Sloane Kent, famous Country music star, is only in Jackson, Wyoming, for one reason: lay down the music for his next album. Since his mother passed away and his girlfriend left him, his inspiration is shot. While on a run, he witnesses what appears to be a young woman who needs help and he finds himself hopping on a Greyhound Bus headed for Las Vegas.

Hope Jones is in danger, but she does not need a celebrity super star around. When Sloane tells her a completely untrue story about running from a stalker, her nurturing side nags at her to help. Too bad he made the whole thing up! Offended, she tells him to take a long walk in the desert and leave her alone.

After, reluctantly, sharing dinner with him at a bus stop, breaking down in Rawlin's, Wyoming, and hypothesizing about having thirteen children and living in a broken down fire station together, she finds herself more intrigued with the famous Country Music Star.

When her ex-fiance tracks her down and puts both of their lives in jeopardy, Hope has to make a choice—trust in Sloane or lose everything.

#### **Fun**

This was a light-hearted, serious story. I loved the fun banter between this couple and the loyalty and devotion that developed between them. The Bachelor Billionaire series is great. Taylor Hart has been added to my favorites list.

#### **Got to love this one!**

Oh what a fun relationship story! Okay I think Troy's a total creep. But the whole bus and Vegas was fun. And how can you not like the Kent brothers. Sloane was a fabulous character.

---

### **Heather Green says**

This was a cute, quick read. The story line was good. It was clean. I just feel like some of the books in the series all start to sound the same. Even some of the phrases the brothers use are nearly identical. Maybe it's purposeful because they are brothers? IDK. This one is entertaining, but I probably won't read it again.

#### **Destined to love?**

Do you follow your instincts? I loved the road that these two gorgeous characters took together because it felt right! Both running away but towards something better.

#### **Redemption!**

Taylor Hart has mastered the art of balancing suspense with romance. Sloane Kent is an ex-military, up-and-coming country music star that's facing complete writer's block. He's trying to work past it when he witnesses a damsel in distress. The only problem is that she won't let him help. That, and a psychopathic ex-fiancee is not willing to let her go.

#### **Good story**

A fun story about a country singer no longer able to write songs. His mother had passed away & he'd broken off with a girlfriend.

The story opens @ a bus stop with 2 girls arguing about one returning to her family. This gets the readers' interest & the story keeps moving. A girl learns what safe feels like. A guy finds his answer to the emptiness.

Romance, clean

This was a hard call. I have always loved this author's books. The first 1/3 of this book was just not as good as what she usually writes. If this were the first book of hers I had read, I probably wouldn't have read any others. She is usually one of my fun go to quick fix reads. I will chalk it up to maybe life or rushing this one. I just couldn't find Sloane believable at all the first 1/3 of the book. The h, not so much either. I will hope for better with the next novel. Still one of my favorite authors, so this is hard. I received a copy in exchange for a fair and honest review. My opinions are my own.

Sloane was stuck until he met Hope. I liked the characters. I liked them getting to know each other on the Greyhound bus. I liked their dates in Vegas. I liked how they made each other better.

#### **Redeeming Love**

This is truly a story about love and forgiveness that will definitely help not just one but both of you get your redeeming moments and true love too .

### **Hope and Sloane**

Hope Jones is on the run. She's boarded a bus for Jackson, Wyoming, trying to escape from her abusive ex-fiancé.

Sloane Kent is a famous Country Western singer who has writer's block after the death of his beloved mother and the leaving of his girlfriend.

As Sloane is jogging by a Greyhound bus station he overhears a pretty lady who sounds really distressed. When she boards the bus so does he.

Hope has lost any trust she had in men and she cannot get rid of the guy in the hoodie. When she recognizes him, she still wants to be left alone.

Will Sloane finally get to help Hope or will her ex find her and do what he said he'd do... kill her?

## **Vivian says**

### **One of my favorites in the series**

This is a slightly suspenseful, but mostly just light romance. Sloane acts impulsively to be a knight in shining armor for a lady in distress, and she becomes the muse he's been missing for so long.

Not original. Not classic literature. But a really entertaining, touching story for a pleasurable couple of hours.

\*Clean romance level: some passionate kissing, hero responds to heroine saving herself for marriage with respect and expresses regret for implied previous physical relationships

4.5 Stars for this country star romance! I was unsure if I'd like this story, based on the premise and the very

beginning. But, even though parts of the story moved faster than others, I quickly found myself falling for this fun romance.

The quirky dialogue between Hope and Sloane had me laughing, and the romance was toe-curling yet clean. I also really liked the added suspense. Having music lyrics to go along with parts of the story was part of the icing on the cake! A good read!
