Chained To The Desk Chloe Cassidy

Alexa is overworked, overstressed, and underpaid in her office administration duties. Working life would be tedium, if it wasn't for the fact she's having a barely concealed affair with her boss, the handsome, but paranoid manager Mark! As the stresses of work begin to take their toll, not to mention the complexities of answering each of her manager's sordid requests, Alexa begins to question their relationship together, especially when she's sent on a work-trip with the quiet and reserved new employee Jesse!

Soon a capricious love-triangle is born, and Alexa must work hard to keep her indiscretions quiet; especially amongst the whisperings of a certain billionaire bachelor buying into their company!

This steamy 17,500 word novelette is the first installment of Chloe Cassidy's thrilling erotic romance series, The Secret Billionaire. Intended for an adult audience, this enthralling tale follows an overworked young office employee, caught between the affections of two powerful men; a gorgeously handsome coworker, of apparently shy disposition, but nonetheless harboring a mysterious and tumultuous secret; an overbearing and lusty boss, desperate to impose his will on his young and attractive employee by any means necessary and a host of lurid, submissively sumptuous sex scenes! Lori says

Caught between a rock and a hard place.

Some hanky panky in the office is going to cause problems for Alexa when she finally meets a man she wants to have a relationship with. Who would have guessed that guy would get transferred to her department at work as well. Rivaling alphas in the office. I can feel the trouble brewing.

Jodi Cain says

This was a great read. I can not wait to read book two. Just to see what she is going to do..

donna says

Hmmm, having a secret affair with your boss and starting a possible romance with a co-worker. Trying to keep the now possessive boss who sent you on a conference with the co-worker in the dark about what happened and is happening makes an intriguing and complicated triangle. Have to read the rest of the series to see how this triangle ends....

Shaz says

I loathe cliffhanger endings. The female MC was a bit weak but the story was good.

Melody says
