Breaking Gravity

Autumn Grey

Breaking Gravity Autumn Grey

I've always followed my dreams with ruthless determination.
My life was going well. Success was at my fingertips.
Until it wasn't.
All it took was three seconds to send my world crashing down around me,
ripping my dreams to shreds.
Then I meet her, with her large hazel eyes that slay me at first glance.
And everything starts to make sense again.
I try to keep my distance.
To remind myself I am her mentor.
That we can't be more,
but every time I push away, I'm pulled deeper into her.
The line between student and teacher is blurring.
One kiss.
One taste.
They're all it would take to cross the line.

Hanne says

I have to admit that I was hesitant to read Breaking Gravity. I love the cover (so gorgeous!), but I'm not a fan of teacher-student romances. Some reviews convinced me to give this one a try and I'm so glad that I did. Breaking Gravity is heartbreaking, hot and beautiful. I loved Elon and Nate. They both had a relationship (good or bad) in the past that still affects their lives now, but they will get another chance at love with each other. The progress was great. They really deserve the happily ever after they have gotten. I'll definitely read the other books in this series, since I really liked Elon's sisters.

Betul says

ARC provided in exchange for an honest review

"She takes my breath away without even trying."

Ever since I finished reading Fall Back Skyward, I was looking forward to the side-characters getting their own book. One of them was Elon, Nor's younger sister. There were some hints to her rocky relationship with her new professor, who she named Mr. Scowl-A-Lot. I am going to be honest and say I was a bit hesitant when I read this was a student/teacher romance, because I always either end up loving it or hating it. However because I read and really loved Fall Back Skyward, and I trusted Autumn to deliver a real story with intriguing characters, I picked this book up. She did not disappoint!

"Elon is my ray of sunshine, punching holes through my armor with gentle blows I hardly saw coming until now."

Both Nate and Elon went through a traumatic past and have issues because of it. I loved how they healed and made each other believe in love again. They treated each other with respect and never hurt one another. I loved how mature they both were and that there wasn't any unnecessary drama like you see in a lot of student/teacher romances. The author really took her time telling Elon and Nate's story. She did not rush through the story and she gave me all the time I needed to fully connect to the characters. Also even though there was a 9 year age difference between them, Elon acted very mature. She acted more mature than her age and the attraction and connection between Elon and Nate felt real. The secondary characters such as Nate's best friend/Brother-in-law Bennett and sister Izzy, played an important role and elevated the story. I really loved the brother/sister dynamic between Izzy and Nate.

I really love Autumn's writing style and it sometimes felt very poetic which made me love it even more. I really enjoyed this book and all the characters. It wasn't just ONE story but both Elon and Nate had other issues they were dealing with outside their relationship. I was especially sad about what happened with Elon's best friend Nick but it was handled perfectly at the end. The book world needs more authors like Autumn Grey because she creates such intriguing and beautiful characters and stories. I am looking forward to the next book in this series.

3.5 STARS

Malene says

First I want to make one thing clear. I'm claiming Nathaniel Rowe. Yes, I'm going to fight Elon for him but I don't care. He's mine and became that from his first appearance in the prologue and in his classroom towering over a sleeping Elon.

Nate's presence oozes male and assertiveness. In his class he's in his element and doing what he knows best. Dedicated to his craft. Teaching about music. Out of the classroom he's so much more. He's a loving uncle to his niece and nephew, a rock of an older brother to Izzy whom he loves with all his heart. Supportive of his best friend Bennett who's married to Izzy.

Elon is so much more than a quiet mouse. She's an observer and only speaks when she's has something to say and believe me she has plenty to say when it matters. Her relationship with her two sisters Nor, Elise and her nieces are her everything. She loves playing her cello and reading her books.

Nate and Elon are two flawed people who have a lot in common but the most obvious is that they're fighters. They fight for the people they love and as the story progresses they start to fight for themselves too and what they want and need in life.

They've both experienced loss and trauma which has caused them both to feel guilt, loose faith in love, themselves and also what they think they deserve or are worthy of from life. When they cross paths as teacher and student in Nate's classroom suddenly everything changes and yet everything becomes totally clear to both of them. Their attraction is undeniable and instantly. I felt it!! Their chemistry and want for each other jumped off the pages. I literally got chills and goosebumps at times. I loved how they both flirted and couldn't help themselves when they were around one another. I especially loved Elon's brazeness. She showed another side. A sexier one. She took charge. Nate was in another league. He's a beast when it comes to his woman. He cares, wants and loves his little but strong wolf. I love how their relationship slowly evolves into more. It's a slow burn but a sizzling hot one.

Breaking Gravity is so much more than a teacher/student story. It's about two people who's not looking for love but finds it in the most unexpected and inconvenient place. They're both haunted by theirs pasts and their choices which has led them to believe that they're no such thing as a happy ever after or a second chance. It's about growth and redemption. But most of all it's about love and how far you will go for it. No matter the consequences.

Autumn Grey has created an intoxicating story about forbidden love with so many layers. The story is well developed and every character have their place and importance to the story. I love Nate's sister Izzy and her husband Bennett. They're so much fun.

Autumn Grey delivers in spades when it comes to romance and angst. Her prose has never been better. Flawless and filled with so much depth and love for this story. Breaking Gravity is definitely a must read.

Sophie **2 Greek Girls Reading says**

"When I'm with you, nothing else matters. Nothing can touch me or pull me down. Not even gravity."

Elon is a student in the Rushmore School of Music and she's been playing cello since she was a kid. Suddenly one day comes in her class her inspiration and someone she was looking up to, Nathaniel Rowe, one of the best cellist.

Nate gets hired temporary as a replacement professor in Rushmore and there he meets Elon. One of his students that although she seemed shy and quiet at first, she surprised him when she showed him another side of her. Apart from being her professor, they have to work together, since Elon had been an assistant to the previous professor and they are challenging one another, threading in a dangerous territory.

I truly enjoyed this story. I really didn't expect Elon to grow up into this character that we met now. When I met her on Fall Back Skyward, she truly seemed like the shy type so I was definitely surprised, just like Nate.

I have to admit that I had shipped her with Nick, just because I fell sorry for him. I truly hope he'll get his story, because I can't accept the destiny that these brothers have. First Colr, then Josh and now Nick. I just want them to be happy! I really enjoyed Nate's character and the scenes with Elon were scorching!! Especially the one with the cello.. Daaaaaaaamn!!

The only thing that didn't excite me was "Little Wolf". I honestly didn't get the nickname and I wasn't a big fan, but that's just me. I hope people will get to meet Professor Rowe and discover the little minx that Elon is! Looking forward to reading more from Autumn! :)

4.5 stars...

"What are we doing?"

"Breaking gravity... We're breaking rules. When I'm with you, nothing else matters. Nothing can touch me or pull me down. Not even gravity."

This might be one of my favorite quotes/tie-in to a title/general concept EVER! I FLOVED this scene <3 I loved how much meaning it brought to the title (which I already loved) and how romantic it was. And it's just *perfect* for Nate and Elon! ***PERFECT*** I tell you!!

I received an ARC almost two weeks ago, after bugging Autumn about it FOR MONTHS, and then it took me ten days to finish it *le sigh* I suck, but it's not the book's fault. This is 100% me and my stupid chemically imbalanced brain, but I'm trying really hard to keep everything normal because that typically helps. Anywho... so this book *le sigh* again, I really enjoyed it. I had a few baby problems with the plot, but the characters and the writing were SPOT ON, which isn't surprising. I loved FBS and I'm beyond excited for the rest of this series and more AG books in general! Damn, the woman can *write*.

I'm one of those people who love to crush on the heroine as much as I do the heroes. But I find that I'm extra critical of the female characters. Getting me to love a hero is easy. Even when I don't necessarily like the things he does (*ahem* Vicious) and I couldn't personally see *myself* falling for him, if the author can show me how much he loves the heroine, and throws in some swoony lines, I'm sold. Book boyfriend for life. But the heroine is trickier, because I think, as a woman, I'm constantly imagining how I'd do things differently or if I'd even be friends with the girl. Now I'm not saying I dislike most of the heroines I read, not at all, but for me to truly love them it takes a lot of work and talent by the author. All that being said, I crushed on Elon. Hard. She's my favorite type of girl...

A little shy,

"You're nervous."

"Very," she admits in a breathless whisper.

"Don't be. I'm a generous lover."

But still bold,

"I'm going to kiss you now, Professor."

Awkward,

"You are incredible."

"Um... okay."

Oh, Jesus, Elon. Is that all you could come up with? Um... okay? Really?

Inwardly, I roll my eyes and say, "Thank you?" like it's a question, making me cringe.

He laughs, shaking his head.

But confident,

Something about Nate makes me brave. He makes me want to explore that adventurous part of me I've hidden for so long.

Sweet,

I'm smiling wide because dude, he touched me. He's losing control, and he has no fucking clue how to stop feeling this way. I did that to him. Cute, unusually stunning, quirky, me.

But unafraid to be sassy,

"Are you going to punish me for disobeying?" she asks playfully.

And a little flawed,

His eyes were full of darkness, the kind where monsters live, greedily waiting to devour you when you let your guard down. I'd know it anywhere. It has been my constant companion for as long as I can remember.

But somehow still perfect in who she is and what she's about,

"As much as the past shapes us, we can choose to let it define us or we can carve a different path and define it ourselves."

Perfect, right? And then there's this gem which just sealed the deal...

"Reading sets me free and music makes me soar. There's no me without those two things."

Now Nate... *fans myself* He was exactly the kind of alpha I like!! To be honest, it's pretty rare for me to like an alpha male, because he's always written in a way that makes him seem arrogant and like he doesn't really care about the heroines feelings/wants. But Nate was dominant without doing any of the shit that pisses me off. And the things he said... dear God, it was hot. I don't always talk about the sex when reviewing, but there is no talking about Nate without talking about sex. He was perfect and delicious.

Visions of me standing between those legs instead of the instrument fill my head. Her legs wrapped tightly around my hips as I rock into her. Her fingers, like a bow, strumming my body with reckless bliss as we compose a symphony: moaning, screaming, harsh breathing. Reaching a crescendo as she comes around my cock and I come inside her. A masterpiece. Our masterpiece.

"What is it about you that makes me want to destroy everything in my path just to have you?"

"Run, Little Wolf. Run before I ruin you. God, how I want to ruin you."

And Little Wolf? I loved it, it was sweet, sexy, and sensual all at once. And honestly that was how Nate was, because despite his dirty mouth, he was so flipping swoon-worthy!

"We don't have to do this," I say gently, trailing a finger on her top full lip. "I really enjoy kissing you. We could just hang out. And kiss. And cuddle."

This may sound cheesy, but I really don't give a fuck. Elon is my ray of sunshine, punching holes through my armor with gentle blows I hardly saw coming until now.

Nothing about Elon is a mistake, and my lungs aren't playing tricks on me. It's simple. She takes my breath away without even trying.

"You are worth everything. I don't regret meeting you. You pulled me back into the light." He breathes in deeply, kissing the shell of my ear. "I want you to know that no matter how this goes, I'm here to stay. I love you, Elon Blake."

He wasn't afraid of his feelings. There is some push-pull, which is expected in a forbidden romance, but I never got the feeling that he struggled with how he felt for Elon. And when it came time to tell his family, he didn't keep them a secret... I LOVED that, it's such a break from the typical student-teacher trope.

I'm not ashamed of my feelings for her. Plus this is my family. They know me.

And oh man, there were a lot of funny parts. I honestly wasn't expecting to be laughing so much...

Obviously, the thought of being found experiencing a human emotion annoys him, given that look on his face.

Shifting slightly on my seat, I follow his gaze and find Professor Rowe, Sir Scowl-A-Lot, openly glaring at Sir Wink-A-Lot across the counter.

Okay, I went a little quote crazy... but I couldn't help, there were so many good ones!!

Bleggg... now to my niggles because I'm obnoxious... these are not huge and in no way would deter me from recommending this book...

-One-

I was surprised by how quickly they developed feelings for each other. It was most definitely lust in the beginning, but given the taboo nature of their relationship I think I would have liked to see more resistance. I've had attractive teachers and I didn't automatically imagine sleeping with or being in a relationship with them. There was push-and-pull, so maybe I'm not making sense to those who've read the book, but their immediate attraction just felt a little unrealistic (to me).

-Two-

(view spoiler)

But again, they were easy to overlook, and they're *me* issues anyway ;) If you like student-teacher romances, you'll definitely want to check this out!

Also... is book three done yet?!?!

Closure: (view spoiler)

Shanny says

You know what if I had a teacher like Nate I would have been the best student or perhaps not so he would call me in his private office.

Breaking Gravity is book 2 in the series and can be read as a standalone BUT you will be missing out on reading about Cole so I recommend you also read Fall Back Skyward.

Breaking Gravity was such a great story, it was so much more than a simple student- teacher romance. This was the story of two broken people finding love, acceptance, and healing.

"When I'm with you, nothing else matters. Nothing can touch me or pull me down. Not even gravity"

I loved Elon, I thought she was going to be the shy type but I was wrong. She was cute, quirky, sassy and she had spunk!

More female characters should be like her.

I love broken characters and Nate was exactly that, he was broken and suffering. I just wanted to hug him. But he was also very possessive and very sexy!!!

" I don't want perfect right now. I want you. All of you, whatever way I can get you. Do. Not. Hold. Back."

The relationship between Nate and Elon was incredible. They were there for each other, they healed each other.

If you are a fan of student- teacher romance, then you don't want to miss this one.

R. Scarlett says

THIS BOOK! <3 Review to come!

BexLOVESBooks says

NATHANIEL ROWE & ELON BLAKE FOREVER

Nate and Elon, where to even begin their love story is a symphony, a collection of melodies, emotions, movement and serenity. It brings feelings of peace and comfort along with turmoil and chaos. But the rhythm, the fluid beat of the story, it never let up, never wavered, it was as constant as the pulse in my wrist.

This book had a pulse all its own. Lines Blurred, Boundaries Crossed, it was chemistry, passion, souls colliding at 100 miles an hour. God, I'm so thankful I was invited to come along to experience it all. You guys do not want to miss out on this beautiful story.

Autumn claimed my heart with Fall Back Skyward, the world and characters she has created. Breaking Gravity is a standalone but you don't want to miss out on Cole & Nor's book (book 1 in the Fall Back series.) Cole and Nor are LOVE in its purest form, so sweet, so beautiful and eternal. Nate and Elon, their love is of the intense, necessary for survival variety, (my survival. ;) its unapologetic and fierce and spectacular and also, SO. VERY. BEAUTIFUL.

Autumn has a reader for LIFE right here. I can not wait to see what she writes next, because its already at the tippy top of my TBR.

Snow says

4.5 "forbidden/complex/passionate love" stars

The first book i have, now, read by **Autumn Grey** is a story of **forbidden relationship interwoven with a passionate connection between two people, haunted by their pasts who gained a second chance at love** when they least wanted it.

"A heart wants what it wants."

Nathaniel Rowe is a man shattered by guilt of the events in his past, those events haunt him, rule him and shatter him with each and every day and he can't move on, adding the physical pain to the list as a constant remainder of both, his failure to protect the only woman he ever loved and the failure to continue his career as a professional cellist in the Chicago Symphony , he's also addicted to the pain meds and a shadow of the vibrant man he used to be.

Until he walks into a classroom as a new teacher in Rushmore College. The first sight of her face, her vivid red hair and mysterious hazel eyes that spoke volumes of the story he wasn't ready to reveal yet but still could NOT look away from.

She captrivates him. With her features. With her musical talent. With her spirit.

Elon Blake was the last thing he expected to enter his life in the way she did.

I know she's not mine to tease and touch. She's my student. I'm her mentor.

BUT the resistance is futile and their connection is palpable and they try to fight it...

"Lie to me, Nathaniel...One sweet lie."

"I really don't want to kiss you right now."

and knowing the burden of his past, he can't let her in...and he warns her...

until the pulsating need and desire takes them both into the path of no return...

...I'm a man who is about to stake claim on a young woman who drives him insane with need both in and out of class.

what they enter is a ***forbidden passionate, consuming, palpable and sensual*** relationship.

She's already in my blood like a drug that won't be drained.

and without much effort Elon slowly replaced the broken strings in him.

"I don't feel it when I'm with you."

"Feel what?"

"The darkness. The pain. I feel...A sense of calm."

but as much as Elon seems strong on the outside, she's a person that went through hell with an abusive father and an ex-boyfriend, still carrying the scars, both physical and emotional ones and she's scared to open up again and let Nathaniel in.

"My past was and who I am. What I am. You can't just forget the very thing that molded you and gave you strength to beat the odds. As much as the past shapes us, we can choose to let it define us or we can carve a different path and define it ourselves.

though out, they slowly mend and heal each other but being aware of the danger lingering above thier heads that slowly takes a toll on them, they will both have to face the repercussions and the aftermath of their actions and the haunting past, as well BUT first and outmost, they'll have to acknowledge that what they feel for each other is worth keeping and fighting for.

I grew up believing there was no such thing as happily ever after, but I met a man who blew that theory out of the water. He made me believe that anything is possible.

The writing of *Autumn Grey* is effortless and the story fluently flows while you explore the depths of each character presented. The emotional depth and span are also present even though its impact was of moderate power. I enjoyed the story, inspite the fact of all familiar subject and I am looking forward to reading more of this author's work in the future.

ARC kindly given by the author in exchange for an honest review

Sirens BR-ed this little gem and defied the gravity...

Ramona says

For those who know me, my guilty pleasure is reading professor student affair books. I LOVE THEM! I've read every combination, every mix of possible characters and I just can't get enough. Even though I loved them, I am extremely picky. The story has to have something different, because I already read kind of everything and the book has to surprise me with a catch.

Well, what do you know? *Braking Gravity* by Autumn Grey managed to make me very curious even when reading the blurb and the book was fantastic. It hit my Top 3 student professor books (I won't reveal the order or the other 2 titles, if you need recommendation, just PM me:) .

Nate Rowe has been living the most dramatic 3 years of his life. After losing his fiancée, he is terribly lost and misguided. He found refugee in drugs and medication and things aren't looking ok for him. He was a famous cellist, but after the night he lost the love of his life, that gift was taken away from him as well. He receives a second chance by Rushmore School of Music when he is requested to take on a class. Wanting a distraction, he agrees and that is when his life changes.

Elon Blake is smart, fearless and feisty. She has a goal in life, to become one of the biggest cellist out there. When Nate introduces himself as her teacher, everything she knew comes falling apart, because she had no idea how electric this pull to him could be. This relationship has FORBIDDEN written all over and I loved every minute of it.

As I said, Nate is trying to find something to live for again. When meeting Elon, he was totally disorientated and couldn't understand what is going on with him. He tried to kept his distance, tried to hold on to the past that was tormenting him, but Elon managed to get under his skin and give him the peace he was been craving for. Soon he will love again and will do anything in this power to put Elon first.

I don't feel it when I'm with you.

Feel what?

The darkness. The pain. I feel...A sense of calm.

Elon was a sweet and strong heroine. Having lived an abusive childhood and relationship, her trust in men is almost zero. She doesn't believe in happy endings and thinks they are not made for her. Wrong! Nate entered

the picture and managed to make her not be scared anymore. He protected her, induced as well a calm and happiness in her life that changed Elon completely. He was so aware of the consequences of her actions, but she didn't care, something told her this leap will mean everything to her in the end.

When I'm with you, nothing else matters. Nothing can touch me or pull me down. Not even gravity.

They healed each other in the most sweet and breathtaking way possible and I enjoyed so much their interactions, because you could feel the pain, the vulnerability but also the progress, the way the characters develop so nicely. I loved the way they accepted their feelings and fought for each other. It was intense, it was heartbreaking but in the end I had a huge smile upon my face just thinking about this wonderful couple and their journey.

I recommend this book with all my heart. It was a valuable life lesson about second chances, about being able to trust someone deeply, let go of the past and just live. I also enjoyed the secondary characters that made this wonderful family portrait and will surely delight you as well.

5 stars!

Tink Magoo is bad at reviews says

4.5 stars

In the prologue, we learn that Nate lost the love of his life and sustained injuries that ended his music career. The story then starts with him taking a temporary professor position at Elon's school.

Now I tend to avoid dead ex-stories when it comes to romance because I don't want to waste my time with a hero grieving and wishing for his ex. Thankfully this wasn't one of those books. Nate never compares Elon with his past love, he loves her independently from that but with a love that is just as all consuming and strong. That's something I really felt from both of them. You got his sense of guilt from what happened in the past but you didn't get the pushing away or blame put on Elon in the present.

The angst level was a lot lower than I accepted too, with this being a student teacher story. It focused more on their chemistry, them falling in love and overcoming their pasts together. And while the pacing was a little slow in a couple of places it wasn't to the extent where I wanted to skip. There also wasn't any real resistance from either of them because of his position to her with his job, so if you're after the push/pull we shouldn't but still do aspect here, you may be disappointed because they were pretty strong from the start together.

But, if you're after a heartwarming story about love and finding that someone that helps you breathe easier then this is one to pick up.

KAT ? Kitty Kats Crazy About Books ? says

**The line between student and teacher is blurring.
One kiss..One taste..They're all it would take to cross that line.**

Will these two succumb to temptation?

She wants it...I want it...Two adults...One goal...A goal that could get her expelled and me fired...

BREAKING GRAVITY: In the 'Prologue' we're witness to a devastating event which left Nathaniel Rowe traumatised and crippled by guilt that he couldn't do more. It took less than three seconds in total for his world to come crumbling down around him. A promise he couldn't keep.

Now he's a shell of a man he used to be, unable to play the cello again, months of therapy and in constant pain.

Months and days filled with pain, struggle and eventually acceptance. I'd spent years chasing my dream and finally, when I was living it, one single event destroyed everything, changing the entire course of my life.

SIX MONTHS LATER: He's left Chicago and is trying to make a new start in life in Florida teaching at Rushmore School of Music.

Elon Blake has had a secret crush on Nathaniel Rowe (9 years her senior) for as far back as she can remember, from following his career with the Chicago Symphony up to his retirement three years ago from an injury, has had her striving to be as good as him. Until he just up and vanished off the face of the earth. To finding out he was going to be her Associate Professor teaching music theory at Rushmore school of music in the class she attends has her struggling to keep her feelings under wraps.

The man in front of me looks like an avenging angel, sent to earth to punish sinners.

Whenever these two are in proximity of each other there is a magnetic pull that claws at their very existence. Both struggle to fight their ever growing attraction.

Gods what to say about Nate, his character just oozes sex appeal off the pages, he's a sizzling hot alpha male, if I had a teacher that looked like him, spoke like him, damn the consequences I'd be gunning for his ass!!

Just so we're clear, if we cross this line...Every part of you will belong to me from this point forward until we fuck each other out of our systems. ~ Nate

Thank you for finally giving me epic!! I haven't read epic for months! I was slowly thinking epic didn't exist until you proved me wrong with this book!! Epically unputdownable!! I could sit here ranting and raving how much I loved this book, but the fact that it's sitting on my favourites shelf of 2017 speaks for itself. I highly recommend this series, you won't be disappointed!!

It's been some time since I've read a book that took so little effort by the author to captivate me, but Breaking Gravity did just that. This author had me eating out of the palm of her hand, I've only read a few teacher/student novels and this surpassed all my expectations, I lived it, breathed it, inhaled it, loved it.

If you think you're going to encounter a fan girl in Elon crushing on her all time crush think again, she's sassy, sexy, saucy and has such a wicked sense of humour many a time I was giggling away as though I'd had a breath of laughing gas.

This author fast became one of my all time favorites after I read and fell in love with her characters in 'Fall Back Skyward' all her characters come alive, and each and everyone of them steals a little piece of your heart once you close that last page.

Even though this is part of a series it can be read as a complete standalone but I highly recommend that you read 'Fall Back Skyward'

* Teasers used in my review are off the authors Facebook page *

Sophie says

EMOTIONALLY ENTHRALLING.

Two words to describe the experience I've had while reading Breaking Gravity by Autumn Grey. This book, took my breath away, took my heart captive and stole a part of my soul without even trying. All of it, from beginning to end was just FLAWLESS.

This student/teacher romance was EVERYTHING it needed to be and yet so much more.. Breaking Gravity started off slow, building intensity with passion fuelled dislike and two broken, battered souls. Gradually as things became more between our two beautifully broken characters so did the power and rawness in words that captivated and consumed. Conquering my whole being.

I was hypnotized. Completely and utterly addicted to the way Autumn made me feel. I LOST MY MIND over the way everything came together. The butterflies in my stomach couldn't control their wings and my heart wouldn't slow down. Everything drew me in, everything worked. The mesh of emotions that plagued

me while reading we're so freaking intense. I felt the scorching heat and love between our characters, I felt the guilt and damaged parts of them, I felt their happiness and sadness, their joy and pain. I felt it ALL. Autumn Grey has penned an absolute masterpiece with *Breaking Gravity*.

Breaking Gravity left me spellbound. Lost in a sea of breathtaking feels. This epic journey of two lost, broken souls finding love, closure and happiness has stolen a part of me that I'll happily never give back!
