Rightfully Mine

Doris Mortman

Rightfully Mine Doris Mortman

For Gaby Cocroft, home and husband are everything-until the day she is suddenly left alone, without work, without money, without love. Summoning the courage to start over, she gambles all on the tantalizing lights of New York-only to discover that for a woman like her, the doors of the city remain firmly closed.

Susan Moody says

Excellent book, lots of intrigue

I loved this book and Gabrielle Didier. All the characters were interesting and had their own stories within Gabriel's story.

Wendy says

My mom sent me this book while I was on bed rest and I never got to it. I was without a book club book to "have" to read and hadn't picked up any others so I grabbed this one and WOW am I glad I did! It's a long one, but I LOVED it! It's not a newly published book so you might need to search for it, but you will be glad you did!

Rosalyn Mcmillan says

It was an intriguing book. Her prose is excellent, as are her descriptions. I love the fact that she has strong female characters.

Amy says

Read it when it first came out in 1988. It left such an impact on me I still have my hardcover copy (and I rarely ever keep books!)

Jackie says

A novel about a woman who works to remake her life. It weaves together a wonderful combination of romance, intrigue, and mystery, from past to present. Great for those curl up on the couch, rainy days.

Alicia Tompkins says

Lots of detail about the art and auction world. Perhaps too much going on in the book but a good light read. I had really enjoyed her Wild Rose novel because of the Hungarian history and setting.

Jodi - JodiArts says

This book contains everything that has the makings of a fabulous movie with a great plot.

Antiques, art, forgeries, love triangles, affairs, unrequited love, high stakes auctions, Interpol, smuggling... The Louvre, Paris, Geneva, dangerous skiing... Even a suicide and the reasons why it was committed.

Such a great book. Feels a lot like "The DaVinci Code." Yet this book predates that one, if I am not mistaken.

I hope a good director wakes up and turns this into a great movie at some point.

Evelina Wood says

I found this book at my local library and couldn't put it down. I absolutely loved it!! Great characters, great story line and wonderful descriptions. Some people prefer to read stories with minimal descriptive prose, but the research that went into creating this was not thrown at the reader, it was woven across several storylines and created a vibrant work of fiction. I definitely want to read Mortman's other novels.

Maria Zapanta says

the novel, i dare say, is outright fascinating. for all i know, it never crosses my mind whenever i get to hear about tapestries, antiques, dinants and whatnot. but not until i've read this book. i grew interested with auctions and just about everything that the book has to offer. doris mortman is vehemently an amazing and a brilliant writer. it's as if the characters in the story are nothing but real and living. :)))

Marianne says

Sheesh! I finally finished this book....new author for me. I liked the plot and the characters, but personally, I found the endlessly detailed descriptions of rooms, furnishings, antiques, colors, annoying and distracting, which made the book way too long for me. But, probably, that was the author's point.....the rich furnishings.

That being said, I did learn a lot about high end antiques, the dealers, brokers and auction houses.

S Miller says

Used - Acceptable (Loose and torn front cover; Back cover intact; Many creases in spine)

Vanessa says

A journey of mystery, reinvention, and wealth. Such an intriguing read!! Get ready to invest some time in reading with this 705 page turner!

Yhana says

Second Mortman novel I've read. Themes are the same: wealthy NY families, usually tied to Jewish faith, plots crossing the pond from NYC to Western Europe and a central female character that's fighting in some way for her own independence. Despite the sameness of the two books I've read thus far, it's still easy to get lost in her epic tales. Entertaining read.

Nancy Brady says

Again, read this Mortman novel many years ago, but it is the story of a woman who re-invents herself after her husband leaves her financially and emotionally bereft. Gaby becomes an antique dealer and her specialty leads her to love. Another complex, mesmerizing tale by Mortman--it was the first of hers that I ever read, which convinced to read more of her novels.

Carol says

Love this author.
