## Property of Drex #2 C.M. Owens

The conclusion of Property of Drex.

What's the most selfless thing you've ever done? What price tag would you put on the ability to save the ones you love?

They say the worst decisions are made by the desperate or the fools.

I was desperate enough to make a foolish decision to save my family. The cost? Me.

They may be a motorcycle club, but in all honesty they're really an elite unit of criminals who just happen to drive motorcycles. They're a business. An organization. A fully functioning army...

What I've learned? They work in the gray area; life and death is real; and everyone wants everyone dead. Okay, so maybe that's dramatic... No. No it's not. It's legit.

I prepared for the worst, fully anticipating hating my new life. Turns out, I finally found out where I belonged. Oh, and I discovered I'm a little twisted or crazy. Maybe both.

Drex Caine, the man without a conscience, didn't ruin me the way I thought he would. Instead, he made me feel like I was living instead of just waiting to live. And I can never go back to the way things used to be.

Hooked, addicted, or whatever you want to call it. Hands down this is the best MC series I've read to date. I am completely in LOVE with Drex. The sub characters are so vivid in this story and they play significant parts that fit seamlessly. Also, I actually really like the heroine. Usually heroines get on my nerves so bad I'm ready to break or throw something.

SARAH is one BAD Heifer! Wish I had her as a bestie because the girl is a straight trip! I love it. The author makes Sarah's character sexy as hell in the baddest way.

Hope the next book is out already.

[No oral for either one. No breast play. No nipple play for Drex even though his were pierced. And of course, no anal. (hide spoiler)]

I don't know what it is about Property of Drex #2 but this book just does it for me! Maybe its the action and suspense with bad men wearing leather with cockier attitudes. But whatever it is, I'm hooked, stoked for the next read! I wished there would have been more interaction and dialog with Eve's uncle, but ehhh it is what is! Plus I would have like to seen more of the estrangement between Pops and Drex! Nothing like a little in house war to get the ole ticker pumping!

#### **4.5 Watch the Dominoes Fall, Stars**

*It's all a row of dominos, remove one, and they can't all fall. Everything was pieced together to bring her to me.*

\*\*\*\*\**May Contain Spoilers*\*\*\*\*\*

It starts where the first one ends, Drex wakes up after being knocked out. He believes he has to do what's right for Eve by setting her free. She is not 100% free as he puts men on her to keep tabs, he has his 'stamp' tattooed on her shoulder and threatens to kill anyone who goes near her. But is she safer now she is not in his world.

Eve is taken, tied up and given no drink or food for 4 days in an effort for the enemy to extract information. Although a little morbid on my part, I found her hallucinations really funny and I am pretty positive the author was going for funny as its done with the same sarcastic flare that's throughout the book.

*Something drops and rolls around on the ground, but I can't lift my head enough to see what it is other than a blur of motion from my peripheral. Is that a ball? Fetch, Fido! Fido... B I N G O and Bingo was his—*

The push and pull in this one is real as Drex continues to try and keep Eve safe and out of club business. If he can keep her safe with him or should he or could he send her away again. I usually **HATE** to much push

and pull but in this its not too bad because it's a fast paced read.

What I did miss was the amount of insanely hot scenes from the first book, I know I asked for more of the MC side but a balance of both would have been better \*lol\* (don't ask for much, do I?)

The sex scenes that are in it are just as hot and still hold that fierce bond between Drex and Eve that seems to be of the charts!!

Joking aside this book has a more serious feel with everyone investing so much into figuring out who is with them and who is trying to bring them down. I liked all the characters and reading all the side stories, I am interested to see where the author is going to take this series.

I really really liked these two!

It's definitely one of the best MC books I've ever read!

### **Deborah says**

WOW. Fabulous read.

I'll be honest and admit that this and the previous book 'Property of Drex' are the first books I've read by this author and I can't get over just how much I've enjoyed them.

I don't give 5\* often or easily but I enjoyed this book so much it just wouldn't be fair to give anything less. This book picks up straight after the cliffhanger of the previous one, Drex is in hospital and suffering from concussion and Eve is with Drake, who's not answering his phone.

I'm not going to say anything about the story because I'd hate to inadvertently spoil it for you but I loved it, the story itself held me, it's a hot read with a tall tattooed biker and his equally hot and sexy brothers.

Drex is fabulous, Eve discovers the woman she's meant to be and there's an amazing collection of secondary characters including Axe, Drake, Rush, Dash plus Snake and Sarah.

I'm still actually surprised by how much I loved this book and I can't wait for 'Axe's Brand' the third book in this series.

Someone pinch me! Am I dreaming? A safe MC romance??? Could it be real? I need to read this one.

## **DW says**

I think that I fell in love with Drex Cain. He is one sexy MC VP.

I liked him in part one but he really showed his soft spot for Eve in part two.

Drex and Eve were hot as hell and made the perfect couple. I think that once Eve realized that she belonged in Drex's world, she became a whole new person. In part one, Eve was timid and nervous but she really showed out in part two. She stood up for Drex and had his back against some of the scariest MC guys in town. I really liked Eve's character.

Axles story is next so I will be reading that one because I really liked Axe.

If you like MC books, you might like this series!!

### **Beware of Spoilers!**

#### **Star Ratings:**

Heroine (Eve): 5/5

Hero (Drex): 5/5

Plot: 4/5

Grovel: shows rather than tells

Cheating: none

HEA: yes but no epilogue due to continuing series

Triggers: none

#### **Average score: 5/5**

Best Lines: *“He’s a fucked-up Romeo, and that dark, twisted side of me I didn’t know existed loves him all the more for it.”*

Worst Lines: *“You can’t thwart everyone at once, Drex.”* – because who says “thwart” nowadays?!

#### **Personal Review:**

This was the perfect ending to Drex and Eve's love story. I loved that Eve became so strong-willed and that Drex allowed himself to become more vulnerable.

Brilliant series so far!

**Random Ramblings:**

- Pleasantly surprised with Eve's development as she was no pushover in this book!
- I want to read more about Sarah
- I have to say, I did get confused with all the "feds" talk

**Overall Feeling:**

Can't wait for the next book!

**ZARIA (Sheldon Cooper lover) says**

Liked it but mostly because dress was such a alpha possessive jealous men, those are my favorite. This one falls in the realm of cheestastically ridiculous, but in a good way! My problem is with repetitive dialog (trust issues) and lack of action that really holds my attention, but overall it was a good book. ...

3.5 stars. I didn't like this one quite as much as the first. The MCs were pretty much separated for the first half of the book. Once they got back together, they were solid. I'm really looking forward to Axel's story.
