## **Deplorable: Disgraceful Billionaires** Drew Sinclair

A misdirected email containing topless European vacation pictures, a billionaire known for his exotic tastes, a woman lost and looking for an identity in a big city. Someone is out to ruin Janet Watson. All she wants to know is who her real family are, all he wants to know is how fast he can get her into his bed. Watch this sizzling hot game of cat and mouse unfold and get ready to have your panties melted clean right off as Evan Daniels relentlessly pursues and closes in on the woman of his deplorable desires.

## **Saša says**

Very interesting, intense love story.

This is my first book from Drew Sinclair, and i like it a lot. The story peace is fast, dialogues between the man characters were steamy, and interesting.

Hot steamy, rough sex.

Janet is a women which is getting new better position in her work. She has one little dirty secret

The story became interesting when she has to have interview with her bad ass boss Evan.

The only thing that bothered me in this book was, how easy Janet get manipulated by others, and how easy they use her for their nasty goals.

---

## **Lady Mockingbird says**

Wasn't worth it at all, even though it was free with my kindle. I did not read past page 25. There is so much wrong with the writing. No logical progression of ideas. Unbelievable characters, and bad bad grammar.

### **UhBillionaire Bondage**

Your book seemed to be more of bondage than romance or love. I guess that is why you called it deplorable. I suppose Janet would always indulge in her fantasy, just as much as Evan did. It became too sexually intense for me at times.
