit out of luck, Cherry’s life is at a crossroads. That is, until, one fateful day, when pick pocketing a handsome, cocky, tattooed **AND** pierced biker hottie, her world is turned upside down and she meets her savior and biggest heartbreak of all in the form of “the Devil in a mask of a saint.”

Will she be able to confess her deepest and most revealing disclosure that will strip down everything that she is and is trying to protect?

Can she ever adjust to the ways and life of the Devil's Dust MC? Or will it be too much for her to handle?

**Phillip "Lip" DeLuca** is no stranger to the MC world.

Having been around it all of his life, he is no stranger to violence and chaos and would do anything to prove his worth to the DD MC. He is hot-tempered, foul mouthed, and lives by his own rules.

He meets our feisty heroine while thinking she is stranded on the side of the road and is instantly transfixed by her gall, her beauty, and her unbidden strength.

From there, they embark on a passionate, illicit affair, but, that is put to a halt when Lip is taken the fall for the club and is imprisoned for six years.

As you can imagine, six years in jail changes a man, and with his and Cherry's relationship falling apart at the seams and a tumultuous secret that could set forth a cataclysmic chain of events, hence ruining everything he has built thus far... how far is he willing to lay his life on the line for the club and safeguard the woman he promised to keep from harm? Or will loyalty and duty to what he pledged come in the way of everything he's worked for, take away the one person who could bring him happiness and bring him salvation?

As for Cherry. When echoes of Cherry's and Lip's past come back to haunt the both of them and demand blood and retribution from the Devil's Dust MC, how will everything pan out when hard truths, lies, and resentment are exposed and matters of the heart are now added into the mix?

#A gritty, sexy, and powerfully raw and unprecedented fourth addition to the DD Series!! I've been waiting and waiting for Lip and Cherry's story to come about, and when I saw that MN Forgy was indeed in the works of writing it, I couldn't help but stop and do a victory dance! I was so elated with happiness and anticipation!! And also, so, so relieved that it did not disappoint in the end!

What's always stood out for me about the Devil's Dust MC was the underlying themes of love, brotherhood, honor, devotion, and sacrifice each plot and individual character brings into the picture. You can't help but get attached and develop a sense of hope and camaraderie to them and their strong, essential qualities that they leak out of the pages (or for most of you, your e-readers) and how they stay with you until the end.

Can't wait to see what's next and in store for this series and whatever Ms. Forgy decides to write next!! Thanks so much for this review opportunity!!

### Secrets. Lies. Pain

**M.N. Forgy** once again manages to send out a powerful message that will surely stick with you for a long time. **Lip and Cherry** are two completely different people whom are brought together by lies. Their story couldn't be more raw, making the heartache and hurt more real.

We recall **Lip and Cherry** from the previous *Devil's Dust* books. **Cherry** is the *sweet, crazy, and fiery* red head whose a ball buster and a fiercely loyal ol'lady. When we first meet her we discover her man is in prison serving time until now when **Lip** is finally released.

*The Lies Between Us* sets us up 6 years in the past to the present and we witness how these two met and how things aren't what they seem.

*"Something you should know about me, babe: I'm a rule-breaker"*

**Philip "Lip" DeLuca** is a sexy Italian with the charm and the swagger. He's a man who follows his own path and doesn't live by anyone's expectations. The MC is all he's ever known and where he found the true meaning of family. At first we see he's *sweet* and a complete gentleman but underneath hides a **darkness** that shows his hot temper, crass, and brooding side.

*"This is the life I long for. Guns, drugs, and violence, but most of all respect. I do what I love and I get respect in the end. This is the only life I know. I'm a sinner. A Devil at heart."*

**Lindsay "Cherry" Cole**, you can say is a bit naïve in the beginning and when she meets **Lip** and befalls into his world, she becomes this **feisty, bad ass bitch** who will kill for the club. Her soul darkens a bit. She's a woman whose had a hard life and certain circumstances or maybe even fate brings her to **Lip**.

*"My lips suddenly ache with the urge to be tasted by him, to see if he tastes as dangerous as he looks. My gaze trails from his dark eyes to his lips. I bet he tastes like sex and sin. "*

**Lip's** time in jail changes him and bits and pieces of his true self are revealed, but that never mattered because through it all **Cherry** manages to fall in love with **Lip's** many shades of gray.

*"It's going to take a lot more than you being a shade darker than gray for me not to love you."*

Soon truths are revealed and **M.N. Forgy** hits us with this mother of a twist that will knock you off your feet and everything you thought you knew was a **LIE**.

*"I know in my head I should give you up, walk away. But my heart wants you, and I can't for the life of me turn my back on you."*

Can these two **lost souls** forgive one another and get a second chance to mend their errors?

This book was **raw, sexy, intense** and a great 4th installment to the series. **M.N. Forgy** will have you loving her characters so much more and I couldn't be more happy to have had the opportunity to read **Lip and Cherry's** story. I can't wait for more of the realness, intensity, shock value, and adventures that **M.N. Forgy** brings with her writing.

## **Rebecca says**

M.N. Forgy has done a great job throughout her Motorcycle Club series of creating complicated storylines and characters who are nothing like the action and hero/heroines in the other books; this allows readers to get a first-hand look into the different types of people and ways of life that are attracted by the biker scene.

Both Cherry and Lip understand what it means to go it alone because their pasts forced them to grow up quickly and be conscience of who has your back and who's looking to make you fall. The first time Lindsay (Cherry) puts her trust in someone else, she winds up running for her life and more fragile and alone than she's ever been.

I liked Cherry from the beginning because regardless of how shitty her circumstances got and how heartbroken she became, she kept fighting, not allowing herself to succumb to the pain or depression. She definitely wasn't expecting Lip to turn her world upside down and become a biker bitch; in fact, she vowed to stay away from bad boys because her brother always told her that they're nothing but assholes who will hurt her in the end, and while that's exactly what Lip does to Cherry in a twist that readers won't see coming, Lip also gives her a biker family – people who have her back at all times.

Lip was quite the puzzling man – his hot and cold persona didn't sit right by me and the way he treated Cherry before prison and after pointed to the fact that readers and Cherry weren't privy to the man Lip truly was. As the lies surface, though, the pieces start to fall in place, and while I understand Lip's actions due to his responsibilities to the club, the way he handled everything made me want to throttle him.

Cherry and Lip's story is a land mine of lies, secrets, and dysfunction, but it's also a text that illustrates that family is a whole lot more than blood and second chances are worth it if the lesson is learned. Nothing's easy when it comes to living the biker lifestyle, but if you can hang on long enough to enjoy the ride, the brotherhood of the club and a good woman on the back of your bike is worth the dark and dangerous times.

The Lies Between Us is book 4 in the Devil's Dust series and I honestly wasn't sure what to expect with this book, so I put off reading it for a long time. I knew I liked Cherry from the series but I really didn't know Lip since he was in prison for 6 years. It turns out that this book is my favorite of the series so far, I loved it from beginning to end. Cherry's story broke my heart and I understood her reasons for keeping her secret from Lip. Now Lip's secrets were such a betrayal I was so upset for Cherry I honestly didn't know how they could continue. I did feel she forgave to quickly but everything was done to keep her safe whether or not I agree with the decisions it did lead her to Lip and their HEA, so in the end I was happy. I'm already reading Bull's story.

Hell. M.N. Forgy is f\*\*\*. That serie is amazing. It's different than other series.

The history it's about the Lip, prospect of MC Devil's Dust and Cherry, whose life became a nightmare.

Events leading they find each other.

But, his lifestyle comes with a price. He goes to jail in place of another member for six years.

*I will not cry. I will not cry.*

When he comes out, he turn a member with a pach and lies start to appear on the surface and both need to put their feelings in place.

**Do I tell her how I feel exactly and risk her rejecting us?**

**11:23AM — a time I'll never forget, because at that time I realized I'm not invincible, that I can't fix everything, and I can lose everything with the snap of a finger.**

## Rosa Sharon (iScream Books Blog) says

The rose to his thorns...

I'm a big fan of the Devil's Dust MC Series and this latest addition only made it better. The author continued her web-weaving tendencies and left this reader in a state of WTF? This is one of the things I love about her writing style, she keeps me on the edge of my seat, anticipating yet dreading, excited but cautious as I turn the next page. I must confess, my profiling skills were lacking, I was as shocked as Cherry when the lies were revealed.

Yup, in spite of the fact that the story is written in alternating POV, I was not allowed entrance into that part of Lip's head. He kept a corner all to himself and hid in the darkness. However; that side of him only got worse during his time in prison. He was cold and distant, not even looking Cherry in the eye. My imagination was working overtime trying to figure out what was going on. I was hoping it wasn't anything too horrific, cuz you know, I had a huge crush on Lip and I didn't want him to ruin it for me. I mean really, who could resist that sexy, dirty-talkin', muscled & tatted badass biker? Not me, that's for sure! And when he came back an even badder-bad-boy with even more anger issues and a shorter fuse...the sex got hotter (wink-wink).

Lindsey (aka Cherry), had my support from the beginning. I was ready to support her, on standby with my shovel ready. I worried about her constantly, while maintaining an ever increasing respect for her survival skills. I did know her secret, cuz you know girls are better at sharing, right? I was excited when Lip came into her life. My eternal quest for an HEA kept me fantasizing about how things would work out. I was cheering when she experienced "wind therapy" for the first time. Or as she describes it, "I knew the day I climbed on the back of your bike you were my ride to the dark side." I was ready to go there too!

And what I ride it was. I'm excited to report that there will be a spinoff series coming out. Some of the characters were introduced in this book and I'm looking forward to digging in to the mind-bender that I'm positive it will be. Don't be alarmed, just because there's something new coming doesn't mean the end of Devil's Dust MC. There is just so much good stuff in the author's brain that she is spreading it around. It's a win-win for her readers, huh?

## **Sue says**

I love this series and think M N Forgy has a gift for making her characters likeable, even when you want to slap them or just kick some sense into them.

Cherry's life was not a happy one and what happens to her as a young woman is so heartbreaking...no woman should have to deal with the loss she is struggling with...but she keeps on going and tries to make a better one for herself. Meeting Lip was just what she needed to give her some stability and strength to get what she needs...but then the rug is pulled from underneath her and everything she thought she knew and believed, all becomes one big life-altering lie.

I can't give too much away as to what exactly those lies were (it would spoil the book) but suffice it to say nobody is being truthful with anyone, the lies could drown a lifetime of trust and the overlapping deceit is enough to destroy what could be a HEA type future...unless things can be handled in a mature and honest way.

There is a lot of family drama, romantic pairings and violence in this one but overall, I really liked it and read it in a couple of hours. Grab it while it's only 99 cents!
