## **The Rock Harbor Collection: Without a Trace, Beyond a Doubt, Into the Deep, Cry in the Night, and Silent Night** Colleen Coble

USA Today" best-selling author Colleen Coble's Rock Harbor series now available in one volume!

### *Without a Trace*

Bree thinks a plane crash took the lives of her husband and young son, but her son Davy survived the accident. Can she find him before it's too late?

### *Beyond a Doubt*

Evidence of a violent crime in Bree's basement causes police to re-open a cold case. Can she and her K-9 search dog, Samson, stop the killer before he strikes again?

### *Into the Deep*

When Bree's dog Samson goes missing, it's just the beginning of her life turning upside down.

### *Cry in the Night*

Bree and Samson discover a crying infant in the snowy Rock Harbor forest. But where are the baby's parents? And how did she get there?

### *Silent Night*

As Christmas day nears, Bree and her faithful search-and-rescue dog Samson follow the trail of a troubling mystery into the snowy forests of Rock Harbor.

### **Janet Merrell says**

Absolutely terrible. I only managed to get through the first two (barely) before abandoning the series. Juvenile, shallow writing with no character development. I couldn't care less about any of the characters. I really liked Coble's Lonestar series, but this series was completely different and I won't continue to waste my reading time.

---

### **Norma says**

This is one of the best books I've read lately. I highly recommend it. Added advantage was that the series was all in one collection.

---

### **Elizabeth Johnson says**

I got this 5-book series by Colleen Coble for a dollar or two on Kindle, and thought it might be similar to my favorite Dee Henderson novels. It had the crime and suspense, but I was disappointed in the “spiritual” aspects. In the first book, a major character gets saved; but after that, the only Christian influence was a few mentions of prayer and an occasional discussion about faith or forgiveness — unlike Dee Henderson’s books, where character wrestle with very real spiritual struggles throughout the whole story. Additionally, after the first two books, the events started getting weirder and more unrealistic, and most of the characters didn’t continue to develop in a believable manner. I don’t mind that in science fiction, but I prefer my mysteries to be believable and the characters to feel real. I give the author props for creativity and a good writing style, but this is not a series I’d generally recommend.

### **Joy Lokey says**

### **Frigid reading for a South Texas girl!**

As each of these Rock Harbor stories unfolded, I found myself picturing the snow and ice so foreign to my

neck of the woods and shivering on the inside. Too bad it was only imaginary chill as I sweat in the 100 degree temps down here in South Texas! I enjoyed the opportunity to imagine what living and working in the UP might be like, so different from this hot, arid climate where A.C. is a must 3/4ths of the Year. Colleen is a great suspenseful story teller who kept me on the edge of my seat through this sequel series. I fell in love with Bree's brave dog and strong mother-in-law, Anu. I might have to look up the recipe for pulla! Thank you Colleen, for drawing me into one of your inspiring heroine's adventures once again! I enjoyed this series immensely!

---

### **Nancy Drew says**

**Great five books, should have been six.....**

Loved the collection....everything flowed good in books 1-3, being months and a year apart in the story continued timeline, but then there was a huge gap in book four, I mean come on with a three year jump that we really don't get to find out what exactly happened over those three years, with very few things explained..... book four was good, but seemed like so much was missing, as in book five was short, and didn't like how the ending just came up and was explained as an epilogue.....

### **Sonya Aydel says**

**Had to do it**

When this whole series popped up on sale on my OHFB email, I had to grab it. I am pretty sure I read at least parts of it years and years ago. It was fun reading it all as one continuous story. I love Colleen's writing and the characters in this series are just fun to follow and watch grow!

---

### **Meagan says**

**Must I be done?!**

This whole series was fantastic. So great to have them all out (and in an omnibus!), so I could keep reading back to back!

I kept thinking each book I was reading at the time was my favorite...I don't think I could pick one, they were all that good. Whatever will I read next?!

---

### **Brenda Connors says**

**Wow these were great!**

I really loved these books, my favorite characters were so likeable and human. The stories flowed so well and I learned so much about search dog rescue!

---

## **Kathy says**

### **Wonderful series**

Bree Nichols and her search and rescue dog, Sampson take us on quite a journey. From searching for her own son, Davey, who is lost due to a plane crash that took the life of her husband, Rob to finding true love with Park Ranger Kade Matthews. Colleen Coble has put together a series of whodunits that keep you coming back for more. I couldn't get enough!

---

## **Chelsa Swedberg says**

### **A wonderful series!**

I loved these books! Colleen Coble truly knows how to write, I was drawn to the characters of Rock Harbor from the beginning. I was so invested in their lives and adventures, I read the whole series in less than a week! The whole series has the perfect mixture of faith and learning to lean on God, romance, adventure, mystery, and the importance of family. Following along with Bree, Samson and Kade was a treat. I wish they didn't have to end.

---

## **Drduby says**

Basic mysteries with little depth or surprises. My biggest problem with these stories was the dialogue. The author needs to stick with historical stories and not try to write contemporary. Her vernacular was dated...like 1950s dated. The few times she attempted to use words like "hottie", I was literally cringing.

---

## **Ruth Jessen says**

### **So many mysteries...**

Seriously. So. Many. From main character introductions all the way to the ending novella, the mysteries, suspense, and romance of it all will keep you turning the page. Oh, and I now need to visit the UP.

---

## **Delinda Mauney says**

I have read all 5 of the Rock Harbor series. I love them all. I love Bree and Samson. It makes me want to have a rescue dog. You can read the author's words and descriptions of the area in the Upper Peninsula and you feel as cold as they are in the snow. I love the author for that fact. You feel like you are really there.

The story lines are good in that you never know what is going to happen next. There is always an interesting

turn in the story.

I love Samson and hearing her talk about the rescue dogs and how they work. It is a series well worth reading. I have just started the Aloha Reef series. Can't wait to see what is in store in Hawaii.

### **Nfloodtularosa.net says**

#### **A nice collection of romantic suspense novels**

A nice collection of romantic suspense novels. They are solid mysteries without all the long descriptive sex scenes so many books have these days. You'll find the characters interesting and the plots complex.
