Beauty's Beast: A naughty fairytale

Sophie Starr , Tara Brown

Beauty's Beast: A naughty fairytale Sophie Starr , Tara Brown

When Belle fled for the woods in a desperate attempt at saving her virtue and her father, she never imagined the dark castle where she would be held captive, would ever hold any curiosities for her.

But it did.

Nothing there was as is seemed.

The shadows danced and the people hid great secrets.

Where she thought she would just find a tyrant, she found a man with another side to him—a monstrous side.

And through the key holes and cracks in the doors, she saw things—things she couldn't resist watching.

But somewhere along the way the captive became the curious and the master became less of a monster.

18+

Sophie Starr is the naughty side no one likes to talk about, but everyone likes to read.

From Reader Review Beauty's Beast: A naughty fairytale for online ebook

Amanda says

This book is what it is - an adult erotica version of Beauty and the Beast. If you don't really care about the story and just want a bit of smut you might find this okay. There were a few awkward sexual encounters and some not so romantic sex scenes. I should warn you there are scenes of rape and sexual abuse.

Eleanor Shakespeare says

Short and sweet

This retelling of Beauty and the Beast is very interesting. I can see the resemblance to Disney and its a nice adult version. I wish it was a little longer but I suppose a good story leaves you wanting a little more. Well written and I look forward to Ms Starr's future tales.

Carol*BeautyandtheBeastlyBooks says**

4.75 stars.

****ARC received in exchange of an honest review****

Can I book be forever long?? I never wanted this book to end, because...Beast. Do I need to say more??

LOVED, LOVED, LOVED Sophie Starr/ Tara Brown's naight take on Beauty and the Beast!!!
I hated Gaston, morethan I hate him in the Disney movie! He is a real jerk in this book!!
I loved the Beast though...wait, I may already have said that! LOL

Full review to come!

Tara says

This was a free download from Amazon. It is basically an erotic version of Beauty and the Beast. I found it hard to stay connected to the story, as there were things that some may find uncomfortable or offensive. Strong sexual situations, but lacking depth with the characters. It felt rushed and a weird ending. It just wasn't for me.

Marti says

Poorly written and with little imagination, even for an erotica.

Capri says

I really enjoyed this naughty novella of a book, it's a cute twist on the Disney tale but an adult version with a little light kink, the author kept the element of enchantment and magic within the story, but the twist was who was the villain besides the evil Gaston.

This was a nice quick read, that made me intrigued enough to read the other book in this naughty tales series Sinderella. I hope I am as satisfied with the next book as I was with this one.

Izabelle says

Well, it's certainly not Disney, that's for sure!

But what did I just read?

It was a dark, twisted, yet hot version and take of a fairytale. Erotic. Gripping. I was pulled in, right from the beginning. Of course, it was shocking when the storyline took a 180 on me, making my jaw drop but wow!

Ah, Beast, there was one scene I wanted to smack you for but you sort of redeemed yourself. All right, you most likely redeemed yourself.

I really liked Belle. She was strong and fearless. The story is not set in modern times, so her behavior was the norm.

I have a feeling I'm going to reread this book a few times and also read more by Ms. Tara Brown.

One complaint, though. Why couldn't it be longer?

4.5 stars. Beast, enough said.

Leigh Swanson says

I really liked this :) I thought it was a brilliant version, I was expecting more smut and filth in this (not sure if that's a good or a bad thing???) It could have been longer and I was a bit sad when it ended! However, I will never be able to sit and watch Beauty and the Beast without thinking of this version!!!! :D

Also, Gaston really is a douche! Story might need to come with a trigger/rape warning??

Elizabeth says

My favorite story retooled with the missing element

I have read so many story's of beauty and the beast. It is one of my favorite fairy tales. Love overcoming visual barriers and learning to love the person instead of what I see. I have always been mesmerized by the story as a whole and find any novel and devour it. This one was amazing. While others a written for kids or young adults, this story found an adult audience with sex rape and kamasutra. Disney meets 50 shades of gray. I loved it and read it in a few hours. I could not put it down. Definately will be picking up more fairy fantasies from this author

Christine Evans says

Three stars because I love Tara Brown but this story was lacking. It felt rushed and would have been enhanced with a lower speed.

As a reader I was unable to get I into the story as I had a hard time imagining the scenes. I hate overdone imagery and as this book shows, I hate the lack thereof.

Because the story is so well known, I think the author left out much of the premise behind the original fairytale and this was a mistake.

Beast was the most disappointing part. Belle never felt real to me.

I'm not sorry I purchased the book and do not regret the read. Perhaps my expectations were for a longer adventure with more character development and this was intended for quick reading and women's fantasies.

Spoiler Whore-Momoa says

Purchased

'Q' aka CoCo says

Beauty and the Beast with a splash of erotica. For me, this was just okay. Unfortunately, I felt that the most hated character was the best written one--Gaston. I could clearly picture him in my head in all his smarmyness. He was vile, misogynistic, and power hungry to the core... and he wanted Belle. I could *feel* this. What I could not *feel* was **anything** from the Beast, and I so wanted to. He had great potential to be this dominating force in Belle's life--to not only come in and save the day, but to also be her true Master in every way... and he fell short. There is a pretty hot sex scene (view spoiler). Later Belle and the Beast's lovemaking is ruined with stilted dialogue (view spoiler) which completely threw me out of the moment. All in all, it was

a quick read that definitely had some triggers (so heed the warnings), but I felt like it didn't live up to its potential.

Heidi Tieman says

I would have to say this wasn't my favorite book. It just felt a bit awkward and lacked character and plot development. Maybe she wanted us to carry our knowledge of these character's over from previous tellings to fill in some of the gaps but it just made it fall a bit flat. I would really have liked more depth between Belle and the Beast. I liked his role the best and despised Gaston. He was absolutely horrid. So this one just ended up being ok for me.

Cassandra says

Oh my, this book has some serious ups and downs. Gaston is a true villain in this one, completely atrocious. This is no disney fairytale, and the bad guy (Gaston) has no redeeming qualities. Belle is interesting, but I didn't like how she was so passive in defending herself from Gaston.

The story itself is tantalizing and the dynamic between the beast and Belle is intriguing. It's definitely a great twist on the classic fairy tale story.

Laura Duval says

Naughty...Naughty...but nice is so over rated

I love Ms. Brown's writing. And who doesn't love fairy tales? Although a short read of Ms. Brown's version of Beauty and The Beast, it was a rather nice naughty story. Who's to say that didn't happen anyways as fairytales only show the pretty side of things. If you want a quick, naughty, romance story, this one will work just fine!
