Emily needs a husband...fast. It's just a few days until Christmas and to finally put a stop to her nagging mother's matchmaking plans, Emily has convinced her that she's already married!

And when her excited mum announces that she's coming to stay, Emily can think of only one man to play the part: gorgeous ex-soldier, Sam. It's the best part of her day, handing him a coffee every morning – but then, Emily never expected to offer him her hand in marriage, too...

All that's left is for Sam to say 'I do' – it's the perfect plan! So why then, do her 'pretend' feelings for Sam seem far too real?

Fans of Debbie Johnson, Holly Martin and Christie Barlow will love this heartwarming read from debut author, Carla Burgess.

When I first spotted this book on Carina's Facebook account I just knew that I had to go and buy it. After all, with a title like 'Marry Me Tomorrow', how can anyone let that go by them without reading it?! Far too curious for my own good.

It's Christmas time and that can only mean one thing: family time! It's all well and good to see your family over Christmas; just as long as you haven't told them that you have gotten married....

Oh, wait, it's only Emily that does that isn't it? Emily's mum likes to think she is Cilla Black (may she rest in peace) and set her daughter up on dates; never mind the fact that she might actually be happy single! So, to make life 'easier' for herself, COUGH, Emily told her mum that she got married when she actually hadn't. Where will Emily find a man who will willingly become her 'husband' over Christmas? Nothing says 'marry me' like a takeaway cup of Nescafe of a morning...

I'll admit, I surrendered to this book and became its page mistress after reading the first couple of pages! I could NOT put it down. Even though I had an inkling of what Emily was up to, there was still a small part of me that thought she wouldn't go through with it. If someone came up to me with a cup of coffee and asked me to do them a favour I would politely take the coffee and be miffed that they forgot the sugar! Never mind agreeing to Emily's 'genius' idea (I wouldn't by the way). Given the fact that I thought Emily's idea was far from genius, it made me want to keep on reading. The absurdity and bizarreness of her offering made for excellent reading.

As more of the story unfolded I kept giggling because as readers, we were aware of the secret and her mum wasn't, so 'watching' Emily and her beau trying to match their stories was absolutely hilarious. I thoroughly enjoyed the spontaneity of the storyline and all of the characters involved, well, bar one (but you'll find out for yourself which one I'm on about!).

I haven't come across a book that was cringy, bizarre and hilarious all at once, until now. One thing has left me quite shocked though; Marry Me Tomorrow is the first novel by debut author Carla Burgess. FIRST! I had absolutely no idea that this book was her first because of the way it was written. The storyline didn't scream 'debut' one bit; instead, it felt as though Carla had been publishing books for a long time.

A fun, bizarre and unexpected read from debut author Carla Burgess. Marry Me Tomorrow ticked all my boxes and some. The perfect pick me up type book that has flown into my top books of 2016. Fantastic book, cannot wait to see what Carla brings out next!

To stop her mother from harping on her to get married, Emily tells Mom she IS married. The plan backfires when her mother decides to visit to meet Emily's new husband. Emily scurries to find someone who might

be willing to pretend to be her husband, and the person she keeps thinking of is military veteran/homeless Sam, the man she buys coffee for each day. He agrees, moves in, and the romance is underway.

I enjoyed how smoothly the author built their romance. No insta-love here. Sam & Emily slowly find themselves falling for each other and it's a pleasure to watch it unfold. The book is sweet, funny, and loaded with heart. It's a fun read on a chilly Sunday while you're sitting in front of the fire, a mug of steaming cocoa by your side. There's great chemistry between Sam & Emily, and the much-needed happy ending.

Thank you NetGalley, Carla Burgess, & Carina UK for giving me an ARC of MARRY ME TOMORROW in exchange for an honest review.

Really enjoyed this. It had a sweet, lovely meandering quality, and a tender love story. The author's voice is unique and charming.

Oh my gosh. I absolutely adored this book. This was just perfect. Yes ok in places it was sugary sweet overload but I just thought it was adorable. It had me laughing, and it made me happy and made me feel all warm and Christmassy.

It's a few days until Christmas and our leading lady Emily needs a man to pretend to be her husband as her mum is coming to town. The book starts with Emily proposing to a man called Sam. The only thing is Sam is homeless and he really doesn't want to pretend to be married to Emily.

After a lot of persuading Sam agrees after all he will have a roof over his head and food in his belly. He will be able to sleep comfortably and will be warm and dry. But same comes with baggage an ex wife, a brother whose marriage is less than perfect and a daughter that he thought was his until a paternity test proved that his ex wife had been having an affair with his cousin. The problem is they all think Sam has been off living the high life when he has actually been sleeping on the streets.

Emily has baggage too. Her dad ran off with the local girl from the chip shop and never got in contact with her again. Since then she had been scarred every man she falls in love with will up and leave her.

Emily's best friend Isn't too happy about the new arrangement. But she is the type of girl everyone needs fighting their corner as she was loyaly protective and a great friend.

Emily's mum Pam plans to visit her daughter with her new husband len but when she finds out he has been sleeping with someone else she comes on here own. Making Emily and Sams lie harder to distinguish from the truth and pushing them closer together.

Will Emily and Sam be able to fix each other?

Can Sam fix things with his brother?

Will Pam and len get back together?

Can Emily and Sam pull off this big lie?

Will Emily and Sam fall head over heals for each other and end up falling in love?

This is a great feel good Christmas book. It is about love, friendship, family, finding yourself and happiness. It will have you rethinking your views on homeless people. It will have you laughing and it will play on your heart strings. But most importantly it will make you happy it will make you feel Christmassy and leave you with a happy feeling and a big smile on your face. I loved it

Happy reading everyone

A sweet and funny love story.

Emily has one of those mothers who's always asking when she'll get married, so she tells her she *is* married and it escalates from there. :)

So many tough subjects are touched on in this fabulous book that managed to be both gritty and sweet. With a humorous dialogue, loveable characters, classic villains and many surprises it really delivers the feels.

This novel was nice and easy to read, perfect for the holiday season! Its crazy premise promised a fun read, and indeed it delivered. It was fun, quirky and sweet. I really like Sam's character. The style's strong point, in my opinion, is the dialogue writing, which is brilliant. I particularly enjoyed the phonecalls between Sam and Emily. It was overall very entertaining, and I also liked the message: you can't let your past destroy your future.

Emily is desperate, in order to get her mother who lives in New York off her back she told her that she had got married but now her mother is making a surprise trip for Christmas to come and see her and meet the husband!

How desperate can she be.....surely not desperate to pluck a homeless man off the street, clean him up re clothe him and present him to her mother as her husband....can she...and can she really get away with it?

A lovely story - Sam is a great character - an ex army man who fell on bad times and hit rock bottom until he met Emily and their growing relationship, although predictable, unfolds beautifully

This wasn't the typical christmas romance novel. When I started reading this book I couldn't imagine what would happen in this story, and after a few pages I was loving the characters and enjoying this so-particular plot. The narration was light, funny and fresh, the charactars were lovely and the development of the plot was really cool. I read this book in a few hours and then started to talk about it with my friends. If you haven't read Marry me Tomorrow yet, you should do it now!

This book has surprised me so much and is probably a book I will return to many times in the future! It has fun festiveness and so much kindness that it really makes you think about what's important in life.

Emily accidentally told her mother that she was married and now with Christmas approaching and her mother coming to stay she has to go and find herself a man!

She manages to talk a homeless man off the streets to move in and pretend to be her husband over the festive season. What could possibly go wrong??

Sam is the loveliest character I have come across in a long time and the chemistry between him and Emily is jusy lovely.

I enjoyed the story so much that I even told my husband about it. We both agreed it would make such a fun movie.

I am not really a Christmassy person, but this book just attracted me. It is just crazy to ask a man to pretend marrying you, certainly if you don't know him that well.

And yes, I was right everyone thinks Emily is CRAZY, but while I was reading I did get to know her better and she just lovely! I really hoped Sam would see that too ... Does he? Read the book!!

It is just an easy, fun, holiday season read. You will love it! Sam is very charming and witty. I enjoyed the conversations between him and Emily (and her mother too). He has his troubles though, but who does not? Why I do not give a full rating? I found some writing mistakes and I found the ending a bit rushed ... But that is just me being a little Grinch-like!

FROM HAVING NOTHING TO RECEIVING EVERYTHING!!!

I am from the States so we speak differently and that is an understatement! Once I figured out the lingo of the book I was good to go! I really enjoyed Marry Me Tomorrow! It is so heart warming! I curled up on my love seat with my hot cocoa and enjoyed every bit of this book, great Holiday read!!!

Sam and Emily both go from being lonely people who really have nothing but emotional scars to giving each other everything that they could ever want! It starts out because Emily lied to her Mom and can not tell her the truth! The twists and turns are going to have you laughing and crying!!!

Tami says

I love Christmas and I'm already ready for the holidays, so I was excited to read this. It's the perfect Christmas-y chick-lit book and the story was so cute!

The beginning started in a way that got me hooked right off the bat! Emily is thirty-four and single. Her mother is constantly nagging her to find a man. One day Emily is tired of it and she tells her mother that she's married. So her mom decides to come visit for Christmas to meet the husband.

Emily is desperate to make her mother happy, so she asks a homeless man (Sam) to pretend to be her

husband. He reluctantly agrees and for the next few weeks, Sam and Emily pretend to be a happily married couple. But then things start to get complicated.

Like I said, this book was cute and it made me laugh. The characters were (mostly) likable and Sam was perfect; my favorite male character since Mr. Darcy! The chemistry between the two main characters was great. And I loved the ending!

The only complaint I have is that it definitely needs more editing. There were parts of the story that were contradicting (e.g. Emily gives two different versions of how she accidentally let it slip to her mom that she was married.) But I'm sure it'll get fixed; other than that, I loved it!
