UNDER THE KNIFE: For attorney David Ransom, it begins as an open-and-shut case: malpractice. Then Dr Kate Chesne storms into his office, daring him to seek out the truth - that she's being framed. When another patient turns up dead, David starts to believe her.

NEVER SAY DIE: Twenty years after her father's plane crashed in the jungles of Southeast Asia, Willy Jane Maitland travels to the other side of the world to track his final moves. She recognises the danger in what she's doing, but her search for the truth about that fateful flight is the only thing that matters.

### **Melinda Elizabeth says**

Same as what I said for her other books, there's an emphasis on helpless females that need assistance from troubled men that makes me unhappy and there's certainly as very template cut and paste type of story the more of these books you read.

### **Icy Mags says**

I was honestly drawn by the cover (a bloody knife), the blurbs, and the fact that Tess Gerritsen happens to be a doctor and a writer (WOW). This book has two completely different story lines, one revolved around a medical related lawsuit and the other had something to do with war secrets and conspiracies. I was more keen on reading Under The Knife and it did not disappoint. But Never Say Die also had a really exciting plot. Both had me hanging on a cliff at the end of every chapter and I just could not put the book down. I found the love stories between Kate and David, and Willy and Guy predictable considering that they started hating each other's guts and only to fall madly inlove with each other in the end. Blah. But all in all, the endings and plot twists were perfectly executed. This is the first Tess Gerritsen book I've read and I will be reading more of her books. Found myself a new favorite author :)
