The book: "Gulliver's Travels" is a book very realistic: in each of the places that the unfortunate Lemuel Gulliver's visits, he met fantastic people but they have at least one aspect, that represents a human nature. The most interesting aspect is that like me, the protagonist Lemuel Gulliver (a middle-aged surgeon of the bourgeoisie) is a man passionate about languages ??and travel. I remember reading this book when I was a child, but only now, obviously with the change of age, I really understood the message that the author tried to send at the reader. So I really liked this book because it reflects a real criticism of the society of that time, then it trying to emphasize the negative aspects of the institutions of that time.

Gaiagnelli says

This book has a beautiful message: it teaches us to live in a better way and to change our aptitudes, because if we compare human's world and the others in which Gulliver travels, we will understand how much humans can be cruel, liars and violent. The language is simple and the meaning is deep.

Fun story, but parts which were indecent and too graphic

4) Do you want to go travel again and again, even If you experienced nearly being killed or dying?

No, i don't want to go traveling with dangerous, even if I offered from a load. I might feel like to go somewhere, but I want to take a good rest before going travel.

5)I didn't know Gulliver went to Laputa or other countries. When I read a picture book of this story in childhood, it might write only chapter 1. That's why, I knew only the story that Gulliver met small people. I think it is most famous story in this book. Anyway, Gulliver's travel was too dangerous and he often got involved with politics troubles in each country. It was miracle that he kept being alive.

I read this book when I was in grade 6 as a part of my English Class but I have read this before I guess when I was 10-11... I adored this book as a child. Love it!

a brilliant satire that fits present day societies in many countries.

Whoops, I thought this was the actual book and not an adaptation. Still, I got the idea of it. Very enjoyable. Great stories, nice audiobook.

The book is about a man, whose name is Gulliver. He loved to travel so he made a lot of adventures. He went to a lot of Islands but on every Island there was something weird going on. At one of the Islands there were very small humans only fifteen centimetres tall. On another Island, there were humans about thirty metres high. There was also a flying Island and an Island where horses could speak. On every Island, Gulliver found a way to live with the situation.

I found it a good book, because it was not a very difficult book to read. That made it nice for me because I can not speak English very well. There were also a lot of pictures in the book, so you could well imagine how it was on the islands. The book reads smoothly. There were also negative things about the book. In the end on the book there were activities. I think that it is useless and that nobody actually does it. It bothered me a bit.

I think the book is worth reading because it is exciting. If he goes to a new Island you always want to know what the strange thing is about the Island. It's easy to read so everybody can read it. It is the perfect book to learn English.

Discussion question

Have you ever traveled interesting or strange places?

In my case, that is Boston. I have never been to other countries except the U.S. It was so good for me to visit Boston. I would like to visit Boston again!

Gulliver's travel is so famous for satire. The story is very interesting! Moreover we can learn England history.

Gulliver's Travels is a decent read if you are interested in tales of exciting journeys to creative, far-away lands. It's important to recognize the connections that he makes to the issues of his time through his use of allegories and satire. These same issues connect to many of the issues in our own world today. By the time you get to the third book of Gulliver's Travels it can feel like Swift is dragging on, but if you enjoy a novel that features a journey then this might be a good read for you.

Gulliver begins his first journey in 1699 after a storm , he finds himself in a country Lilliput. He starts being a prisoner through time he became an ally after conflict between lands , people start to question he's loyalty. He leaves the country back to England and after some months he goes back on sea. Where he was blown of course and ended up seeing a large island. Where he finds himself at country full of giants. He was caught by 1 and he was used for entertainment until the king bought him. A bird took he's little home 1 day from the island so he escaped. Where he was found by English people. After some time he dared to risk to go out on the sea again. Where he finds a flying island with Laputans that only interest into music and mathematics. After some time he left the flying island , back home. Not long after he took again a voyage , he's crew throw him out and claimed the ship. He was thrown out at an magical land full of Horses that enslaved humans. The Horses were the dominate being after learning their language , they discussed each other lands. The horses were surprised hearing about the concept lie , steal , war , hatred... After some time the horses wanted him to leave so he did 2 weeks after. Rowing back home to he's wife and children.

-It's a good and detailed story , more story's in 1 book. From being a giant to a little guy to walking around flying island people to talking unicorns. It's a thin book only 88 pages. So it's perfectly suitable if u have a hour spare time and need to fill it with a book. I don't read that much but the book caught my interest and i read it a full hour at once. It was enjoyable , quick and easy.

My conclusion is : it's worth reading if u want to get better at English. I have nothing else to say about it. It's perfect if u have a hour or 2 spare time and need to fill it.

2. 12/23=70 mins. 12/24=60mins.
3. Gulliver, travel, shipwreck, Lillput, King, small human, war
4. a: I was lying on my back and my whole body, my arms and legs were strongly fastens to the ground.
b: It was very surprised accident because a body was fastened to the ground and a very small human spoke to me. It was unbelievable thing.
5. Gulliver worked as a doctor before he decided to travel. It was a very big change through his life, I think. Trying to change something better is really hard so I respected him. I enjoy how to change his mind and what he sees through his travel.

1. Oxford, level 4
 2. 1/3=60 mins. 1/5=30 mins. 1/6=40 mins.
 3. Brobdingnag, taller, Queen, King, Laputa, Yahoo, return
 4. a: And now I realize that people still lie, steal, and fight, just as they have always done, and probably will always do.
b: Some countries battle with others still now. To trust someone is difficult sometimes. However, if people not only people who fights but also others trust others, problems will decrease.
 5. I like this book because Gulliver went some countries and kingdoms and met many people so there are many adventures. People who live in each countries are unique and they have each opinions. Everyone have own characters and prides. I am not sure but I think the war is occurred by them. That is why solving these issues is very difficult.
