Sam Barclay aceptaría ser el padre y Corrie Edwards conseguiría el bebé que siempre había deseado. Parecía un buen plan, hasta que Sam, su donante de esperma decidió que quería la oportunidad que el destino ya le había negado una vez, la de ser padre en todos los sentidos. El romance no entraba en los planes de Corrie, iba a ser un estricto acuerdo de negocios. Sin embargo, cuanto más se acercaba el momento de la concepción, más deseaba Sam que la relación fuera personal. ¿Podría convencer a Corrie de que juntos podían formar el hogar y la familia que ambos anhelaban?

## From Reader Review Refugio para un corazón for online ebook

### Kiki says

Hero went into a full blown relationship with OW AFTER sharing an "Earth-shattering kiss" with heroine. His word. Not mine.

So he actually slept with OW, WHILE being attracted to heroine if not being in love.

He was fully involved with OW.

He was ENGAGED.

IF OW didn't abort his baby WITHOUT consulting him, he'd be with her.

He would still be with her if she just aborted the baby AFTER consulting him. All he needed was inclusion. If not for the abortion, he'd be married to the OW.

He was pretty much in love with her, and was VERY attracted, all while knowing heroine and after sharing a connection with her.

While of course heroine stayed Celibate.

Heroine may have trust issues, but he didn't even TRY. he was EAGER to build his life with OW.

He has to be the weakest of men, not a hero I can admire.

He only had sex with heroine because, they had chemistry and it fulfills his desire.

For his selfish reasons.

He offered nothing while knowing she has trust issues, he still said, why can't we be friends with benefit if we're having fun and meets our (read HIS) needs.

Yet he had no trouble calling the OW selfish.

He chose heroine simply because she was ready to give him the baby then.

She felt like not JUST a second choice but a very convenient second choice and definitely a rebound.

The book had a heavy lingering presence of the OW.

Also, let's revisit the fact, IF not for the abortion, he'd be married to the OW. Where does that leave out heroine at?

\*\*\*also I forgot to add how he ONLY wanted the baby.

He selfishly wanted everything she could give him without commitment or any promise yet he let his brother convince that the heroine is a selfish bitch because the heroine was considering a full time job or going to move to another city. She was "considering". She promised to talk to him before making any decision because she's a considerate person but she didn't owe him ANYTHING because he agreed to her sole custody before the whole thing and he only changed his mind now.

When he heard she's going to move. He didn't for a moment think ANYTHING about losing her, he was panicking because he doesn't get to play part-time daddy. He went behind her back and drew up a legal agreement to keep joint custody while she never made any notion of making any decisions without consulting him. Yet he did this to her because SHE is selfish. The woman he never realised was sexy despite being attracted to until his sexy fiancée betrayed him and until she was almost pregnant with his child. Who despite demanding sole custody never made any decisions without him. She asked for a little time, and he backstabbed her.

So no, I don't believe his declaration of love very conveniently AFTER she was pregnant and after she said she loved him. He was just scared that she'll stop loving him and fall in love with someone else later and he'll lose the baby to them. It was ONE paragraph. NOTHING changed, there was no build up apart from sexual chemistry. So I don't believe his declaration of love or the HEA.

**Callie James says**

Another of Karen Rose Smith's books in the Dads in Progress series that I just had to read. The hero was introduced in her first book of the series (The Daddy Dilemma) and I just loved him. I had to see his happy-ever-after.

Very enjoyable. Really liking this author. I hate that I just now discovered her (long after she wrote these books!).

Not the greatest but not definitively bad either. It's just a little rushed and personally I think the situation itself is a little awkward.
