### Katherine says

These stories are so wacky and random! Think Looney Tunes behaviour - grabbing the exclamation points off of word bubbles and beating each other with them! Great facial expressions!

### Andrea says

Sep 23, 2018: More cuteness and belly laughs. The great strawberry panty caper is gold. The flyman from outer space needs to be a recurring character. New haircut for Senbei.

### Sarah Crawford says

Arale wants to be able to fly. Dr. Slump invents a plan powered by shaking a huge can of cola and then opening it. They end up on a cloud with an oni who controls the weather and immediately they start to cause problems.

The police of Penguin Village, where Arale and the others live, are terrified of Arale's strength.

There's also various activities in the book like coloring in a page.

There's a funny lunch scene, and a scene where Akane ties a rope to Arale, gets on a skateboard and has Arale pull her fast. Arale then gets a tummy ache and Senbei (Dr. Slump) has to open her up and extract the lunch she 'ate.'

Bubibinman makes his appearance. He's from outer space, has wings and fake insect eyes. A bunch of funny things happen and the fly-like Bubibinman ends up eating poop and enjoying it.

Senbei invents a machine that allows you to put in a picture and it will make it turn into reality. Then Arale gets her turn with it.

A crook takes Arale and Gatchan captive. His mistake. Big mistake.

Arale's teacher is coming to visit so Senbei invents a barber machine to cut his hair. It doesn't go well, of course. Arale and Gatchan dress up in monster costumes.

Then there's a section on catching frogs. Yep. And Arale catches Senbi by using a picture from a girlie magazine. He then invents the Ponpoko Morph Gun. It can change things into other things. Arale gets hold of the gun and turns Senbi into a monster.

The next story's about the kids going back into the past and seeing really neat things and having lots of fun. The bank robber then makes another appearance and so do the police, one of whom is wearing a Stormtrooper helmet. The robber takes Senbi and another guy hostage but when Arale and the others come in

he runs off, begging the police to save him from Arale.

Then a TV guy shows up and it gets wilder from that point on. Arale literally splits the moon in two.

The next thing up is when Senbei works very intensely on figuring out a way to see Midori's strawberry panties. Yes, he's a pervert. But a very scientific pervert. He fails at his first attempt to constructs a second Rube Goldberg-type device.

J'avais oublié à quel point c'était idiot et loufoque mais ce petit retour 20 ans en arrière était sympa !

Akira Toriyama est doué, il n'y a pas à dire.

Et je suis toujours épater de me souvenir que c'est sorti en 1980 au Japon !!!

ini komik sampah anjir hhhh  
terlalu absurd tapi juga terlalu banyak pelajaran tersembunyinya.

suka, tapi nyebelin juga, humornya terlalu receh dan ngeselin :'(

### **Cindy says**

Not as cute as the second one, and there wasn't as much of the characters as I'd like. But it was still a funny read for those that love manga.

### **Karen Loder says**

Of course I'm giving this five stars since this is the first manga I was able to complete in Japanese waaaaaaaaaaaaaaaaaaaa~. I wasn't able to understand every word but I'm much better at looking them up and

being somewhat orientated with casual speech and now I have one ton of new vocab I need to start working on. There isn't an overarching story to Dr. Slump like there are in other manga; this seems more like a collection of episodes featuring the same crazy crew. I really enjoyed it though! The art is adorable and crude and so aesthetically satisfying. The jokes and shenanigans are great too! Since this manga seems to be somewhat on my level, I'll try my best to read all the volumes I can get my hands on. Will take me a while though since my strategy is 1. read without assistance but maybe write some words down that I don't understand 2. go back and look up what I didn't know so that 3. I can read it again.

Yay me!
