Alice has loved this book since she was six months old. Half the pages are ripped or inoperable and it's still one of her favorite books. I do find it a bit creepy when Superman uses his x-ray vision to spy on Louis from behind a brick wall.

### **Tabi Shelton says**

Brayden loved it. He especially likes the touch and feel aspect of the book.

### **Sean Gibson says**

There are a few pages in this book that seem to suggest Lois may be naught more than a beard... nonetheless, my little guy loves it, so we'll go 4 stars. ;)

I think this book is great for toddlers and even older children too. The pull out, and touch and feel pages are really interactive and would keep the children engaged. I would use this book in a superhero theme that could take place in my classroom.

**John Yelverton says**

Really cute book which concisely gives the low down on Superman and his powers for the young reader. A great way to get your child interested in comics.
